Managing Change For Library Support Staff Studies In Librarianship And Information Management:

Managing Change for Library Support Staff Anne Goulding, 1996 In today's library environment the only constant seems to be change This book describes how external and internal organizational changes have specifically affected library support staff who being at the sharp end of the service have to cope with the effects of change on a daily basis Library managers need to inform themselves on how change affects the working experiences of staff and how in the face of uncertainty and upheaval they can ensure those staff remain motivated and committed Drawing upon case study and interview data the author discusses who library support staff are and why library managers should be particularly concerned about their welfare the changing working environment of library support staff work design working conditions the organizational climate workforce planning and equal opportunities The result is a rich picture of the current state of support staff roles in today's libraries

Managing Change in Academic Libraries Joseph Branin, 2013-01-11 *Managing Change in Academic Libraries* helps academic librarians plan implement and manage changes to the fundamental structure of their organizations It shows readers that in academic libraries the two driving forces behind most change are economics and technology Declines in funding for education and in the purchasing power of libraries have made it impossible to maintain the status quo let alone realize growth in traditional information services and collection development Add to this downward trend in library economics the explosion of new information technology and its potential for radically altering communications and knowledge management and one has the ingredients for some amazing changes in libraries To help manage these many changes chapters in *Managing Change in Academic Libraries* approach change with a mixture of radical and rational ideas Readers learn academic librarians' views on dealing with change as they read about an environmental scan which identifies both internal and external forces that are increasing the amount and scope of change in academic libraries technological change and its impact in academic libraries the academic library director's role as an agent of change how two large library systems managed to change in some very fundamental ways when faced with serious economic and political challenges difficult personnel issues faced by academic libraries as they move into new organizational structures and adopt new management styles the future of traditional reference services in light of rapid developments in computing and networking how to change bibliographic control to better serve the changing expectations and needs of user communities conducting a restructuring study and recommendations for organizational change in a large research library system Each chapter shows academic librarians how they can respond imaginatively and nimbly to economic political and technological change that envelopes their professional work life Academic librarians will refer to *Managing Change in Academic Libraries* again and again as a survival tool as they meet with challenging and unpredictable changes

British librarianship and information work 2011-2015 J. H. Bowman, 2017-01-24 This is the latest in an important series of reviews going back to 1928 The book contains 28 chapters written by experts in their field and reviews developments in the principal aspects of British

librarianship and information work in the years 2011-2015 Handbook of Library Training Practice and Development Alan Brine, 2016-04-22 Librarians must now work at a different level from that required 20 years ago but the training available is not always appropriate or accessible to all. The authors of this volume have responded to this significant and continuing change within the profession by offering a much needed guide to best practice for staff training and development in library and information work. This handbook addresses new aspects of service provision both in the UK and abroad and provides an up to date review of the current developments that are becoming increasingly important to librarians through the influence of the electronic age and the widening of areas of professional involvement. The Handbook of Library Training Practice and Development will be invaluable to those responsible for the development of staff and line managers as well as providing a crucial insight into the information profession for anyone new to this career path or looking to develop their knowledge within it. Issues of Human Computer Interaction Anabela Sarmento, 2005-01-01 Human Computer Interaction (HCI) has its roots in the main areas of industrial engineering, human factors and cognitive psychology with the focus on the development of user friendly IT. Traditionally the research in this area has emphasised the technological aspect of this relationship. The Computer. More recently other aspects concerning the organizational, social and human context also began to be considered. The Human. Today one can say that any attempt to facilitate the relationship between the machine and the user must consider not only the technological perspective e.g. promote the usability but also for instance the way the user is going to use the technology and his or her purpose as well as the social and cultural context of this use. The Human and the Computer.

Resources in Education, 2001-10 **Digitizing the Modern Library and the Transition From Print to Electronic** Bhardwaj, Raj Kumar, 2017-08-11 The development of online digital libraries has enhanced the availability of printed materials. By implementing these systems this ensures the access of material to universities, students and bibliophiles. Digitizing the Modern Library and the Transition From Print to Electronic is a pivotal reference source for the latest techniques and initiatives needed to transition libraries into the digital age. Featuring extensive coverage on relevant areas such as electronic resource management, library management software and semantic web, this publication is an ideal resource for faculty members, research scholars, students, information specialists and librarians in universities and in academic, public and special libraries. Manging Academic Libraries Bateshwar Dayal, 2011 *Changing Roles of Library Professionals*, 2000 Over the past ten years many changes have affected the roles of librarians and other professionals in research libraries. The changes have been caused in part by technological advances, reorganizations, more focus on libraries as learning organizations, the use of teams and team based approaches to tasks and a recognition of diversity's importance to organizational development. Librarians have had to align priorities with redefined institutional goals. The survey for this SPEC Kit was an effort to examine these professional changes through an analysis of position descriptions issued by ARL member institutions. What follows are the results of the survey conducted in January 1999 by the ARL Leadership Committee whose

membership included Nancy Baker Washington State University Joan Giesecke University of Nebraska Lincoln Carolyn Snyder Southern Illinois University DeEtta Jones ARL Senior Program Officer for Diversity and Kathryn Deiss ARL OLMS Program Manager Introduction to the executive summary page 9
