Making Of The Marxist Philosophy:

The Making of the Marxist Philosophy Teodor Il'ich Oizerman, 1981 *The Making of a Marxist Philosopher* Sean Sayers, 2024-07-31 *The Making of a Marxist Philosopher* is a revealing and beautifully written memoir and family history from renowned Marxist philosopher Sean Sayers. His father was the son of a Jewish Irish businessman who was a friend of Michael Collins and other leaders in the Irish struggle for independence. He became a writer who was given his first job by T S Eliot, shared a flat with George Orwell, went to America and was blacklisted under McCarthyism. Sean's mother was the American-born daughter of a world famous Italian American anarchist. She became a communist and lived and worked in China. Sean was born in New York and grew up in London. He studied philosophy in Cambridge and Oxford Universities in the 1960s and has become an internationally known Marxist philosopher. As one of the founders of the journal *Radical Philosophy* and the creator of the *Marx and Philosophy Review of Books*, Sayers has been at the centre of the development of philosophy on the left in the English speaking world during the past fifty years. Reflecting on the fate of Marxism in an engaging thoughtful way, *The Making of a Marxist Philosopher* is filled with revealing family photographs which Sayers uses to craft an original must read on left wing thought and politics.

The Making of the Marxist Philosophy Teodor Il'ich Oizerman, 1981 **The making of the Marxist philosophy** Теодор Ильич Ойзерман (Философ.), 1981 **Making Sense of Marx** Jon Elster, 1985-05-09 A critical examination of the social theories of Karl Marx *The Making of the Marxist Philosophy* T. I. Oizerman, 1977 **The Making of Chicana/o Studies** Rodolfo Acuña, 2011 *The Making of Chicana o Studies* traces the philosophy and historical development of the field of Chicana o studies from precursor movements to the Civil Rights era to today, focusing its lens on the political machinations in higher education that sought to destroy the discipline. As a renowned leader, activist, scholar, and founding member of the movement to establish this curriculum in the California State University system, which serves as a model for the rest of the country, Rodolfo F. Acuña has for more than forty years battled the trend in academia to deprive this group of its academic presence. The book assesses the development of Chicana o studies, an area of studies that has even more value today than at its inception, myths about its epistemological foundations have remained uncontested. Acuña sets the record straight, challenging those in the academy who would fold the discipline into Latino studies, shadow it under the dubious umbrella of ethnic studies, or eliminate it altogether. Building the largest Chicana o studies program in the nation was no easy feat, especially in an atmosphere of academic contention. In this remarkable account, Acuña reveals how California State University Northridge was instrumental in developing an area of study that offers more than 166 sections per semester, taught by 26 tenured and 45 part-time instructors. He provides vignettes of successful programs across the country and offers contemporary educators and students a game plan, the mechanics for creating a successful Chicana o studies discipline, and a comprehensive index of current Chicana o studies programs nationwide. Latinas/os, of which Mexican Americans are nearly seventy percent, comprise a complex sector of society projected to be just shy of thirty percent of the

nation's population by 2050 **The Making of Chicana/o Studies** identifies what went wrong in the history of Chicana/o studies and offers tangible solutions for the future **Making Histories** CCCS, 2013-12-16 First published in 2006 Routledge is an imprint of Taylor Francis an informa company **Ghosts** P. Buse, A. Stott, 1999-01-28 Did you know that the father of psychoanalysis believed in ghosts or that Frederick Engels attended seances **Ghosts Deconstruction Psychoanalysis History** is the first collection of theoretical essays to evaluate these facts and consider the importance of the metaphor of haunting as it has appeared in literature culture and philosophy Haunting is considered as both a literal and figurative term that encapsulates social anxieties and concerns The collection includes discussions of nineteenth century spiritualism gothic and postcolonial ghost stories and popular film with essays on important theoretical writers including Freud Derrida Adorno and Walter Benjamin **Louis Althusser and the Traditions of French Marxism** William Lewis, 2005-10-17 Throughout the course of the twentieth century communism has enjoyed direct competition with all other governmental and economic systems Often communist countries produced their own special brand of party intellectual These figures rightly occupied their place within their own national context and within the context of the International Some communist intellectuals through the high level of erudition exhibited in their writing have received a wider reception despite their direct linkage to party politics e.g. Antonio Gramsci Georg Lukacs and Victor Serge are good examples After 1956 when Khrushchev exposed Stalin's atrocities to the Twentieth Congress of the Communist Party of the Soviet Union and as a result to the entire world Marxist philosophy was widely discredited It had been assumed that Stalin's excesses were somehow encouraged or supported through Marx's thought When in the mid 1960s Louis Althusser first offered his re-readings of Marx's philosophy it and communist political practice were in ruin However Althusser was in a unique cultural and historical position Thinking and writing concomitant with the structuralists and poststructuralists in France and also having access to certain theoretical tools while simultaneously committing himself entirely to Marxist thought Althusser was conceivably the last of his tradition He was a Marxist philosopher who unlike Sartre at the end of his life did not abandon communism to for instance existentialism In **Louis Althusser and the Traditions of French Marxism** William Lewis gives readers a striking example of intellectual biography and critical theory His approach considering the work and life of Althusser within French Marxism and French intellectual culture fills a void in contemporary scholarship But much more importantly Lewis is able to show how Althusser's thought is the result of and a response to specific French intellectual and political traditions of reading Marx It is through this combination of concerns **Making Transformative Geographies** Benedikt Schmid, 2020-06-03 In the light of social and environmental unsustainability and injustice the continuing attachment to the idea that a growth based economy is reconcilable with human prosperity and ecological limits seems increasingly implausible Tracing and dissecting the complexities of social change **Making Transformative Geographies** speaks about the development of visions alternatives and strategies for a radical transformation beyond accumulation and growth Covering an empirical sample of 24 eco-social

organizations projects and groupings in the city of Stuttgart Germany the book drills down into the social spatial and strategic dimensions of transformation It advances a conceptually and empirically grounded assessment of the possibilities and limitations of community activism and civic engagement for shifting transformative geographies towards a degrowth trajectory

Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan, 2018-08-15 Marx and Hegel on the

Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views. Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker, Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes. The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons. First, since Marx has developed many of his early ideas in critical interaction with Hegel, this comparative approach enables the book to present a more thorough and well-grounded exposition of Marx's arguments. Second, since Hegel himself has also criticized the concepts of liberal ideology in many respects, differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does.

Making Money Peet van Biljon, Alexandra Lajoux, 2020-01-20 How much do you really know about money? Everyone uses it, but few know how it really works. Most books about money focus on specific aspects. This book breaks through the usual silos to present money as a broad social technology that serves the current needs of society. It reviews the latest developments in financial technology, including cryptocurrency, blockchain, and the prospect of a cashless future, and clears up many misconceptions in the process. Starting with a very brief history, the authors provide insights on how money is made, why money has value, and what can change its value, how central banks, treasuries, foreign exchange, lending, and blockchain work, why you may be trading against robots, and privacy and security issues in an increasingly cashless society that will change our lives. While written for a broad audience, this book is also essential reading for students entering courses in the area of business finance or money and banking.
