Mohawk Frontier, Second Edition Thomas E. Burke Jr., 2009-02-05 This is the fascinating story of the Dutch community at Schenectady a village that grew out of the wilderness along the northern frontier of New Netherland in the 1660s Drawing upon a wealth of original documents Thomas Burke renders an engaging portrait of a small but dynamic Dutch village in the twilight years of the New Netherland colony Despite the proximity of the Mohawks Schenectady's residents when they were not quarreling amongst themselves made their living more from farming and raising livestock than trading Due to a scarcity of labor Schenectady became one of the most diverse and energized communities in the region attracting servants and tenant farmers and paving the way for slavery Its northern frontier location however made it a vulnerable target during the many conflicts between the French and English that erupted in the late seventeenth century Bringing Schenectady fully out of the historical shadow of its large neighbor Albany Thomas Burke reveals both the intricate depths of a small Dutch village and how many aspects of its story mirrored the broader histories of New Netherland and New York This second edition of the classic history features a new introduction by William Starna which updates key research and

issues that have arisen since its initial publication The Reformation of Community Charles H. Parker, 1998-11-28 By the time of the Calvinist Reformation the cities of Holland had established a very long tradition of social provision for the poor in the civic community Calvinists however intended to care for their own church members who were by definition within the household of faith through the deaconate a confessional relief agency This book examines the relationship between municipal and ecclesiastical relief agencies in the six chief cities of Holland Dordrecht Haarlem Delft Leiden Amsterdam and Gouda from the public establishment of the Reformed Church in 1572 to the aftermath of the Synod of Dort The author argues that the conflict between charitable organizations reveal competing conceptions of Christian community that came to the fore as a result of the Dutch Reformation This is the first comparative study of poor relief in Holland which contributes to our understanding of the Reformation throughout Europe **The Baltic and the North Seas** Merja-Liisa Hinkkanen, David Kirby, 2013-06-17 Exploring the themes of the human relationship with the marine environment and the ways in which the peoples of Northern Europe have experienced and exploited their seas this book reveals how human perception of the northern seas has changed over time Drawing on a wide variety of sources from Denmark and Britain to Norway Finland and Germany The Baltic and the North Seas is an insightful and colourful history of the politics economy and culture of this intriguing region **Society and Economy in Early Modern Europe, 1450-1789** Barry Taylor, 1989 **Money in the Dutch Republic** Sebastian Felten, 2022-03-10 The Dutch Republic was an important hub in the early modern world economy a place where hundreds of monies were used alongside each other Sebastian Felten explores regional European and global circuits of exchange by analysing everyday practices in Dutch cities and villages in the period 1600 1850 He reveals how for peasants and craftsmen stewards and churchmen merchants and metallurgists money was an everyday social technology that helped them to carve out a livelihood With vivid examples of accounting and assaying practices Felten offers a key to understanding the internal logic of early modern money This book uses new archival evidence and an approach informed by the history of technology to show how plural currencies gave early modern users considerable agency It explores how the move to uniform national currency limited this agency in the nineteenth century and thus helps us make sense of the new plurality of payments systems today
