ANCIENT AUTHORS PERSONS MITHRAIC MONUMENTS PLATES I XLV *Images of Mithra* Philippa Adrych, Robert
Bracey, Dominic Dalglish, Stefanie Lenk, Rachel Wood, 2017-03-09 With a history of use extending back to Vedic texts of the
second millennium BC derivations of the name Mithra appear in the Roman Empire across Sasanian Persia and in the Kushan
Empire of southern Afghanistan and northern India during the first millennium AD Even today this name has a place in Yazidi
and Zoroastrian religion But what connection have Mihr in Persia Miros in Kushan Bactria and Mithras in the Roman Empire
to one another Over the course of the volume specialists in the material culture of these diverse regions explore appearances
of the name Mithra from six distinct locations in antiquity In a subversion of the usual historical process the authors begin
not from an assessment of texts but by placing images of Mithra at the heart of their analysis Careful consideration of each
example s own context situating it in the broader scheme of religious traditions and on going cultural interactions is key to
this discussion Such an approach opens up a host of potential comparisons and interpretations that are often side lined in

constellations which straddle the ecliptic Since the dawn of time man has used these constellations and the celestial bodies to map both time and geography and the stories attached to these movements began to take on mythologies across the world The Greek gods Hercules Apollo and Dionysus are all examples of these solar entities This book explores the astrotheological origins of the Ancient Mediterranean and Near Eastern faiths Mithraism Judaism and Christianity It aims to show how these sisterfaiths all sought salvation through the celestial bodies and adopted the astral stories of their ancestors as the fundamental basis of their religi

Mithras Andrew Fear,2022-06-24 Mithras explores the history and practices of the ancient mystery religion Mithraism looking at both literary and material evidence for the god Mithras and the reception and allure of his mysteries in the present The genesis and spread of Mithraism remain highly controversial This book examines our current state of knowledge on the pre classical Indo Iranian god Mitra and argues that Mithraism was a product of Mitra s encounter with the religious thought of the classical world It then charts the life history of Mithraism in the Roman Empire exploring the social background of its initiates and the reasons for their attraction to the religion The rituals and beliefs of the cult are as mysterious as its origins in studying Mithraic caves and paintings found in some Mithraic temples we can better understand and reconstruct the rituals the Mithraists practiced While bull slaying or tauroctony lies at the core of the Mithraic mythos this volume explores other incidents in the god s life depicted in ancient art including his miraculous birth and his banquet with the sun as well as the disconcerting lion headed enveloped god After a fall from grace in the post classical world Mithras has resurrected himself in the present establishing himself as one of the most recognisable if elusive gods of antiquity Mithras provides a fascinating study of this complex god that will be of interest to scholars and students of Roman and Late Antique religion mystery cults as well as those working on society and religion in antiquity more broadly

Transformations of Time and Temporality in Medieval and Renaissance Art Simona Cohen,2014-03-10 Although studies of specific time concepts expressed in Renaissance philosophy and literature have not been lacking few art historians have endeavored to meet the challenge in the visual arts This book presents a multifaceted picture of the dynamic concepts of time and temporality in medieval and Renaissance art adopted in speculative ecclesiastical socio political propagandist moralistic and poetic contexts It has been assumed that time was conceived in a different way by those living in the Renaissance as compared to their medieval predecessors Changing perceptions of time an increasingly secular approach the sense of self determination rooted in the practical use and control of time and the perception of time as a threat to human existence and achievements are demonstrated through artistic media Chapters dealing with time in classical and medieval philosophy and art are followed by studies that focus on innovative aspects of Renaissance iconography
