Making A Nest:

Making automatic enrolment work Great Britain: Department for Work and Pensions, 2010-10-27 Current policy is that new duties will be staged in between 2012 and 2016 requiring all employers to designate a pension scheme into which all of their employees aged between 22 and state pension age should be automatically enrolled so long as they are earning above an annual earnings threshold the Pensions Act 2008 sets this at 5 035 equivalent to 5 732 in today s terms Upon automatic enrolment a minimum of eight per cent of earnings within a band would be contributed to the pension with at least three per cent coming from the employer This policy is designed to maximise private pension saving by individuals without imposing compulsion The right to opt out will remain This review looks at the scope of automatic enrolment and whether a new national pension scheme National Employment Savings Trust or NEST needs to be put in place for it to work One of the most significant recommendations that it makes is that people should only be automatically enrolled once they reach the income tax threshold which will increase to 7 475 in 2011 but that contributions should be on earnings in excess of the National Insurance earnings threshold 5 715 in today s prices There should be no changes to age thresholds and automatic enrolment duties should apply to all employers regardless of size as now Employers should be given three months before auto enrolment to ease the burden on companies If staff choose to enrol before the three month period then companies will have to make contributions

The Architecture of Birds James Rennie,1831 **Becoming Tsimshian** Christopher F. Roth,2011-01-01 The Tsimshian people of coastal British Columbia use a system of hereditary name titles in which names are treated as objects of inheritable wealth Human agency and social status reside in names rather than in the individuals who hold these names and the politics of succession associated with names and name taking rituals have been and continue to be at the center of Tsimshian life Becoming Tsimshian examines the way in which names link members of a lineage to a past and to the places where that past unfolded At traditional potlatch feasts for example collective social and symbolic behavior gives the person to the name Oral histories recounted at a potlatch describe the origins of the name of the house lineage and of the lineage s rights to territories resources and heraldic privileges This ownership is renewed and recognized by successive generations and the historical relationship to the land is remembered and recounted in the lineage s chronicles or adawx In investigating the different dimensions of the Tsimshian naming system Christopher F Roth draws extensively on recent literature archival reference and elders in Tsimshian communities Becoming Tsimshian which covers important themes in linguistic and cultural anthropology and ethnic studies will be of great value to scholars in Native American studies and Northwest Coast anthropology as well as in linguistics

How they live... Birds and nestboxes David Withrington,Ivan Esenko,2016-03-09 From 6 years old Come and discover the wonderful life of birds and nestboxes Learn about their environment their physical features what they eat and much more The How they live collection is a must have for children and other members of the family who are eager to learn about nature and animals while having fun EXCERPT Birds that nest in holes in trees are often in trouble nowadays when they have to find a place to take care of their young There are fewer hollow trees in forests and orchards with old varieties of fruit trees in which a hollow could always be found are also on the decline Birds are increasingly forced to nest in unsuitable nooks and crannies where their young are sooner or later doomed to perish or to move elsewhere to find a more appropriate place for nesting The issue can be resolved by providing them with a nest box ABOUT THE COLLECTION The collection How they live is about wild creatures and their relation to our lives and the environment In the How they live series How they live amphibians How they live birds How they live owls How

they live reptiles How they live rodents How they live predators How they live No joke animals How they live Birds and nestboxes How they live Ladybirds How they live Dragonflies and many more ABOUT THE AUTHORS Ivan Esenko presents the world of nature and invites the reader to learn more about the world that we are part of His camera is his most faithful companion and its lens particularly likes to capture those animals that live in close quarters to man We take them so much for granted that we no longer seem to care for them Ivan is their voice he has become their personal photographer David Withrington from Britain has spent most of his professional life working for the official agency Natural England where he was initially Author Editor and latterly Senior Freshwater Adviser He has a particular interest in birds and butterflies He has many contacts across Europe through his voluntary work for youth and environmental conservation including friends in Slovenia a country which he has visited 34 times ABOUT THE PUBLISHER Oka i is a Slovenian publisher with a vibrant programme At every turn nature reveals its new face and discloses a myriad of secrets This is why we have devoted a special place to it in our publishing house We are the creators of books that delight curious children and their parents in their discoveries of nature in the home garden and the nearby park but also further afield in the fields and forests At Oka i we keep pace with the times which is why we have embarked upon several electronic editions of our books We have added sound to these publications and hence a new dimension to the contents already there
