Make Money In Diving:

The Simple Guide to Commercial Diving Steven M. Barsky, Robert W. Christensen, 2004 This book is for the person who is considering a career in commercial diving or who is enrolled in commercial diving school It presents the facts both good and bad about careers in commercial diving It covers all aspects of the field from choosing a school to applying for a job and how to work your way up in the industry

Scuba Professional Simon Pridmore, 2019-01-22 Scuba Professional introduces readers of Simon Pridmore's other books Scuba Fundamental Scuba Confidential and Scuba Exceptional to a whole new level of the sport Whereas the other books focus on how to scuba dive Scuba Professional looks at how diving is taught and how dive operations are conducted Scuba Professional is an excellent source of out of the box ideas and independent objective advice for instructors and dive operators It is also an indispensable guide for those aspiring to become dive professionals with chapters such as Do You Have What It Takes and Which Training Agency In short this is everything you wanted to know about working in scuba diving but never dared to ask Scuba Professional is not only for professionals Serious divers who take more than a passing interest in their hobby and want to know what goes on behind the scenes will be fascinated by the topics addressed and the insights offered From a dive safety point of view Simon looks at the bigger picture and in a series of chapters on avoiding and handling accidents sets out a framework for developing the safety culture within our sport He also examines the present state of key aspects of the dive industry and speculates as to the future There is quite simply nothing like this book the ultimate backstage pass into the business of scuba

Scuba Compendium Simon Pridmore,2021-08-23 Only available in e book form this is the presentation in one volume of four books in Simon Pridmore s Scuba series Scuba Fundamental Scuba Confidential Scuba Exceptional and Scuba Professional In musical terms Scuba Compendium is a re mastering and repackaging of the original albums rather than a greatest hits or a Best of compilation The books were written and published over a period of eight years and each book was designed for divers at a particular point in their diving life Listed in the order they were written the audience for Scuba Confidential was the general population of divers Scuba Professional was for those thinking of making a career out of the sport Scuba Fundamental was for non divers and beginners and Scuba Exceptional was for more experienced divers The idea was not to create a series It just turned out that way A number of topics merited inclusion for multiple groups of readers rebreathers and surface safety for example which meant that there was some unavoidable overlap between the individual books In Scuba Compendium the text and chapters have been cleaned up and streamlined to remove any unnecessary repetition and improve continuity Apart from this nothing is missing from the four original books and the only new material is an introductory chapter on the philosophy behind the Scuba series So if you already own all the books in the Scuba series from a content point of view you have no need to buy this one However from a reference point of view some readers may find it an advantage to have these four books in one volume where every word or phrase in the series is easily searchable on an e reader They are arranged here in the order in which they make sense as a series following the path from beginner to diver to experienced diver to expert Scuba Compendium covers the full gamut of the sport diving experience and is a resource that will accompany a scuba diver throughout their career in the sport wherever it takes them to be dipped back into from time to time whenever

necessary If you only own one or two books in the series then you may find Scuba Compendium well worthwhile for another reason too For instance if you are not a beginner you may think you don't need to read Scuba Fundamental but many experienced divers have found it useful and entertaining Also Scuba Professional introduces a number of topics such as real risk awareness and constructive paranoia which are just as relevant for amateur divers as they are for professionals Although the title makes it sound as if Scuba Professional is only for instructors this is certainly not the case And of course if you have not yet bought any of these four Scuba series books then this is a great option to buy all of them together with just one click Scuba Fundamental is a great book Simon Pridmore is to be congratulated for this insightful interesting and honest introduction to scuba diving He tells it as it is John Lippmann Divers Alert Network If PADI's Open Water manual is the Bible of scuba diving consider this the New Testament David Espinosa Editor in Chief Sport Diver magazines I so wish Scuba Exceptional had existed when I was in the early days of my diving life nearly 30 years ago Phil Short explorer and pioneer There is quite simply nothing like Scuba Professional It is the ultimate backstage pass into the business of scuba Jill Heinerth explorer and filmmaker
