convergence of past and future in contemporary Japan Contributors comment on a wide range of economic socio cultural and political trends such as the mobilization of Japanese labour the burgeoning Ainu identity movement and the shifting place of the modern woman and conclude that despite the rapid changes many of the traditional facets of Japanese society have remained intact institutional change they assert is unlikely to occur quickly and Japan must find alternate ways to adjust to twenty first century pressures of global competition and interdependence A pleasure to read this broad volume will be welcomed by upper level undergraduates graduates and specialists in Japanese studies

Imaginary Athens Jin-Sung Chun, 2020-11-25 This book comprehensively examines architecture urban planning and civic perception in three modern cities as they transform into national capitals through an entangled transnational process that involves an imaginative geography based on embellished memories of classical Athens Schinkel's classicist architecture in Berlin especially the principle of tectonics at its core came to be adopted effectively at faraway cities in East Asia merging with the notion of national polity as Imperial Japan sought to reinvent Tokyo and mutating into an inevitable reflection of modern civilization upon reaching colonial Seoul all of which give

reason to ruminate over the phantasmagoria of modernity Street Performers and Society in Urban Japan, 1600-1900 Gerald Groemer, 2016-01-13 This book presents a thoroughly researched and meticulously documented study of the emergence development and demise of music theatre recitation and dance witnessed by the populace on thoroughfares plazas and makeshift outdoor performance spaces in Edo Tokyo For some three hundred years this city was the centre of such arts both sacred and secular This study outlines the nature of the performances explores the social relations which lay behind them and reveals vast complexity an obligation of gift giving on the part of observers performers who were often economic migrants fallen on hard times relations of performance to social class a class system much more finely gradated than the official four caste system and institutions of professional organization and registration enforced by government with penalties for unregistered performers The book discusses how performing witnessing and rewarding performance were closely bound up with economy society and government how the interaction between various groups related to socio economic advancement how the system of street performance reinforced social control and how the balance between different groups shifted over time U.S./Japan Foreign Trade Rita E. Neri, 2018-02-21 This bibliography first published in 1988 consists of annotated entries of monographs and journal articles published in English that discuss socio economic aspects of Japanese society as well as the general and economic dynamics of United States Japan trade relations Emphasis is on the Japanese perspective **Contemporary Urban Japan** John Clammer, 2011-08-04 This volume demonstrates a fresh approach to urban studies as well as a new way of looking at contemporary Japan which links economy and society in an innovative way **Urban Networks in Ch'ing China and Tokugawa Japan** Gilbert Rozman, 2015-03-08 Ch'ing China and Tokugawa Japan were unusually urbanized premodern societies where about one half of the world's urban population lived as late as 1800 Gilbert Rozman has drawn on both sociology and history to develop original methods of illuminating the historical urbanization of China and Japan and to provide a way of relating urban patterns to other characteristics of social structure in premodern societies The author also hopes to redirect the analysis of premodern societies into areas where China and Japan can be compared with each other and with other large scale societies The author divides central places into seven levels and determines how many levels were present in each country century by century Through this method he is able to demonstrate how Japan was rapidly narrowing China's lead in urbanization and show that Japan was relatively efficient in concentrating resources in high level cities Explanations for differences in urban concentration are sought in a general discussion of the social structure of each country an analysis of marketing patterns a detailed study of Chihli province and the Kant region an examination of regional variations and a comparison of Peking and Edo which were probably the world's largest cities throughout the eighteenth century Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in
