Postures Of The Mind Essays On Mind Morals:

Postures of the Mind Annette Baier, 1985 *Postures of the Mind* was first published in 1985 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Annette Baier develops in these essays a posture in philosophy of mind and in ethics that grows out of her reading of Hume and the later Wittgenstein and that challenges several Kantian or analytic articles of faith She questions the assumption that intellect has authority over all human feelings and traditions that to recognize order we must recognize universal laws descriptive or prescriptive that the essential mental activity is representing and that mental acts can be analyzed into discrete basic elements combined according to storable rules of synthesis In the first group of essays *Varieties of Mental Postures* Baier evaluates the positions taken by philosophers ranging from Descartes to Dennett and Davidson Among her topics are remembering intending realizing caring representing changing one's mind justifying one's actions and feelings and having conflicting reasons for them The second group of essays *Varieties of Moral Postures* explores the sort of morality we get when all of these capacities become reflective and self-corrective Some deal with particular moral issues our treatment of animals our policies regarding risk to human life our contractual obligations others with more general questions on the role of moral philosophers and the place of moral theory These essays respond to the theories of Hobbes Kant Rawls and MacIntyre but Baier's most positive reaction is to David Hume *Postures of the Mind* affirms and cultivates his version of a moral reflection that employs feeling and tradition as well as reason

Postures of the Mind Annette Baier, Professor Emerita of Philosophy Annette Baier, 1985 [Pragmatism and the Reflective Life](#) Stuart Rosenbaum, 2009-07-16 *Pragmatism and the Reflective Life* explains the moral perspective embedded in the American pragmatist tradition and offers pragmatist moral thought as an alternative to analytic moral theory Following the lead of John Dewey Rosenbaum explores what it means to make the ideal of the reflective life implicit in pragmatism central to an understanding of morality The discussion illuminates how this ideal of the reflective life captures the value of both individual autonomy and communal ideals and encourages commitment to a radically idealistic and ecumenical hope in the power of inclusive democracy and global egalitarianism [The Commons of the Mind](#) Annette Baier, 1997 In these *Carus Lectures* Annette Baier looks at the relation between individual and shared reasoning intending and moral reflection In each case she emphasizes the interdependence of minds and the role of social practices in setting the norms governing these activities

[Moral Disagreements](#) Christopher W. Gowans, 2013-04-03 Can moral disagreements be rationally resolved Can universal human rights be defended in face of moral disagreements The problem of moral disagreement is one of the central problems in moral thinking It also provides a stimulating stepping stone to some of the perennial problems of philosophy such as relativism scepticism and objectivity *Moral Disagreements* is the first anthology to bring together classic and contemporary readings on this key topic Clearly divided into five parts The Historical Debate Voices from Anthropology Challenges to Moral

Objectivity Defenses of Moral Objectivity and New Directions the anthology presents readings from the following key thinkers Sextus Empiricus Chagnon Wong MacIntyre Aquinas Shweder Brink Rawls Montaigne Turner Nussbaum Narayan Hume Mackie Gewirth Nietzsche Williams Berlin A distinctive feature of the anthology is that it brings philosophers into dialogue with well known anthropologists Also included is a comprehensive introduction by Christopher Gowans introducing the problem of moral disagreement to those coming to the topic for the first time *Hume's Morality* Rachel Cohon,2008-10-02 Rachel Cohon offers an original interpretation of the ethical thinking of the 18th century philosopher David Hume She focuses on two claims that human beings figure out what is good or evil by using our feelings or emotions and that some of the good traits we recognize are produced by informal social agreement and teaching **Moral Psychology** Walter Sinnott-Armstrong,Christian B. Miller,2008 For much of the twentieth century philosophy and science went their separate ways In moral philosophy fear of the so called naturalistic fallacy kept moral philosophers from incorporating developments in biology and psychology Since the 1990s however many philosophers have drawn on recent advances in cognitive psychology brain science and evolutionary psychology to inform their work This collaborative trend is especially strong in moral philosophy and these three volumes bring together some of the most innovative work by both philosophers and psychologists in this emerging interdisciplinary field The contributors to volume 2 discuss recent empirical research that uses the diverse methods of cognitive science to investigate moral judgments emotions and actions Each chapter includes an essay comments on the essay by other scholars and a reply by the author s of the original essay Topics include moral intuitions as a kind of fast and frugal heuristics framing effects in moral judgments an analogy between Chomsky s universal grammar and moral principles the role of emotions in moral beliefs moral disagreements the semantics of moral language and moral responsibility Contributors to Volume 2 Fredrik Bjorklund James Blair Paul Bloomfield Fiery Cushman Justin D Arms John Deigh John Doris Julia Driver Ben Fraser Gerd Gigerenzer Michael Gill Jonathan Haidt Marc Hauser Daniel Jacobson Joshua Knobe Brian Leiter Don Loeb Ron Mallon Darcia Narvaez Shaun Nichols Alexandra Plakias Jesse Prinz Geoffrey Sayre McCord Russ Shafer Landau Walter Sinnott Armstrong Cass Sunstein William Tolhurst Liane Young Finite and Infinite Goods Robert Merrihew Adams,1999-07-29 The book proposes a framework for ethics that is organized around a transcendent Good and its relation to the many finite goods of our experience Two main themes are the central role of the Good in ethics and the transcendence of the infinite Good which is identified with God *Art and Moral Change* Ki Joo Choi,2024-09-02 A first of its kind critical overview of how art leads to moral action in the field of theological ethics One question that remains insufficiently addressed in theological ethics is the question of how art leads to moral action While many modernist theories consider art to be a morally irrelevant activity others think that the arts and the emotions they elicit are integral to moral formation and justice Challenging both kinds of theories Art and Moral Change proposes that art is essential because it is an inevitable source of moral disagreement Drawing on the work of Jonathan Edwards and many

others in theology philosophy and literary studies Art and Moral Change argues that the arts are the cultural mediums through which we can better understand what is morally possible in the midst of difference The arts in other words can serve as snapshots of a particular community s perspectives on the good life offering glimpses not only of competing moral visions within society but also of the extent to which these contested moral views are reconcilable Thus the arts reveal the limits of moral reasoning confirm the contextuality of moral discernment and necessitate moral thinking that is dialogical and dialectical Art and Moral Change provides a first of its kind critical overview of how the field of theological ethics approaches and should utilize aesthetics The core premise that paying attention to art encourages us to appreciate the ethical importance of disagreement difference and conflict will foster greater understanding of aesthetics and ethics for students and scholars of theological social and virtue ethics

Virtue Ethics Daniel Statman,2019-08-07 The central question in contemporary ethics is whether virtue can replace duty as the primary notion in ethical theory This is book focuses directly on this subject

The Problem of Trust Adam B. Seligman,2021-06-08 The problem of trust in social relationships was central to the emergence of the modern form of civil society and much discussed by social and political philosophers of the early modern period Over the past few years in response to the profound changes associated with postmodernity trust has returned to the attention of political scientists sociologists economists and public policy analysts In this sequel to his widely admired book The Idea of Civil Society Adam Seligman analyzes trust as a fundamental issue of our present social relationships Setting his discussion in historical and intellectual context Seligman asks whether trust which many contemporary critics from Robert Putnam through Francis Fukuyama identify as essential in creating a cohesive society can continue to serve this vital role Seligman traverses a wide range of examples from the minutiae of everyday manners to central problems of political and economic life showing throughout how civility and trust are being displaced in contemporary life by new external system constraints inimical to the development of trust Disturbingly Seligman shows that trust is losing its unifying power precisely because the individual long assumed to be the ultimate repository of rights and values is being reduced to a sum of group identities and an abstract matrix of rules The irony for Seligman is that in becoming postmodern we seem to be moving backward to a premodern condition in which group sanctions rather than trust are the basis of group life

Philosophical Theorizing and its Limits Uri D. Leibowitz,Klodian Coko,Isaac Nevo,2025-02-12 This book brings together scholars from ethics and philosophy of science in order to identify ways in which insights gleaned from one subfield can shed light on the other The book focuses on two radical Anti Theory movements that emerged in the 1970 s and 1980 s one in philosophy of science and the other in ethics Both movements challenged attempts to supply general systematized philosophical theories within their domains and thus invited the reconsideration of what philosophical theorizing can and should offer Each of these movements was domain specific that is each criticized the aspirations to philosophical theories within its own domain and advanced arguments aimed at philosophers within their own specific

subfield The innovative systematic comparative examination of these movements by scholars from each domain sheds new light on some familiar debates offers new and exciting paths of research to pursue in each domain provides insight into the place of science and ethics in contemporary life and culture and enables a fresh view on the longstanding and alluring philosophical aspiration for a fully general absolute theory of reality and an ultimate objective foundational theory of knowledge

Caring Peta Bowden, 2008-01-28 In *Caring* Peta Bowden extends and challenges recent debates on feminist ethics She takes issue with accounts of the ethics of care that focus on alleged principles of caring rather than analysing caring in practice *Caring* Bowden argues must be understood by working through examples Following this approach Bowden explores four main caring practices mothering friendship nursing and citizenship Her analysis of the differences and similarities in these practices their varying degrees of intimacy and reciprocity formality and informality vulnerability and choice reveals the practical complexity of the ethics of care *Caring* recognizes that ethical practices constantly outrun the theories that attempt to explain them and Bowden's unique approach provides major new insights into the nature of care without resorting to indiscriminate unitary models It will be essential reading for all those interested in ethics gender studies nursing and the caring professions
