**Cassandra Borges, C. Michael Sampson**

## **Oxyrhynchus Papyri Volume 54:**

**De Rerum Natura**, 1987 New Literary Papyri from the Michigan Collection Cassandra Borges, C. Michael Sampson, 2012-10-04 Three new fragments from amongst the oldest Greek papyri *The Gospel According to Philip* Martha Turner, 2020-10-26 Study of the Gospel according to Philip an important gnostic Christian text has been hampered by unresolved questions about the unity genre and sectarian contexts of the work This book argues that terms of self designation use of controversial vocabulary style hermeneutic strategies and theological commitments together present persuasive evidence of derivation from multiple sectarian milieux The document s organizing principles are found to be in accord with the excerpting and collection practices of Late Antiquity The coherence of the text lies in its compiler s distinctive interests and choices not in the uniformity of its materials The persuasive case made by this book will help to advance research on this significant document of early Christianity

**A Cultural History of Color in Antiquity** David Wharton, 2022-08-31 A Cultural History of Color in Antiquity covers the period 3000 BCE to 500 CE Although the smooth

white marbles of Classical sculpture and architecture lull us into thinking that the color world of the ancient Greeks and Romans was restrained and monochromatic nothing could be further from the truth Classical archaeologists are rapidly uncovering and restoring the vivid polychrome nature of the ancient built environment At the same time new understandings of ancient color cognition and language have unlocked insights into the ways often unfamiliar and strange to us that ancient peoples thought and spoke about color Color shapes an individual's experience of the world and also how society gives particular spaces objects and moments meaning The 6 volume set of the Cultural History of Color examines how color has been created traded used and interpreted over the last 5000 years The themes covered in each volume are color philosophy and science color technology and trade power and identity religion and ritual body and clothing language and psychology literature and the performing arts art architecture and interiors and artefacts David Wharton is Associate Professor of Classical Studies at the University of North Carolina at Greensboro USA Volume 1 in the Cultural History of Color set General Editors Carole P Biggam and Kirsten Wolf     Worlds Apart Trading Together: The organisation of long-distance trade between Rome and India in Antiquity Kasper Grønlund Evers, 2017-12-31 This book sets out to replace the outdated notion of Indo Roman trade integrating new findings from the last 30 years Analysis conducted demonstrates that highly substantial levels of trade took place between the Mediterranean and the Indian Ocean in the 1st 6th c altering consumption and production in India South Arabia and the Roman Empire     *Essays on Ancient Greek Literature and Culture* Ewen Bowie, 2023-07-27 Assembles a major scholar's work on Hellenistic and Imperial Greek poetry and the novels over four decades illustrating its evolution     *Women and the Comic Plot in Menander* Ariana Traill, 2008-05-22 Taking a fresh look at mistaken identity in the work of an author who helped to introduce the device to comedy in this book Professor Traill shows how the outrageous mistakes many male characters in Menander make about women are grounded in their own emotional needs The core of the argument derives from analysis of speeches by or about women with particular attention to the language used to articulate problems of knowledge and perception responsibility and judgement Not only does Menander freely borrow language situations and themes from tragedy but he also engages with some of tragedy's epistemological questions particularly the question of how people interpret what they see and hear Menander was instrumental in turning the tragic theme of human ignorance into a comic device and inventing a plot type with enormous impact on the western tradition This book provides original insights into his achievements within their historical and intellectual context     Song Regained Margarita Alexandrou, Chris Carey, Giovan Battista D'Alessio, 2022-01-19 Apart from relatively few exceptions of texts which survive intact what we have of Ancient Greek literature remains to a great degree fragmentary As a result it is often misread overlooked or mined not for its own sake but to support the investigation of texts which survive in their entirety This collection of chapters addresses a range of poetic fragments with a strong though not exclusive focus on Archaic epic and lyric and an emphasis on the papyrological tradition Its main purpose is to showcase effective

methodologies through case studies through a hands on approach assisted by a robust theoretical underpinning The topics covered include textual criticism the editing of fragmentary corpora the role of palaeography and the physical features of writing materials the study of ancient editions annotations and paraliterary texts matters of indirect or mixed tradition and fragment placement and attribution This volume will certainly be a rewarding read intended equally for new researchers who wish to acquire or improve the skills needed to deal with fragmentary texts and for established scholars who may draw on the authors insights to navigate the field improving their experience and enriching their knowledge *Studies On The*

*Paratextual Features Of Early New Testament Manuscripts* ,2023-04-24 Most studies of ancient New Testament manuscripts focus on individual readings and textual variants This book however draws attention to and attempts to advance study of the textual and paratextual features of New Testament manuscripts After defining paratext the contributors discuss key manuscript characteristics including headings introductions marginal comments colophons layout features such as margins columns spacing and reading aids such as segmentation paragraphos ekthesis coronis and rubrication The goal of this book is to explore how textual criticism goes beyond individual readings and includes studying the history of texts and their perceivable features **The Classical Review** ,1920 **Perspectives on New Testament Textual Criticism, Volume 2**

Eldon Jay Epp,2020-11-30 Eldon Jay Epp s second volume of collected essays consists of articles previously published during 2006 2017 All treat aspects of the New Testament textual criticism but focus on historical and methodological issues relevant to constructing the earliest attainable text of New Testament writings More specific emphasis falls upon the nature of textual transmission and the text critical process and heavily on the criteria employed in establishing that earliest available text Moreover textual grouping is examined at length and prominent is the current approach to textual variants not approved for the constructed text for they have stories to tell regarding theological ethical and real life issues as the early Christian churches sought to work out their own status practices and destiny **American Journal of Philology** Basil Lanneau
