Making Marines Unrestricted Access:

The Marines, Counterinsurgency, and Strategic Culture Jeannie L. Johnson, 2018-05-01 The United States Marine Corps has a unique culture that ensures comradery exacting standards and readiness to be the first to every fight Yet even in a group that is known for innovation culture can push leaders to fall back on ingrained preferences Jeannie L Johnson takes a sympathetic but critical look at the Marine Corps s long experience with counterinsurgency warfare Which counterinsurgency lessons have been learned and retained for next time and which have been abandoned to history is a story of battlefield trial and error but also a story of cultural collisions The book begins with a fascinating and penetrating look inside the culture of the Marine Corps through research in primary sources including Marine oral histories and interviews with Marines Johnson explores what makes this branch of the military distinct their identity norms values and perceptual lens She then traces the history of the Marines counterinsurgency experience from the expeditionary missions of the early twentieth century through the Vietnam War and finally to the Iraq War Her findings break new ground in strategic culture by introducing a methodology that was pioneered in the intelligence community to forecast behavior Johnson shows that even a service as self aware and dedicated to innovation as the Marine Corps is constrained in the lessons learned process by its own internal predispositions by the wider US military culture and by national preferences Her findings challenge the conclusions of previous counterinsurgency scholarship that ignores culture This highly readable book reminds us of Sun Tzu s wisdom that to be successful in war it is important to know thyself as well as the enemy This is a must read for anyone interested in the Marines Corps counterinsurgency warfare military innovation or strategic culture **Lightning from the Sky, Thunder from the Sea** Thomas Petri, 2009 ANGLICO Super Grunts of 1st ANGLICO were deployed to all four tactical zones of Vietnam in small mobile fire control teams providing support to U S Army and allied elements This organization was the last tactical unit to stand down from the war and gained distinction as the only Marines in country reporting directly to MACV Working closely with Korean Marines recounting several actions involving these legendary warriors from the Land of the Morning Calm this little known but highly effective unit had an impact on the war far greater than their small numbers Field radio operators and naval gunfire spotters composed the tactical membership of this unit Both professions were cross trained in each competence and each in turn was further qualified as tactical air controllers An airborne capable platoon was established mandating many ANGLICOs attend jump school and undertake other specialty training in the event they are called on to enter combat by unconventional means Not being able to predict who they may be called on to support training was pushed to the level of the most elite forces in the free world BLUE DRAGONS Most men of the Blue Dragon Brigade came of age during a war that raged fierce on their own homeland little more than a decade earlier During a short lived occupation by North Korea the people of the south endured extremely harsh treatment by would be conquerors Events of recent history still burned in their hearts and haunted their dreams They were mostly all children at the time leaving scarcely

Crosshairs on the Capital James H. Bruns,2021-08-16 In an era of battlefield upmanship the raid on the Nation's Capital in July 1864 was prompted by an earlier failed Union attempt to destroy Richmond and free the Union prisoners held there Jubal Early's mission was in part to let the North have a taste of its own medicine by attacking Washington and freeing the Confederate prisoners at Point Lookout in southern Maryland He was also to fill the South's larder from unmolested Union fields mills and barns By 1864 such southern food raids had become annual wartime events And he was to threaten and if possible capture Washington This latter task was unrealistic in an age when the success of rifle fire was judged to be

successful not by accuracy but by the amount of lead that was shot into the air Initially the Union defenders of the city were larger former slaves freemen mechanic shopkeepers and government clerks as well as invalids They might not have known much about riflery and accuracy but they were capable of putting ample lead on the long until Regular Union regiments arrived Jubal Early hesitated in attacking Washington but he held the City at bay while his troops pillaged the countryside for the food Lee s Army needed to survive This new account focuses on the reasons reactions and results of Jubal Early s raid of 1864 History has judged it to have been a serious threat to the capital but James H Bruns examines how the nature of the Confederate raid on Washington in 1864 has been greatly misinterpreted Jubal Early s maneuvers were in fact only the latest in a series of annual southern food raids It also corrects some of the thinking about Early s raid including the reason behind his orders from General Lee to cross the Potomac and the thoughts behind the proposed raid on Point Lookout and the role of the Confederate Navy in that failed effort It presents a new prospective in explaining Jubal Early s raid on Washington by focusing on why things happened as they did in 1864 It identifies the cause and effect connections that are truly the stuff of history forging some of the critical background links that oftentimes are ignored or overlooked in books dominated by battles and leaders
