Managing Core Public Services:

Public Sector Management David McKevitt, Alan Lawton, 1994-05-11 Provides an overview of the theory and practice of public service management Using a number of key contributions to the field the text outlines the social political and economic contexts in which management has emerged as a central issue in the public sector of industrial nations *Public Management Occasional Papers Public Service Pay Determination and Pay Systems in OECD Countries No. 2*

OECD, 1994-07-01 This report maps the current state of public service pay determination and pay systems in OECD countries and explores the different paths of reform that are being followed in different countries **Managing the Civil Service**

Barbara Nunberg, 1992 Centralized civil service management models provide the best starting point for most developing countries because decentralized agency systems require technological and human resources beyond their capabilities Some better endowed countries could use certain agency type features selectively moving toward an agency system as their institutional capabilities increase *Strategic Management in Public Services Organizations* Ewan Ferlie, Edoardo

Ongaro, 2015-02-20 Strategic Management in Public Services Organizations sets out to connect the two traditionally disparate academic literatures of public management and strategic management The authors argue that some models of strategic management are now of enhanced relevance for contemporary public services organizations especially when considering successive New Public Management reforms This observation has important consequences for the requisite work practices skills and knowledge bases of current public managers as they are increasingly being asked to act as strategic as well as operational managers Strategic Management in Public Services Organizations takes a strongly comparative and international perspective in addressing the fundamental issue of strategic management within diverse public administrative traditions The impact of strategic management on the performance of public agencies is examined and it is argued that the appropriate use of strategic management models depends on the politico administrative and cultural contexts of the public services organization in question concluding that there is no single best way to strategically lead public organisations This is an advanced textbook aimed at the postgraduate level particularly students on MPAs and MBAs with a public sector option or MScs in Public Policy and Public Management Public Sector Management in Australia Ciaran O'Faircheallaigh, John

Wanna, Patrick Moray Weller, 1999 Revised and updated second edition of a text first published in 1992 Includes recent empirical research and a new section on management in practice Addresses issues relating to the design and structure of governmental bodies the utility and impact of alternative management techniques and public sector ethics and accountability Includes references and an index The authors have senior positions at the Centre for Australian Public Sector Management and have published extensively in their field **Institutions on the edge?** Michael Keating, 2020-07-25 Australia faces

major challenges to its forms of governance Changing expectations from its citizens global pressures on the economy and technological innovation are impacting on government operations Yet most of its institutions were designed a hundred years

ago Cabinet government was inherited Parliament was already established in its forms and procedures The federal structure the High Court and the federal public service were created as a consequence The party structure has been effectively frozen since the 1920s and a tradition of handing some responsibilities to arms length organisations was well established So how have these institutions changed over the last hundred years and how well will they adapt to the demands of the modern world Do they have the capacity to adapt appropriately and enable governments to achieve their preferred outcomes In this book experienced academics and practitioners explore these questions They examine each of the institutions in terms of their ability to meet new challenges and provide some hope that Australia s institutions even if at times slow to move and dominated by internal interests have a capacity to adapt and govern effectively The book shows our political institutions in a new light as dynamic often flexible organisms it provides important new insights into the way we are governed and how our system of governance might develop in the future

Public Sector Reform B. Nolan, 2001-04-10 In these times of dramatic social economic and political change governments around the world are questioning their roles and responsibilities in the public sector There is a trend away from traditional public sector model and that of market ideology but there does not yet exist a universally accepted alternative Brendan Nolan offers a comparative analysis of public administration in several OECD countries the UK USA Australia and Scandinavia and explores possible future directions

OECD Reviews of Human Resource Management in Government: Belgium 2007 Brussels-Capital Region, Federal Government, Flemish Government, French Community, Walloon Region OECD, 2007-10-30 The review of human resource management HRM in Belgian government provides a detailed diagnosis and solutions for improving the management of government employees in the Federal Government and various regions
