Introduction to New and Alternative Religions in America William M. Ashcraft,Eugene V. Gallagher,2006-10-30

Most new or alternative religious are gravely misunderstood by members of the religious mainstream Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large Despite their efforts at educating the general public the various anti and counter cult activists have in fact promoted much more mis understanding than accurate understanding of the religious lives of some of their fellow citizens Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream This set rectifies the situation by presenting accurate comprehensive authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context Determining what actually constitutes a new or alternative religion is a subject of constant debate Questions arise as to a new faith s legitimacy beliefs methods of conversion and other facets of a religious movement s viability and place in a given culture How a religion gains recognition by the mainstream which often labels such new movements as cults is fraught with difficulty tension and fear Here experts delineate the boundaries and examine the various groups beliefs movements and other issues related to new faiths and alternative beliefs Readers will come away with a fuller understanding of the religious landscape in America today Volume 1 History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved Volume 2 Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths Groups such as the Shakers the People s Temple the Branch Davidians Jehovah s Witnesses and others are examined Volume 3 Metaphysical New Age and Neopagan Movements looks at Shamanism Spiritualism Wicca and Paganism among other movements as they have developed and grown in the U S These faiths have found new and devoted followers yet are often misunderstood Volume 4 Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions From Baha i to Soka Gakkai from Adidam to the Vedanta Society contributors look at a full range of groups practicing and worshiping in the U S today Volume 5 African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as

Rastafarianism Santeria and the Nation of Islam alongside traditions that are truly American incarnations like Scientology UFO religions and Heaven s Gate Some of the new and alternative religions covered in these pages include Shamanism Wicca Black Israelites Santeria Scientology Elan Vital Hare Krishna Soka Gakkai and many more Crossing Religious Boundaries Marloes Janson,2021-06-10 Religious pluralism as encountered in multi faith settings such as Nigeria s biggest city Lagos challenges much of what we have long taken for granted about religion including the ready made binaries of Christianity versus Islam religion versus secularism religious monism versus polytheism and tradition versus modernity In this book Marloes Janson offers a rich ethnography of religions religious pluralism and practice in Lagos analysing how so called religious shoppers cross religious boundaries and the coexistence of different religious traditions where practitioners engage with these simultaneously Prompted to develop a broader conception of religion that shifts from a narrow analysis of religious traditions as mutually exclusive Janson instead offers a perspective that focuses on the complex dynamics of their actual entanglements Including real life examples to illustrate religion in Lagos through religious practice and lived experiences this study takes account of the ambivalence inconsistency and unpredictability of lived religion proposing assemblage as an analytical frame for exploring the conceptual and methodological possibilities that may open as a result

Encyclopedic Dictionary of Cults, Sects, and World Religions Larry A. Nichols,George Mather,Alvin J. Schmidt,2010-02-23 Up to date well documented comprehensive coverage of cults sects and world religions from the historical to the contemporary INCLUDES Well known groups and world religions such as Jehovah s Witnesses Mormons Islam and Baha i Groups with a significant North American influence including Santeria Rastafarians Haitian Voodoo white supremacy groups Wicca and Satanism REVISED UPDATED AND EXPANDED TO INCLUDE NEW ENTRIES AND NEW INFORMATION Updated information on Islam and its global impact New entries the Branch Davidians Native American religions Heaven s Gate Aum Supreme Truth the Boston Movement the Masonic Lodge and many others Developments in the world of cults and the occult Encyclopedic Dictionary of Cults Sects and World Religions is arguably the most significant reference book on the subject to be published Formerly titled Dictionary of Cults Sects Religions and the Occult it provides reliable information on the history and beliefs of nearly every form of religion active today This extensively revised edition includes new topics updated information and a brand new format for a clearer more organized approach The authors evaluate the beliefs and practices of each group from the perspective of the Bible and the historic creeds of the Christian church You ll also find group histories numerous illustrations charts current statistics websites bibliographies and other useful information *How To Study The Sacred: An Introduction To Religious Studies* Andrea Diem-Lane,2014-05-29 Why do we find historians psychologists sociologists anthropologists even neurologists so interested in religion in the first place Perhaps it is because religion is less about God than it is about human beings representing our psycho social emotional biological state our cultural values and our overall history The purpose of this book is to introduce the student to the main

questions in religious studies and to survey some of the dominant theories drawing from a variety of disciplines In sum it is a short introduction to the field of religious studies **Religions of the World** J. Gordon Melton,Martin Baumann,2010-09-21
