hands on with arithmetic blocks Thereby every child can understand base ten arithmetic And every child can learn how to count out the number facts like 5 7 12 17 8 9 6 X 7 42 and 56 7 8 and if they forget one never have to guess and risk ridicule and bad grades if they guess wrong What matters in teaching arithmetic is not how much a child can remember but how much they can figure out if when they forget

The Big Influence of Small Things Brett Blair,Tim Carpenter,2003 Anyone who has done children s sermons will sooner or later hear from someone that I learn more from the children s sermon than I do from the real sermon And indeed the truths of scripture are so simple that even a child can understand them So it s no accident that children s sermons have become a central part of the worship service in many churches Brett Blair and Tim Carpenter offer a year s worth of object lessons that engage children and impart profound lessons for all ages Two sermons are provided for each Sunday in Cycle A of the Revised Common Lectionary one based on the Second Lesson and one based on the Gospel The messages are structured in two parts the lesson uses an object to draw out active responses from children then the application connects that object to the assigned scripture reading Each message includes a clear statement of its exegetical aim Bright innovative perceptive creative grace filled Brett Blair and Tim Carpenter are all of those and much much more and that is reflected beautifully in their new book
