Manhood and the Making of the Military Dr Anders Ahlbäck, 2014-10-28 The creation of Finland's national conscription army in the wake of its independence from Russia in 1917 aroused intense but conflicting emotions This book examines the struggles of a new army to find popular acceptance and support and explores the ways that images of manhood were used in the controversies Ahlbäck places the situation of interwar Finland within a broad European context to reveal the conflicts surrounding compulsory military service and the impact of the Great War on masculinities and constructions of gender

Speaking the Truth about Oneself Michel Foucault, 2021-10-07 Speaking the Truth about Oneself is composed of lectures that acclaimed French philosopher Michel Foucault delivered in 1982 at the University of Toronto As is characteristic of his later work he is concerned here with the care and cultivation of the self which becomes the central theme of the second and third volumes of his famous History of Sexuality published in French in 1984 the month of his death and which are explored here in a striking and typically illuminating fashion Throughout his career Foucault had always been interested in the question of how constellations of knowledge and power produce and constitute subjects But in the last phase of his life he became especially interested not only in how subjects are constituted by outside forces but in how they constitute themselves In this lecture series and accompanying seminar we find Foucault focused on antiquity starting with classical Greece the early Roman dynasties and concluding with fourth and fifth century Christian monasticism Foucault's claim is that in these periods we see the development of a new kind of act speaking the truth about oneself as the locus of a new form of subjectivity which he deemed important not just for historical reasons but also as something modernity could harness anew or adapt to its own purposes

Mencian Hermeneutics Chun-chieh Huang, 2019-01-22 Considered second only to Confucius in the history of Chinese thought Mencius 371-289 b.c. was a moral philosopher whose arguments while pragmatically rooted in the political and social conditions of his time go beyond particular situations to probe their origins and speculate on their larger implications His writings constitute a living tradition in China and the world at large Sinological studies of Mencius have long emphasized philological and archaeological research situating the texts mainly in Chinese history Critical appraisal of the texts lends itself to Western traditions of interpretation

Freedom and Responsibility in Neoplatonist Thought Ursula Coope, 2020-04-16 The Neoplatonists have a perfectionist view of freedom an entity is free to the extent that it succeeds in making itself good Free entities are wholly in control of themselves they are self-determining self-constituting and self-

knowing Neoplatonist philosophers argue that such freedom is only possible for non bodily things The human soul is free insofar as it rises above bodily things and engages in intellection but when it turns its desires to bodily things it is drawn under the sway of fate and becomes enslaved Ursula Coope discusses this notion of freedom and its relation to questions about responsibility She explains the important role of notions of self reflexivity in Neoplatonist accounts of both freedom and responsibility In Part I Coope sets out the puzzles Neoplatonist philosophers face about freedom and responsibility and explains how these puzzles arise from earlier discussions Part II explores the metaphysical underpinnings of the Neoplatonist notion of freedom concentrating especially on the views of Plotinus and Proclus In what sense if any is the ultimate first principle of everything the One free If everything else is under this ultimate first principle how can anything other than the One be free What is the connection between freedom and nonbodiliness Finally Coope considers in Part III questions about responsibility arising from this perfectionist view of freedom Why are human beings responsible for their behaviour in a way that other animals are not If we are enslaved when we act viciously how can we be to blame for our vicious actions and choices

Can Virtue Make Us Happy? Otfried Hoffe,2010-03-17 In Can Virtue Make Us Happy The Art of Living and Morality Otfried Hoffe one of Europe s best known philosophers offers a far reaching and foundational work in philosophical ethics Hoffe uses clear accessible language to present common understandings of happiness and freedom while illuminating the blind alleys in the history of philosophy What has priority good ends or right action Is freedom always anarchy Is it possible to think of a freedom enhanced by morality Is morality merely a euphemism for stupidity Does humanity have a good or a bad character Is there such a thing as evil Hoffe offers no simple formulas but provides enlightened philosophical reflection to fuel the reader s own examination of these questions Book Jacket

Inwardness and Existence Walter Albert Davis,1989 A profound challenging wide ranging book back in print for a new generation Inwardness and Existence accomplishes what no book before or after has even approximated it demonstrates with great lucidity and insight the shared philosophical project that animates psychoanalysis Marxism existentialism and Hegelian dialectics Davis roots the reader in the enterprise of questioning what is given and probing beyond what is safe in order to demonstrate that psychoanalytic inquiry Marxist politics existential reflection and dialectical connection all move within the same orbit No one who reads it

will ever think about existence itself in the same way again Davis's landmark work will profoundly transform anyone who reads it Todd McGowan author of *The Real Gaze* Film Theory after Lacan **Thinking with Kierkegaard** Arne Grøn, 2022-12-31 Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy Contrary to many approaches to Kierkegaard's authorship Grøn does not read Kierkegaard in opposition to Hegel The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work In Grøn's reading Kierkegaard conceives human selfhood not merely as relational but also a process of becoming the self that one is through the otherness of self experience that is the body the world other people and God This book should be of interest to philosophers theologians literary studies scholars and anyone with an interest not only in Kierkegaard but also in human identity **The Nietzschean Self** Paul Katsafanas, 2016 Paul Katsafanas presents a clear systematic study of Nietzsche's moral psychology showing its advantages over its rivals He examines Nietzsche's accounts of conscious and unconscious of the connection between drives desires affects and values of freedom of the unity of the self and its relation to its social and historical context *The Lady's Magazine, Or, Entertaining Companion for the Fair Sex, Appropriated Solely to Their Use and Amusement*, 1791 Vulnerability in Technological Cultures Anique Hommels, Jessica Mesman, Wiebe E.
