Planning and the British New Right Philip Allmendinger, Huw Thomas, 2002-01-22 Did the 1980s and 1990s see the death of planning Exposing the myth that has grown up around Thatcherism leading experts from a wide range of land use policy areas examine the changes that were brought about in planning and the environment during the 1980s and 1990s and argue that much less was achieved than expected Urban Planning and the British New Right questions common assumptions about planning practices under Thatcherism concluding that the complex relationship of power between central local and national government requires a sensitivity to change that is inclusive rather than doctrinal This is a book that says as much about the administration institutions and processes of planning as it does about Mrs Thatcher s attempts to change it *New Right Discourse on Race and Sexuality* Anna Marie Smith, 1994-11-10 The first book in the Cultural Margins series is a 1994 study of racism and homophobia in British politics which demonstrates the demonisation of blacks lesbians and gays in New Right discourse Anna Marie Smith develops theoretical insights from literary and cultural critics including Nietzsche Foucault Derrida Hall and Gilroy to produce detailed readings of two key moments in New Right discourse the speeches of Enoch Powell on black immigration 1968 72 and the legislative campaign of the late 1980s to prohibit the promotion of homosexuality Her analysis challenges the silence on racism and homophobia in previous studies of Thatcherism and the New Right and shows how demonisation of lesbians and gays depends on previous demonisations of black immigrant and criminal figures Overall this book offers a devastating critique of racism and homophobia in late twentieth century Britain

Beyond the New Right John Gray, 2013-09-13 John Gray is now established as one of the UK s leading political thinkers For over a decade he has been associated with the ideas and think tanks of the New Right In this book he presents both a criticism of the ideological excesses of New Right ideology and a radical critique of the New Right itself developed from the standpoint of traditional conservatism All the major thinkers and themes of the New Right are examined together with many major issues of current public policy such as the growth of the underclass the future of the welfare state and the role of government in education and culture The author also argues that there are deep affinities between conservative ideology and

Green thought He advances radical proposals for the preservation and renewal of common life for an age in which the ideals of modernism including continuous economic growth are decreasingly viable He expresses his conviction that conservative philosophy will find its future in dissociating itself from the neo liberalism that has lately dominated policy and returning to the task of redefining traditional values *An Introduction to Politics, State and Society* James W McAuley,2003-05-21 This major new textbook will equip students with a complete understanding of contemporary politics state and society in the United Kingdom today Key underlying themes include the differences between traditional and alternative sites of power and what we mean by political the relationships between politics society and how individuals become and remain engaged with politics the rapid transformations in contemporary social structures and their impact on social and political life the role of human agency and its significance to social and political action and movements contemporary cultural and social dislocations and their impact on some of the major contested areas of political life today Key features include key concepts and issues key theorists and writers discussion questions Comprehensive and accessible *An Introduction to Politics State Society* is an essential text for all undergraduate students of politics the contemporary state power and political sociology James W McAuley is Professor of Political Sociology and Irish Studies in the School of Human and Health Sciences at the University of Huddersfield *Introduction To Race Relations* Barry Troyna,2003-09-02 This is the second edition of the textbook on race and ethnic relations which has been adopted by academic and vocational courses and which is designed to be a straightforward introduction to this field of study It retains all the original features but reflects on events over the years since its original publication incorporating accounts of developments in the UK and USA Suggestions for further readings are revised in the light of the latest research **Challenging Women** Su Maddock,1999-06-28 This book offers a radical reassessment of organizational forces for change and barriers encountered by the challenging women senior women managers faced with the task of transforming their organizations Much has been written about women at work the glass ceiling and discriminatory employment practices This study is seminal in the linkage it makes between gender innovation and organizational transformation The book highlights the implications of this for all types of organizations and women managers everywhere *On the Fringe* David M. Rayside,2018-09-05 Does the idea of equality for sexual minorities have as strong an influence as the media suggest How often do politicians come out forthrightly in support of gay rights Drawing on more than three hundred interviews with activists politicians officials legislative aides and journalists David Rayside shows that gays lesbians and their political issues are still on the fringe of the political mainstream His landmark study of political access demonstrates that despite the overall tempering of anti gay rhetoric in the 1990s opponents of equality are formidable and standing up for sexual minorities is still widely thought to be politically risky Rayside documents a high profile controversy in each of three countries gays and lesbians in the military in the United States sexual orientation and human rights legislation in Canada and the age of consent battle in the United Kingdom In addition in depth interviews of openly gay elected officials

from three countries U S Congressman Barney Frank Canadian Member of Parliament Svend Robinson and British M P Chris Smith provide an inside look at the political process the negotiation of gay and lesbian policy issues on a daily basis the attitudes of colleagues in various political parties and the tensions created when grassroots and mainstream activism intersect with each other The only major book to look at gay and lesbian politics in three culturally similar but politically disparate countries On the Fringe explores the political workings and impact of a modern social movement **Knowledge and Nationhood** Denis Glesson,1996-07-01 This text examines the implications of government policy for the curriculum the professionalism of educational practitioners and the training and career options of young people It argues for a new educational agenda which recognizes the importance of intellectual investment and innovation in all areas of educational provision and which addresses the profound changes taking place in the relationship between national and global citizenship The text also includes a critique of New Right policies *Thatcherism and Literature* Ruth Wittlinger,2002 **British Conservatism and the Legal Regulation of Intimate Relationships** Andrew Gilbert,2018-08-23 What does conservatism as a body of political thought say about the legal regulation of intimate relationships and to what extent has this thought influenced the Conservative Party s approach to family law With this question as its focus this book explores the relationship between family law conservatism and the Conservative Party since the 1980s Taking a politico and socio legal perspective the discussion draws on an expansive reading of Hansard as well as recently released archival material The study first sets out the political tradition of conservatism relying largely on the work of Edmund Burke before going on to analyse the discourse around the development of four crucial statutes in the field namely the Matrimonial and Family Proceedings Act 1984 the Family Law Act 1996 the Civil Partnership Act 2004 and the Marriage Same Sex Couples Act 2013 This work offers the first extended synthesis of family law conservative political thought and Conservative Party politics and as such provides significant new insight into how family law is made Runner up of the 2020 PSA Conservatism Studies Book Prize **Enoch Powell and the Making of Postcolonial Britain** Camilla Schofield,2013-10-03 Enoch Powell s explosive rhetoric against black immigration and anti discrimination law transformed the terrain of British race politics and cast a long shadow over British society Using extensive archival research Camilla Schofield offers a radical reappraisal of Powell s political career and insists that his historical significance is inseparable from the political generation he sought to represent Enoch Powell and the Making of Postcolonial Britain follows Powell s trajectory from an officer in the British Raj to the centre of British politics and finally to his turn to Ulster Unionism She argues that Powell and the mass movement against New Commonwealth immigration that he inspired shed light on Britain s war generation popular understandings of the welfare state and the significance of memories of war and empire in the making of postcolonial Britain Through Powell Schofield illuminates the complex relationship between British social democracy racism and the politics of imperial decline in Britain **Land Of Plenty** Mark Davis,2008-09-01 There is an Australian dream that is collective It goes to the roots of what it means to be

Australian since it is imprinted in Australia's history the collective acts of its peoples their attitudes their gestures what and how they eat how they spend their leisure time and the way such things reflect upon and derive from who they are In *The Land of Plenty* Mark Davis argues that this dream has been forsaken Over the past few decades Australians have felt the ground shift beneath their feet Many people are asking why Australia is no longer the egalitarian place it once was While the airwaves sing and newspaper front pages burst with news of how prosperous Australians are many people wonder why they are working harder and longer for so little while important social agendas have fallen by the wayside *The Land of Plenty* is at once a devastating record of the changes that have taken place in Australian society since the 1980s and a goldmine of ideas for change Insightful provocative and thoroughly original *The Land of Plenty* is a manifesto for our times [The Use and Abuse of Political Asylum in Britain and Germany](#) Liza Schuster, 2004-08-02 Analysing asylum in Britain and Germany from a historical and conceptual perspective this book provides a comparative study of asylum and refugee policies **The Politics of Marginality** Antony Robin Jeremy Kushner, Kenneth Lunn, 1990 The essays in this collection are an attempt to provide a basis for future discussion of immigration ethnicity and race in Britain [Music and Copyright](#) Robert Montgomery, 2007-01-01 Delius was born in 1862 twenty four years before the signing in 1886 of the Berne Convention the international convention for the protection of literary and artistic works During Delius's lifetime came the birth of the record industry the development of exercising the performing right the introduction of the mechanical right and the advent of films and broadcasting Robert Montgomery and Robert Threlfall chronicle Delius's dealings with his publishers and the Performing Right Society PRS through his copious correspondence This book provides a selection of translations of the letters most of which have never been seen before and offers a unique insight into how a leading twentieth century composer earned his living from composition in the changing environment of the world of music [Routledge Revivals: Reactions to the Right \(1990\)](#) Barry Hindess, 2017-02-17 First published in 1990 this book was intended as a counter to the rising and continued strength of the New Right and an attempt to bolster the perceived weakness of the opposition providing a critical discussion of New Right ideology and also of the more influential Left reactions to them The contributors scrutinise the attempts to reconstruct the idea of socialism in the 1990s and pinpoint the relation of socialism to freedom equality and the market In the course of this searching evaluation they also take up issues relating more directly to specific policy areas such as monetary policy and international finance secondary education social welfare and race relations [Urban Planning Theory Since 1945](#) Nigel Taylor, 1998-06-30 Following the Second World War modern systems of urban and regional planning were established in Britain and most other developed countries In this book Nigel Taylor describes the changes in planning thought which have taken place since then He outlines the main theories of planning from the traditional view of urban planning as an exercise in physical design to the systems and rational process views of planning of the 1960s from Marxist accounts of the role of planning in capitalist society in the 1970s to theories about planning implementation and more recent

views of planning as a form of communicative action Policy-Making in Britain Maurice Mullard, 2005-08-04 The book provides a broad based introduction to policy making in Britain exploring the legacy of the Thatcher era and charting the new context of policy making in the 1990s The authors examine the policy process within its ideological political and economic context discussing both the influence of Europe and the influence of local government Having established a broad framework for analysis the book focuses on a selection of particular policy areas public expenditure the NHS Next Steps water privatisation pensions education and immigration The aim of the book is to give a sense of the actual dynamics of policy making and to encourage students to think about the likely outcomes of policy change while making the connections between British public policy and the environment in which it is shaped **The Centre-left and New Right Divide?** Steven R. Smith, 2018-11-09 First published in 1998 this volume offers some solutions to the inherent difficulties with moving from philosophical generalities to specific policies by exploring how a bridge might be built between political philosophy and social policy analysis In light of these findings Steven R Smith evaluates the relationship between the Centre Left and the New Right focusing on the way in which concepts of individual autonomy and equality are used by political philosophers and social policy makers Smith explores post 1945 training education social security and community care policy within the United Kingdom
