Making Of Portuguese Democracy

Asela de Laguna

Making Of Portuguese Democracy:

The Making of Portuguese Democracy Kenneth Maxwell, 1995-09-07 This vividly written book is the first comprehensive assessment of the origins of the present day democratic regime in Portugal to be placed in a broad international historical context After a vibrant account of the collapse of the old regime in 1974 it studies the complex revolutionary period that followed and the struggle in Europe and Africa to define the future role of Europe s then poorest country International repercussions are examined and comparisons are drawn with the more general collapse of communism in the late 1980s

The Oxford Handbook of Portuguese Politics Jorge M. Fernandes, Pedro C. Magalhães, António Costa Pinto, 2022-09-29 The Oxford Handbook of Portuguese Politics brings together the best scholars in the field offering an unrivalled coverage of the politics broadly defined of the country over the past 50 years The Handbook includes eight sections First it looks at the past and present by making an overview of Portuguese political developments since democratization in the 1970s Second it looks at political institutions as the building blocks of Portuguese democracy The third section examines mass politics and voters that is a thorough analysis of the demand side of mass politics The fourth section turns to the supply side of mass politics by looking at parties and the party system The fifth section looks at the Portuguese society by unpacking a plethora of societal aspects with direct implications for politics The sixth section examines governance and public policies with a view to understanding how a constellation of public policies has an impact on the quality of governance and in fostering well being The seventh section looks at Portugal and the European Union The eighth and final section unpacks Portuguese foreign policy and defence [Handbook of Portuguese Studies](#) Ieda Siqueira Wiarda, 1999-11-19 *Global Histories of the Portuguese Revolution* Luís Trindade, Rita Lucas Narra, Ricardo Noronha, Pedro Ramos Pinto, 2025-05-29 The Portuguese revolution marked the closure of the country s five centuries of imperial history as well as its 48 year authoritarian period a dramatic moment of political radicalization and social conflict that took place against the backdrop of rapid social transformation in an increasingly globalised world This collection goes beyond the limits of national history to locate the revolution at the intersection of transnational historical phenomena such as the long 1960s the Cold War the emergence of the Third World and postwar modernization Foregrounding the complex geographies and chronologies of semi peripheral Portugal this book combines its status as the centre of a global Empire with its subaltern position in Europe Offering a new global approach to this still understudied event chapters explore transnational socialist and grassroots forms of solidarity processes of global communication and Cultural Revolution decolonization feminism and socio economic transformations to offer a non Eurocentric global history from within Europe itself **The Heaviest Blow** Patrick A. Smythe, 2004 The author examines responses within the international Catholic community to the annexation and rule of East Timor by Indonesia from 1975 1999 Theoretically the Catholic Church is committed to prioritise the needs of the poorest and weakest members of the human family but the evidence put forward here reveals that there were significant

shortcomings in its reaction to the plight of the East Timorese Yet the Church also played a crucial role in their eventual achievement of independent nationhood This study scrutinises the disposition of the Catholic community in several countries closely involved in the issue of East Timor Indonesia Portugal Australia Japan Britain the United States and of the Vatican and calls upon the Church to live up to its own social doctrine Bishop Carlos Belo Apostolic Administrator emeritus of the Diocese of Dili East Timor comments in an Afterword to the book This excellent study carries concrete lessons for the global community as we face the many challenges of the new millennium In essence how can we best help our brothers and sisters who often suffer in silence This book helps to answer that question Comparative European Politics Josep M.

Colomer, 2008-07-25 This is a clear comprehensive and authoritative introduction to the institutional regimes of countries in Western Europe written by an outstanding group of political scientists Completely revised and updated throughout Comparative European Politics 3rd edition provides a complete coverage of individual countries or group of countries as well as to the European Union allowing readers to draw sophisticated comparisons between countries is written to a common template so that each chapter explores political parties elections and electoral rules parliaments local regional and state governments and the relations between domestic institutions and the European Union **The Handbook of European**

Defence Policies and Armed Forces Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe *The Rise of the*

Left in Southern Europe Sotiris Rizas, 2015-10-06 This study looks at the influence of the Anglo American special relationship on the rise of the left in southern Europe and concurrent European influence on the Atlantic alliance **Consumption and**

Gender in Southern Europe since the Long 1960s Kostis Kornetis, Eirini Kotsoyili, Nikolaos Papadogiannis, 2016-02-11 Consumption and Gender in Southern Europe since the Long 1960s offers an in depth analysis of the relationship between gender and contemporary consumer cultures in post authoritarian Southern European societies The book sees a diverse group of international scholars from across the social sciences draw on 14 original case studies to explore the social and cultural changes that have taken place in Spain Portugal and Greece since the 1960s This is the first scholarly attempt to look at the countries similar political and socioeconomic experiences in the shift from authoritarianism to democracy through the intersecting topics of gender and consumer culture This comparative analysis is a timely contribution to the field providing much needed reflection on the social origins of the contemporary economic crisis that Spain Portugal and Greece have simultaneously experienced Bringing together past and present the volume elaborates on the interplay between the current crisis and the memory of everyday life activities with a focus on gender and consumer practices Consumption and Gender in Southern Europe since the Long 1960s firmly places the Southern European region in a wider European and transatlantic context Among the key issues that are critically discussed are Americanization the cultural revolution of the Long 1960s and representations of the Model Mrs Consumer in the three societies This is an important text for anyone interested in the modern history of Southern Europe or the history of gender and consumer culture in modern Europe more generally

Enemy Brothers W. Rand Smith, 2014-10-01 Since the 1920s Socialist and Communist parties in Europe and elsewhere have engaged in episodes of both rivalry and cooperation with each seeking to dominate the European Left *Enemy Brothers* analyzes how this relationship has developed over the past century focusing on France Italy and Spain where Socialists and Communists have been politically important Drawing on fieldwork and interviews in all three nations W Rand Smith identifies the critical junctures that these parties faced and the strategic choices they made especially regarding alliance partners In explaining the parties diverse alliance strategies *Enemy Brothers* stresses the impact of institutional arrangements party culture and leadership The paperback edition features a new afterword that updates the impact of the current euro crisis through mid 2014

Comparative Democratization and Peaceful Change in

Single-Party-Dominant Countries M. Rimanelli, 2016-01-26 One of the more positive international trends as of late has been the transformation of several countries from authoritarian based dictatorships and single party systems into multi party democracies characterized by peaceful political transitions In this volume a group of experts are gathered to analyse this progression on a comparative level The scholars examine previously right wing regimes in Brazil Argentina and South Africa former Communist states in Russia Poland Hungary and Czechoslovakia and single party dominant democracies in Italy Japan Mexico and Israel The essays reveal how the dramatic collapse of the USSR functioned as a crucial catalyst in allowing pent up domestic pressures for change to emerge in a less charged international environment In addition the chapters study the historical and current evolution of these countries focusing on their success in developing long term pluralistic structures

and gauging whether these recent trends are more overnight fads than long lasting advancements *Issues and Methods in Comparative Politics* Todd Landman, 2003-12-16 Building on the strengths of the first edition this accessible and user friendly textbook explores the strategies of comparative research in political science It begins by examining different methods then highlights some of the big issues in comparative politics using a wealth of topical examples before discussing the new challenges in the area Thoroughly revised throughout with the addition of extensive new material this edition is also supplemented by the availability online of the author s datasets The book is designed to make a complex subject easier and more accessible for students and contains briefing boxes explaining key concepts and ideas suggestions for further reading at the end of each chapter a glossary of terms **Global Impact of the Portuguese Language** Asela de Laguna, 2018-01-16 Within the cultural and literary context of contemporary Portugal and Western literature 1998 was unquestionably the year that Portuguese writing gained international recognition as JosU Saramago became the first Portuguese writer ever to receive the Nobel Prize in literature Readers who had never thought about Portuguese letters began to consume his books and most importantly opted for expanding their reading lists to include other important writers not only from Portugal but from Portuguese speaking well beyond the borders of Portugal Global Impact of the Portuguese Language is a collection of Portuguese writing that is as rich in content and broad in scope as the diversity of its topics and writing modes of its contributors The book is divided into three major parts Part 1 Different Cultural Perspectives of Portuguese Writing contains thirteen chapters in which the first and opening one Portugal The New Frontier ably sets the stage for the book by examining from a cultural perspective how Portugal a peripheral country in the new world system serves as a microcosm of the problems of cultural intercommunication in today s world Subsequent chapters are grouped in three categories The Voices of the Writers Critical Approaches to Cames and Fictionalizing the Nation Part 2 Portuguese Language and Literature Outside Portugal comprises one section devoted to the Portuguese language in Africa followed by studies about Portuguese discoveries as part of the historical process of remembering and forging one s identity and finally a comprehensive historical development of Portuguese writing both in Portuguese and English in the United States Part 3 Portuguese Literature and Criticism Available in English Suggested Readings details the recent literary happenings which point to a possible renaissance in Portuguese literary production The concluding part of this volume offers a short comprehensive listing of anthologies general studies and the most popular translations of the best of Portuguese writing from Portugal and Africa This lively volume constitutes a first pioneering effort to contribute to a deepening appreciation and understanding of Portuguese writing Anyone interested in ethnic writing will find this book an invaluable education resource with which to begin an exploration of Portuguese writing in the United States Asela Rodriguez de Laguna is associate professor of Spanish and director of the Hispanic Civilization Language Studies Program She is the author of Notes on Puerto Rican Literature Images and Identities An Introduction and editor of Images and Identities The Puerto Rican in Two World

Contexts **Europe Since 1945** Bernard A. Cook, 2001 Employing 286 scholars this two volume encyclopedia contains entries on post World War II European political history and groups significant events and persons the economy religion education the arts women s issues writers and more *The Struggle for Europe* William I. Hitchcock, 2008-11-26 From the ashes of World War II to the conflict over Iraq William Hitchcock examines the miraculous transformation of Europe from a deeply fractured land to a continent striving for stability tolerance democracy and prosperity Exploring the role of Cold War politics in Europe s peace settlement and the half century that followed Hitchcock reveals how leaders such as Charles de Gaulle Willy Brandt and Margaret Thatcher balanced their nations interests against the demands of the reigning superpowers leading to great strides in economic and political unity He re creates Europeans struggles with their troubling legacy of racial ethnic and national antagonism and shows that while divisions persist Europe stands on the threshold of changes that may profoundly shape the future of world affairs Trust in the Capacities of the People, Distrust in Elites Kenneth Good, 2014-10-15 Democratization is a sociopolitical process and the society that may grow out of it where people make decisions on matters affecting them It is an unending struggle to win such rights and power to hold and to extend them The contending classes are essentially the poor and weak majority of the people and the elite of wealth status and power This book begins with the study of politics in democratic Athens 508 322 BCE and how it revolved around the divisions between an uneducated poor majority of citizens and a small wealthy elite All citizens were deemed equally capable of holding political office and life in democratic Athens was itself an education through the wide political experience a citizen necessarily acquired The second study is of Britain s centuries long and profoundly incomplete democratization polarizing usually the urban poor unequally against the Grandees the oligarchy and subsequent elites A third exemplifier is South Africa beginning in the 1970s 80s when two big processes were going on simultaneously an external armed struggle led by the African National Congress ANC and a path breaking domestic democratization represented by the United Democratic Front and the trade unions The democratization that emerges here is a matter of aspiration and impulse by determined men and women which fail more often than they succeed yet appear again in other times and places Two main models of democracy are in contention A representative form revolving around free elections in which competing elites get themselves elected utilizing their wealth and celebrity The liberal form achieved preeminence in Britain and the United States over some 150 years but is now under serious threat from its own dysfunctionalities and the alienation of its citizens from its institutions and their elitist self serving values And there is the participatory model now being approached again since the mid 1970s in many places from Portugal Poland and Czechoslovakia to South Africa Tunisia Egypt and Iceland Many such impulses will fail but they offer hope and on the record immense satisfaction to their participants **The First Global Village** MARTIN PAGE, 2011-08-01 Portugal is Europe s south western extremity washed by the Atlantic and warmed by the Mediterranean sun Alone among iberia s ancient kingdoms in its independence from Spain it is a nation about half the size of Florida with

two thirds the population Yet over centuries it has influenced the lives of the rest of us far more than many much larger and more powerful countries

Lisbon rising Pedro Ramos Pinto, 2015-11-01 Lisbon rising explores the role of a widespread urban social movement in the revolutionary process that accompanied Portugal's transition from authoritarianism to democracy It is the first in depth study of the widest urban movement of the European post war period an event that shook the balance of Cold War politics by threatening the possibility of revolution in Western Europe Using hitherto unknown sources produced by movement organisations themselves it challenges long established views of civil society in Southern Europe as weak arguing that popular movements had an important and autonomous role in the process that led to democratisation inviting us to rethink the history and theories of transitions in the region in ways that account for popular agency Lisbon rising will be of interest not only to students of twentieth century European history but across disciplines to students of democratisation social movements and citizenship in political science and sociology

Barbarism and Civilization Bernard Wasserstein, 2009 History

Rethinking Democratisation in Spain, Greece and Portugal Maria Elena Cavallaro, Kostis Kornetis, 2019-04-23 This edited collection explores the ways in which the 2008 2009 social and economic crisis in Southern Europe affected the interpretation of the transitional past in Spain Greece and Portugal Discussing topics such as public memory Europeanism and uses of the past by grassroots movements the volume showcases how the crisis challenged consolidated perceptions of the transitions as success stories It revisits the dominant historical narratives around Southern European transitions to democracy more than forty years since the demise of authoritarian regimes bringing together contributors from history cultural studies political science and sociology

Unveiling the Magic of Words: A Overview of "**Making Of Portuguese Democracy**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**Making Of Portuguese Democracy**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book is central themes, examine its distinctive writing style, and assess its profound impact on the souls of its readers.
