Making Of A Slum:

Making the Modern Slum Sheetal Chhabria, 2019-12-06 In the late nineteenth and early twentieth centuries Bombay was beset by crises such as famine and plague Yet rather than halting the flow of capital these crises served to secure it In colonial Bombay capitalists and governors Indian and British alike used moments of crisis to justify interventions that delimited the city as a distinct object and progressively excluded laborers and migrants from it Town planners financiers and property developers joined forces to secure the city as a space for commerce and encoded shelter types as legitimate or illegitimate By the early twentieth century the slum emerged as a particularly useful category of stigmatization that would animate city making projects in subsequent decades Sheetal Chhabria locates the origins of Bombay's now infamous slum problem in the broader histories of colonialism and capitalism She not only challenges assumptions about colonial urbanization and cities in the global south but also provides a new analytical approach to urban history *Making the Modern Slum* shows how the wellbeing of the city rather than of its people became an increasingly urgent goal of government positioning agrarian distress famished migrants and the laboring poor as threats to be contained or excluded

Making the Modern Slum Sheetal Chhabria, 2012 By addressing the eventual obfuscation of the once transitioned status of the modern slum dweller this study delineates the bases for the conceptualization of a distinctive third world poverty and urban form

The Perennial Struggle Michael Lemay, 2016-12-05 The Perennial Struggle integrates the richness of insight the various social science perspectives offer to the study of ethnic and racial relations into a consistent viewpoint The Perennial Struggle is about race ethnic and minority group relations and how they interact in group politics in the United States Understanding these relationships is critical to understanding American society in general and American politics in particular The United States is a nation of nations it receives more immigrants to its shores by far than does any other nation of the world The authors wrote this book to integrate the various perspectives of the social science disciplines into courses such as Race and Racism Roots of American Racism and Minority Group Politics in the United States If American society is to avoid the woes of a Darfur Bosnia Kosovo Northern Ireland or Rwanda or even to prevent the development of separatist movements as in French speaking Canada we need to better understand the perennial struggle of ethnic relations and its impact on politics and policy We need to understand the history contribution and special problems of particular and often exemplary minority groups in American society In short we need to understand the how and the why of their perennial struggle

Slums Alan Mayne, 2017-08-15 More than half of the world's population now lives in urban areas and a billion of these urban dwellers reside in neighborhoods of entrenched disadvantage neighborhoods that are characterized as slums Slums are often seen as a debilitating and even subversive presence within society In reality though it is public policies that are often at fault not the

people who live in these neighborhoods In this comprehensive global history Alan Mayne explores the evolution and meaning of the word slum from its origins in London in the early nineteenth century to its use as a slur against the favela communities in the lead up to the Rio Olympics in 2016 Mayne shows how the word slum has been extensively used for two hundred years to condemn and disparage poor communities with the result that these agendas are now indivisible from the word s essence He probes beyond the stereotypes of deviance social disorganization inertia and degraded environments to explore the spatial coherence collective sense of community and effective social organization of poor and marginalized neighborhoods over the last two centuries In mounting a case for the word s elimination from the language of progressive urban social reform *Slums* is a must read book for all those interested in social history and the importance of the world s vibrant and vital neighborhoods

Demanding Development Adam Michael Auerbach,2019-10-31 Explains the uneven success of India s slum dwellers in demanding and securing essential public services from the state

Inside the Transforming Urban Asia Darshini Mahadevia,2008 Contributed articles chiefly with reference to India and China

The Making of a Slum Michael Dorman,1972 This book presents a smoothly written journalistic account of the decline of an urban neighborhood Hunt s Point in the Bronx New York City The author contrasts the stability and sense of community in Hunt s Point before World War II with the decayed heroin scarred slum of the late 1960s and early 1970s Includes worthwhile interviews and has a good reporter s feel for letting people express themselves but the standard prescriptions for change which have been repeated for two decades offer nothing new

Worlding Cities Ananya Roy,Aihwa Ong,2011-08-15 *Worlding Cities* is the first serious examination of Asian urbanism to highlight the connections between different Asian models and practices of urbanization It includes important contributions from a respected group of scholars across a range of generations disciplines and sites of study Describes the new theoretical framework of worlding Substantially expands and updates the themes of capital and culture Includes a unique collection of authors across generations disciplines and sites of study Demonstrates how references to Asian power success and hegemony make possible urban development and limit urban politics

Governance and Public Space in the Australian City Anna Temby,2023-09-19 *Governance and Public Space in the Australian City* is a rich and evocative examination of the production and use of public spaces in Australian cities in the late nineteenth and early twentieth centuries Using Brisbane as a case study it demonstrates the way public spaces were constructed contested and controlled in attempts to create ideal city spaces This construction of space is considered not just in the literal and material sense but also as a product of aspirational and imaginative processes of city building by municipal authorities and citizens This book is as much about people as it is about cities uncovering the manner in which perceived models of ideal urban citizenship were reflected in the production and ordering of city spaces This book challenges common narratives that situate public spaces as universal or equalising aspects of the urban sphere Exploring three distinct types of public space the streets slums and parks the book questions how urban spaces functioned alongside how they were intended to function In so doing

Governance and Public Space in the Australian City situates public spaces as products of manipulation and regulation at odds with broader concepts of individual liberty and the rights of people to public space It will be illuminating reading for scholars and students of urban history and Australian history The State of the World's Cities 2004/2005 ,2004 As towns and cities expand at unprecedented rates sustainable urban development is one of the most pressing challenges facing the international community in the 21st century This publication examines the realities faced by urban populations around the world focusing on the impact of globalisation and the way cities are governed and planned on the make up and density of their population and on their cultures and economies Issues considered include the impact of globalisation on urban culture urban renewal and cultural strategies the concept of metropolitanization socio economic and cultural impacts of international migration urban poverty and homelessness social inequality and exclusion urban governance safety and crime trends contemporary planning strategies and the role of civil society progress towards attainment of the Millennium Development Goals targets for sanitation and housing The report highlights the need for a new culture of planning to establish multicultural and inclusive cities involving civil society as well as public authorities
