Dissidence Marie Leduc,2018-11-20 How the valorization of artistic and political dissidence has contributed to the rise of Chinese contemporary art in the West Interest in Chinese contemporary art increased dramatically in the West shortly after the 1989 Tiananmen Square protests Sparked by political sympathy and the mediatized response to the event Western curators critics and art historians were quick to view the new art as an expression of dissident resistance to the Chinese regime In this book Marie Leduc proposes that this attribution of political dissidence is not only the result of latent Cold War perceptions about China but also indicative of the art world s demand for artistically and politically provocative work a demand that mirrors the valorization of free expression in liberal democracies Focusing on nine Chinese artists Wang Du Wang Keping Huang Yong Ping Yang Jiechang Chen Zhen Yan Pei Ming Shen Yuan Ru Xiaofan and Du Zhenjun who migrated to Paris in and around 1989 Leduc explores how their work was recognized before and after the Tiananmen Square incident Drawing on personal interviews with the artists and curators and through an analysis of important exhibitions events reviews and curatorial texts she demonstrates how these and other Chinese artists have been celebrated both for their artistic dissidence their formal innovations and introduction of new media

and concepts and for their political dissidence how their work challenges political values in both China and the West As Leduc concludes the rise of Chinese contemporary art in the West highlights the significance of artistic and political dissidence in the production of contemporary art and the often unrecognized relationship between contemporary art and liberal democracy The Semiotics of Che Guevara Maria-Carolina Cambre, 2014-11-20 Alberto Korda's famous photograph of Che Guevara titled the Guerrillero Heroico has been reproduced modified and remixed countless times since it was taken on March 5 1960 in Havana Cuba This book looks again at this well known mass produced image to explore how an image can take on cultural force in diverse parts of the globe and legitimate varying positions and mass action in unexpected global political contexts Analytically the book develops a comparative analysis of how images become attached to a range of meanings that are absolutely inseparable from their contexts of use Addressing the need for a fluid and responsive approach to the study of visual meaning making this book relies on multiple methodologies such as semiotics research creation multimodal discourse analysis ethnography and phenomenology and shows how each method has something to offer toward the understanding of the social and cultural work of images in our globally oriented cultures
