Making Of The Christian World:

The Making of a Christian Mind Arthur Frank Holmes, 1985 **The Making of the Christian World** J. Payne, Robert Payne, 1990 The Making of the Christian World Robert Payne, 1966 *Making the Best of It* John G. Stackhouse Jr., 2008-04-02

What should be the Christian's attitude toward society? When so much of our contemporary culture is at odds with Christian beliefs and mores, it may seem that serious Christians now have only two choices: transform society completely according to Christian values or retreat into the cloister of sectarian fellowship. In *Making the Best of It*, John Stackhouse explores the history of the Christian encounter with society, the biblical record, and various theological models of cultural engagement to offer a more balanced and fruitful alternative to these extremes. He argues that rather than trying to root up the weeds in the cultural field or trying to shun them, Christians should practice persistence in gardening God's world and building toward the New Jerusalem. Examining the lives and works of C. S. Lewis, Reinhold Niebuhr, and Dietrich Bonhoeffer for example and direction, Stackhouse suggests that our mission is to make the most of life in the world in cooperation with God's own mission of redeeming the world he loves. This model takes seriously the pattern of God's activity in the Bible and in subsequent history of working through earthly means through individuals, communities, and institutions that are deeply flawed but nonetheless capable of accomplishing God's purposes. Christians must find a way to live in this world and at the same time do work that honors God and God's plan for us. In an era of increasing religious and cultural tensions, both internationally and domestically, the model that Stackhouse develops discourages the all-or-nothing attitudes that afflict so much of contemporary Christianity. Instead, he offers a fresh and refreshingly nuanced take on the question of what it means to be a Christian in the world today.

The Christian World Martin Marty, 2009-01-13

In this cogent volume, historian Martin Marty gives readers of all faiths a brief yet sweeping account of Christianity and how it grew from a few believers two thousand years ago to become the world's largest religion. He depicts the life of Christ and his teachings and explains how the apostles set out to spread the Gospel. With a special emphasis on global Christianity, Marty shows how the religion emerged from its ancestral homeland in Africa; the Levant and Asia Minor; was imported to Europe; and then expanded from there to the rest of the world. While giving a broad overview, Marty also focuses on specific issues such as how Christianity attempts to reconcile with the teachings of Christ, some of its stances on armed conflict, justice, and dominion. *The Christian World* is a remarkable testament to how Christ's message has touched human experience everywhere.

Christians Today—Questions—Choices We Make ! Charles Phillips, 2019-05-31

The one purpose of this book is that you can understand the relationship our Creator God wants with His children that He has created on this earth. As you have read and discover how far we all have departed from what our Creator made at creation week, we all need to renew our relationship with our Creator God. My friend, whoever you are and wherever you are and no matter how far you have gone away from God, this call is for you. Accept Christ's atoning sacrifice for your sins there on Calvary's cross where the old account was settled.

D. Downey,Stanley E. Porter,2009-04-15 This book an edited compilation of twenty nine essays focuses on the difference s that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who

embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful

Biblical Economic Policy: Ten Scriptural Truths for Fiscal and Monetary Decision-Making David Arnott PhD, Sergiy Saydometov PhD ,2021-09-06 What does the Bible say about economics A lot What about socialism which is becoming an increasingly common concern in US economic policy discussions In *Biblical Economic Policy* Arnott and Saydometov build a biblical framework for analyzing national economic policy that takes on everything from taxes to spending to tariffs to minimum wage The Bible has something to say about all these critical present day issues and this book explains how to apply it to 21st century policies Authors Dave Arnott and Sergiy Saydometov hold up the mirror of the Bible and ask their fellow Christians Is this the way we re supposed to run a biblical economy What the book is not It is NOT a financial advice book It is NOT about how to apply business principles at work It is NOT about stewardship or giving It is NOT about how to run your business for the glory of God *Biblical Economic Policy* takes the macroeconomic view and analyzes how well America s economic policies align with biblical principles This book tackles difficult present day economic policies including taxes spending national debt interest rates and money supply Written with sound biblical grounding in accessible language *Biblical Economic Policy* will turn the common reader into a biblical economic analyst

Making Charisma Anthony J. Blasi, The authority of charisma entails a devotion to the exceptional sanctity heroism or exemplary character of an individual person In the sociology of religion it has long been held that the authority of institutions is legitimated by their identification with charismatic personalities However in this book which examines the construction of St Paul s public image Anthony J Blasi argues that charisma comes as much from us as it is projected by the personages It is a work of the collective imagination and a fulfillment of a social need Thus the charisma of St Paul is shown to emerge as much or more from the dynamics of early Christianity s institutionalization as from the person of Paul While acknowledging the importance of certain features of Paul s actual biography the principle focus of the book is on how Paul became an important personality in Christian tradition in the decades immediately following his death The ability of the charismatic personality to make acts and creeds religiously legitimate is usually thought of by sociologists as producing normative organizations such as churches but here it is shown that Paul s charisma was consciously fostered and promoted by the incipient Christian church The book is divided into segments that examine the social construction of charisma the role of St Luke in fashioning Paul s posthumous image the traditions and legends that grew up around Paul after his death including inauthentic Pauline letters written in his name and the dynamics of constructing the image in the religious and historical context of the time The author concludes with a reconsideration of what is meant by charisma and how it is created This is one of the few studies which takes advantage of the methods of literary criticism to explore the social

processes at work in early Christianity Making Charisma will be of interest to sociologists of religion and a wide range of scholars interested in the history of religion **Culture Making (EasyRead Large Bold Edition)** Andy Crouch,2009 Andy Crouch a senior editor for Christianity Today International discusses the creation and cultivation of culture and how Christians can and should be involved in the creative process *The Making of Manhood Among Swedish Missionaries in China and Mongolia, C. 1890-c. 1914* Erik Sidenvall,2009 Over the last thirty years issues of gender have been creatively explored within the field of mission studies Whereas the life and work of female missionaries have been fruitfully reflected upon male gender identity has often been understood as an unchanging category This book offers a pioneering account of the relationship between missionary work and masculinity By examining four individual men this study explores how self making occurred within foreign missions but also how conceptions of male gender informed missionary work Changes that occurred in the lives of these men are placed within the broader context of how issues of gender were renegotiated within the contemporary missionary movement **The World's Christians** Douglas Jacobsen,2021-04-21 This accessible textbook describes Christianity the world s largest religion in all of its historical and contemporary diversity No other publication includes so much information or presents it so clearly and winsomely This volume employs a religious studies approach that is neutral in tone yet accommodates the lived experiences of Christians in different traditions and from all regions of the globe The World s Christians is a perfect textbook for either public university classrooms or liberal arts campuses Divided into three parts the text first describes the world s four largest Christian traditions Eastern Orthodox Roman Catholic Protestant and Pentecostal which together account for roughly 98 percent of all Christians worldwide A second section focuses on Christian history explaining the movement s developing ideas and practices and examining Christianity s engagement with people and cultures around the world The third and longest portion of the text details the distinctive experiences contemporary challenges and demographics of Christians in nine geographic regions including the Middle East Sub Saharan Africa Latin America Eastern and Western Europe South Asia North America East Asia and Oceania The second edition of this popular text has been thoroughly rewritten to take recent developments into account and each chapter now includes two primary source readings highlighting the diversity of voices that exist within the world Christian movement Like the first edition the revised text is enhanced with easily understandable maps charts tables and illustrative photographs In summary this new and improved second edition of The World s Christians is written in a clear style that readers will find engaging enriched by the addition of thought provoking primary source readings thoroughly revised to bring the story of Christianity up to the 2020s more geographically comprehensive than any competing text more theologically ecclesiastically comprehensive than any competing text amply illustrated with maps charts tables and photographs perfect for use in the classroom or for general readers who want to understand the full diversity of Christianity as it currently exists around the world **Making Contact** Glenn Burger,2003-02-26 When civilizations first encounter each other a cascade of change is

triggered that both challenges and reinforces the identities of all parties Making Contact revisits key encounters between cultures in the medieval and early modern world Contributors cross disciplinary boundaries to explore the implications of contact Scott D Westrem examines the imagined Africa depicted in the Bell Mappamundi Day to day accommodations between the religious identities of Vilnius in the Polish Lithuanian Commonwealth are explored by David Frick Steven F Kruger argues that medieval Christian identity was destabilized by the living Talmudic tradition Individual Jesuits who were critical to the success of contact in Japan are evaluated by Nakai Ayako Linda Woodbridge argues that Elizabethan attitudes towards aboriginals paralleled their attitudes towards English vagrants Despite a nod to Arcadian conventions travel narratives of Virginia were preoccupied with finding wealth according to Paul W DePasquale s research Rick H Lee examines the conflicting loyalties of Pierre Raddisson in the New World Richard A Young demonstrates that the Florida shipwreck narratives of Cabeza de Vaca were groomed for intended audiences past and present This rich interdisciplinary collaboration contributes to the debate on boundaries between disciplines as well as boundaries between the Middle Ages and the early modern period and also between historical and theoretical perspectives Making Contact draws our attention to the important ways in which historic encounters with contrasting others have shaped the identities of both individual and corporate selves over a span of five centuries

Making African Christianity Robert J. Houle, 2011-09-16 In Making African Christianity author Robert J Houle argues that Africans successfully naturalized Christianity This book examines the long history of the faith among colonial Zulu Christians known as amakholwa in what would become South Africa As it has become clear that Africans are not discarding Christianity a number of scholars have taken up the challenge of understanding why this is the case and how we got to this point Where others have focused on the economic and political potential of conversion this book argues that we need to understand what was embedded within the faith that Africans found so appealing Houle argues that translation did not end with the bible but extended to Christian theology which needed to be fully appropriated before the faith was secure on the continent For Zulu the religion was not a good fit until converts filled critical gaps in the faith such as how Christianity could account for the active and everyday presence of the ancestral spirits a problem that was true for African converts across the continent in slightly different ways This book offers fresh insight into the history behind the contemporary success of Christianity on the continent and will be welcomed by African historians those interested in the history of colonialism missions southern African and in particular Christianity
