Smith,Ruhiya Kristine Seward,2020-08-25 Drawing on ten years of empirical work and research analyses of how open development has played out in practice A decade ago a significant trend toward openness emerged in international development Open development can describe initiatives as disparate as open government open health data open science open education and open innovation The theory was that open systems related to data science and innovation would enable more inclusive processes of human development This volume drawing on ten years of empirical work and research analyzes how open development has played out in practice **Claim-Making in Comparative Perspective** Janice K. Gallagher,Gabrielle Kruks-Wisner,Whitney K. Taylor,2024-03-06 Claim making the everyday strategies through which citizens pursue rights fulfilment is often overlooked in studies of political behavior which tend to focus on highly visible pivotal moments elections mass protests high court decisions legislative decisions But what of the politics of the everyday This Element takes up this question drawing together research from Colombia South Africa India and Mexico The authors argue that claim making is a distinct form of citizenship practice characterized by its everyday nature which is neither fully programmatic nor clientelistic and which is prevalent in settings marked by gaps between the state s de jure commitments to rights and their de facto realization Under these conditions claim making is both meaningful there are rights to be secured and necessary fulfillment is far from guaranteed Claim making of this kind is of critical consequence both materially and politically with the potential to shape how citizens engage or disengage the state California. short of expectations Impact investing has shown great promise as a major transformational investment paradigm but in practice under performing woefully and its prospects are dimming It comprises less than 1% of the world s equity investments and too many claims of success are more about marketing and reputational value than hard evidence of positive social impacts Drawing on over a decade of hands on experience this book presents a unique combination of a how to guide and a reimagining new models frameworks techniques and tools of what impact investing could be and could accomplish It points to a new direction for future impact investments achieve higher financial returns more positive social and environmental impacts and lower risks than conventional investments Readers will learn what actions should be taken at each stage of impact investing and which models analytic frameworks and techniques to use and how to use them for optimal results This book offers a step by step guide to how impact investing can achieve its promise of transforming global investments into a powerful positive force for change It is an inspiring and comprehensive resource for anyone who wants to understand how impact investing works and how it can be done better from professionals at foundations international NGOs consulting firms and government agencies to students of finance public policy ESG sustainability and international development

Making Forest Policy Work A.I. Fraser, 2002 Policy issues relating to forestry have been the subject of much debate in recent years and many countries and international agencies have recently or are currently in the process of revising their policies for forestry Much of this debate has implied that previous policies have failed or been much less successful than had been hoped There is a tendency to think of policy as a matter for governments but it is now more widely appreciated that all shareholders in the forestry sector have a legitimate interest in both the policy objectives and the means that will be used to implement it This book is mainly concerned with the process of developing policy and the subsequent implementation than in specific content though many of the important issues which policies must address are discussed It is based on a review of many case studies with which the author has been personally involved over the past 40 years
