Photo ,2002-09 Photography and the Making of the Nazi Racial Community Julie R. Keresztes,2025-01-15 Photography
and the Making of the Nazi Racial Community examines the role of photography in the construction of the Nazi
Volksgemeinschaft a racially exclusive community during the Third Reich Julie R Keresztes explores how the dictatorship
promoted photography for those who belonged to that community and excluded Jews from the practice As Nazi officials
dispossessed Jewish photographers and robbed them of their equipment studios and eventually their lives they made
photography more accessible to non Jewish Germans But they inadvertently created spaces for photography to be used as

resistance and revenge in concentration camps where forced laborers salvaged photographs that exposed the extermination of Europe's Jews. As the victims of Nazi persecution used photography to gather evidence of the Holocaust, German troops and their families used photography to portray themselves as dutiful members of the Volksgemeinschaft rather than show the reality of war and genocide. Ultimately, *Photography and the Making of the Nazi Racial Community* shows how the configuration of photography along racial lines shaped the imagery of the Second World War.
