*East Asia And The Pacific* Robert G. Sutter, 2019-03-04 As the cold war ends the United States is being forced to reassess the dominant role it has played in East and Southeast Asia and the Pacific during the decades that followed World War II Bringing readers up to date on policy trends in the area the author provides a general overview as well as detailed analyses of key issues in individual nations and regions The author concludes by placing these regional developments in the context of the ongoing debate in the United States over an appropriate foreign policy in the post cold war world

**Charting a New Diplomatic Course** Cecil V. Crabb, Jr., Leila S. Saredidine, Glenn J. Antizzo, 2001-08-01 America's victory in the Cold War is a milestone in the nation's diplomatic experience The disintegration of the Soviet Union and the defeat of communism have made containment policy the foundation of U S foreign relations for almost a half century obsolete and policymakers and political scientists alike struggle to decide what new strategy should guide the country's involvement on the international stage In this pathbreaking work Cecil V Crabb Jr Leila E Saredidine and Glenn J Antizzo identify and analyze six distinct approaches to America's diplomatic course after the Cold War addressing perhaps the most important question of our time what should U S foreign policy be in the twenty first century First the authors examine the familiar doctrine of American isolationism and consider an alternative approach conservative neo isolationism which encourages policymakers to use careful discrimination but decisive action in assuming commitments abroad Liberal neo

isolationism a third possible course resists active interventionist strategies because of the dangers they pose to congressional power and America's democratic system At the opposite end of the spectrum are conservative interventionism the belief that America must maintain a strong military arsenal and engage in preventative diplomacy liberal interventionism the conviction that America has a responsibility to actively promote the cause of democracy and defend human rights beyond its own borders and pragmatic interventionism an approach taken by the Clinton Administration that relies on a cost benefit analysis of policy as problems arise Elegantly written and authoritatively researched *Charting a New Diplomatic Course* provides a much needed frame of reference for anyone interested in America's future in international affairs     On the Record Pamela Fields,1997     **Public Opinion** ,1890     **Millard's Review** ,1918     *Congressional Record* United States.
