The Public Spirit; ON THE ORIGINS OF LIBERAL THOUGHT By LEON MAYBEW

Public Spirit On The Origins Of Liberal

William C. Lubenow

Public Spirit On The Origins Of Liberal:

The Public Spirit Leon H. Mayhew, 1984 An Intellectual History of Liberal Catholicism in Western Europe, 1789-1870 Aude Attuel-Hallade, 2024-01-25 This volume probes and deciphers the tensions and contradictions that underlie modern European Liberal Catholicism Beginning with the French revolution and looking at dialogues between European public moralists the book discusses the ways in which liberal Catholics loosened their bonds with religion all the while relying on it It reflects on how and why they promoted a post revolutionary state and society based on religious dogma and morality and what new liberal order and socio political and religious models they proposed Beyond the analysis of the work of these Catholic intellectuals the question of their conceiving a specific liberal approach through Catholicism is also investigated More generally it prompts a vital reappraisal of the political ideological and philosophical pressures that the religious question caused in the redefinition of Western European post revolutionary liberalism The Lost History of **Liberalism** Helena Rosenblatt, 2020-02-04 The Lost History of Liberalism challenges our most basic assumptions about a political creed that has become a rallying cry and a term of derision in today s increasingly divided public square Taking readers from ancient Rome to today Helena Rosenblatt traces the evolution of the words liberal and liberalism revealing the heated debates that have taken place over their meaning In this timely and provocative book Rosenblatt debunks the popular myth of liberalism as a uniquely Anglo American tradition centered on individual rights It was only during the Cold War and America's growing world hegemony that liberalism was refashioned into an American ideology focused so strongly on individual freedoms Liberal Worlds H. S. Jones, 2025-11-18 The intellectual biography of a Victorian Liberal polymath James Bryce 1838 1922 was a leading figure in Britain's Liberal Party and a distinguished historian a versatile scholar politician who moved seamlessly between academia and politics He was among many other things a cabinet minister and a popular ambassador an expert on American politics and on Roman law an advocate for the Armenian people and an architect of the League of Nations a world traveller and a climber of Mount Ararat In Liberal Worlds Stuart Jones offers an intellectual biography of Bryce tracing a Scots Ulster Presbyterian's assimilation to the increasingly multiconfessional Victorian state and a late Victorian Liberal s encounter with the wider world Jones shows how a polymathic intelligence grappled with a dizzyingly wide range of concerns and issues including the challenges of democracy and race relations the rise of modern universities and the reconstruction of the international order after World War I In mapping the evolution of Bryce's thought Liberal Worlds illuminates the international intellectual networks and the many places across the globe that shaped his thinking Jones considers for example why a man who had a lifelong revulsion against slavery seemed to accept racial segregation in the American South how a vigorous activist for girls and women s education became a tenacious parliamentary critic of women's suffrage and why over the objections of his Ulster Presbyterian family he backed Irish home rule Above all Jones rescues Bryce immensely influential in his time now little remembered from being consigned to a

historical pigeonhole restoring him to the centre of late nineteenth and early twentieth century debates over the nature of Canada's Origins Janet Ajzenstat, Peter J. Smith, 1995 Ajzenstat and Smith challenge the idea of democratic politics Canada as a country whose liberal individualism unlike that of the United States is redeemed by a tradition of government intervention in economic and social life the so called tory touch This ground breaking book begins with the now classic article in which the red tory view was formulated It then presents a new and illuminating picture of Canadian political life in which liberal individualism confronts not toryism but the participatory tradition of civic republicanism In the final section the two editors one a liberal the other a civic republican debate the crucial questions dominating Canadian politics today including Ouebec's search for recognition from the perspective of their shared understanding of Canada's founding and Medical Professional Protest in Britain, 1880-1948 Chris Locke, 2023-11-08 This book charts the journey of British General Practitioners GPs towards professional self realisation through the development of a political consciousness manifested in a series of bruising encounters with government GPs are an essential part of the social fabric of modern Britain but as a group have always felt undervalued clashing with successive governments over the terms on which they offered their services to the public Explaining the background to these disputes and the motives of GPs from a sociological perspective this research casts new light on some defining moments in the creation of the modern British state from National Health Insurance to the National Health Service and the history of the British medical profession It examines these events from the point of view of the professionals intimately involved in and affected by them using both established sources like Ministry of Health records an in depth analysis of rarely studied records of professional bodies and previously unresearched archive material The result is a fascinating account of conflict and cooperation and of heroic and less than heroic defiance of political authority involving interactions between complex personalities and competing ideologies Scholarly yet readable this book will be of interest to the general reader as much as to medical practitioners and historians The Persistence of Victorian Liberalism Robert F. Haggard, 2000-12-30 The Persistence of Victorian Liberalism examines the question of where to locate the ideological break between classical liberalism and the underlying principles of the modern Welfare State While most historians of 19th century Britain argue that such a shift occurred prior to 1900 Haggard challenges the contention that classical liberalism had been so undermined by this point that the modern Welfare State was largely inevitable He considers the public discussion of progress poverty charity socialism and social reform and he concludes that the vast majority of the Victorian middle and upper classes remained wedded to the tenets of classical liberalism up to the close of the century In contrast to traditional characterizations Haggard argues that progress individualism and character continued to resonate within Victorian society throughout the late Victorian period Private philanthropy grew increasingly active as a remedy to urban poverty The London Socialist movement the New Unionism the Independent Labour Party and the New Liberalism each proponents of socialistic reforms found themselves marginalized politically The key to the social debates of the day was

the concept of the deserving versus the undeserving poor Although the deserving might expect some private or public aid the undeserving were to be punished for their lack of character Until this notion was overturned the Welfare State would remain outside the realm of practical politics The Annual Register, Or a View of the History, Politicks and Literature of Progressives, Pluralists, and the Problems of the State Marc Stears, 2002-06-13 In the first three decades of the twentieth century two groups of radical political theorists one American and one British were bound together in a unique ideological relationship Pluralists Progressives and the Problems of the State provides the first comprehensive examination of the intellectual dialogue that constituted that bond Drawing on extensive original archival research and employing conceptual institutional and historical analysis the book examines the efforts of these two initially distinctive political movements to forge a single ideology capable of motivating far reaching reform in both of their countries In so doing it challenges traditional narratives emphasizing the exceptional development of American progressivism and British socialism arguing instead that the intellectual aspirations and political programmes of both were constantly shaped and reshaped by international ideological exchange Such an analysis transforms our understanding of the complex political demands of these movements and enables the works of their leading protagonists including G D H Cole Herbert Croly Harold Laski and Walter Lippmann to emerge as rich and sophisticated contributions to modern political thought Living Liberalism Elaine Hadley, 2024-05-31 In the mid Victorian era liberalism was a practical politics it had a party it informed legislation and it had adherents who identified with and expressed it as opinion It was also the first British political movement to depend more on people than property and on opinion rather than interest But how would these subjects of liberal politics actually live liberalism To answer this question Elaine Hadley focuses on the key concept of individuation how it is embodied in politics and daily life and how it is expressed through opinion discussion and sincerity These are concerns that have been absent from commentary on the liberal subject Living Liberalism argues that the properties of liberalism citizenship the vote the candidate and reform among others were developed in response to a chaotic and antagonistic world In exploring how political liberalism imagined its impact on Victorian society Hadley reveals an entirely new and unexpected prehistory of our modern liberal politics A major revisionist account that alters our sense of the trajectory of liberalism Living Liberalism revises our understanding of the presumption of the liberal subject The History of European Liberalism Guido De Ruggiero, 1927 The Intellectual Origins of the Belgian Revolution Stefaan Marteel, 2018-09-05 This book explores the political ideas of the Belgian Revolution of 1830 which led to the break up of the Restoration state of the united Kingdom of the Netherlands It uncovers the origins of liberalism and political Catholicism in the Southern Netherlands in the wake of the French Revolution and traces the development of political language in the context of the tensions between the Northern and Southern part of the united Netherlands It shows how differences in Dutch and Belgian political and intellectual history resulted in different understandings of essential political concepts such as sovereignty and balance of powers as well as of

the nature of the constitutional order of 1815 Finally it traces the emergence of Belgian nationalism within the discourse of opposition against the government Stefaan Marteel therefore provides a fresh perspective on the intellectual background of the rise of the nation state in the nineteenth century History of Banking in Scotland Andrew William Kerr, 1902 History of the Women's Suffrage: The Origin of the Movement (Illustrated Edition) Harriot Stanton Blatch, Elizabeth Cady Stanton, Susan B. Anthony, Matilda Gage, 2023-12-22 The Illustrated Edition of The History of the Women's Suffrage The Origin of the Movement offers an illuminating exploration into the roots of the suffrage movement meticulously archiving its diverse narratives and strategies that have collectively shaped women's rights This anthology elegantly fuses historical documentation with literary artistry capturing the urgency and fervor of change through varied peices each contributing to an overarching narrative of struggle resistance and triumph Readers will find an unparalleled collection of firsthand accounts thought provoking analyses and impassioned appeals harmoniously woven together to underscore the enduring legacy of this pivotal moment in history Central figures including Harriot Stanton Blatch Elizabeth Cady Stanton Susan B Anthony and Matilda Gage bring unparalleled insight into the suffrage movement's various phases and ideologies With backgrounds deeply embedded in advocacy and reform these contributors illuminate the intersections of gender politics and societal transformation enriching the thematic core of the anthology Their collected work reflects the zeitgeist of a historical epoch while aligning with broader cultural and literary movements that sought justice and equality providing a deeper understanding of the power dynamics at play during this transformative era For readers seeking an in depth analysis of the women's suffrage journey this volume serves as an essential guide Offering a wealth of perspectives it is an invaluable resource for both educational purposes and personal enrichment The anthology facilitates dialogue between the narratives fostering a comprehensive appreciation of the period's complexities Engage with this collection to uncover the multifaceted narratives of courage and resilience that propelled the fight for women s rights forward revealing its timeless significance

Quarterly Bulletin of the Providence Public Library Providence Public Library (R.I.),1920 <u>Liberal Intellectuals</u> and Public Culture in Modern Britain, 1815-1914 William C. Lubenow,2010 Liberal Intellectual and Public Culture in Modern Britain shows how liberal values reconstructed public space in Britain after the repeal of the Test and Corporation Acts 1828 and the passage of Catholic emancipation 1829 It traces the century long process against subscription to the Thirty Nine Articles It examines the emergence of the intellectual authority of the universities and the social authority of the professions This cultural capital antique and modern letters mathematics filled the public sphere and provided the materials for intellectual change Roman Catholicism and nationalism revealed the fragilities of this public culture Back cover *History of Neosho and Wilson Counties, Kansas* Lew Wallace Duncan, T. F. Rager, 1902 *A History of Dummer Academy* Nehemiah Cleaveland, 1914 **The Index**, 1876 *Religion and the American Mind* Alan Heimert, 2006-10-01 Exploring the richness of American thought and experience in the mid eighteenth century Alan Heimert develops the intellectual and cultural

significance of the religious divisions and debates engendered by one of the most critical episodes in American intellectual history the Great Awakening of the 1740 s The author s concern throughout is to discover what were the essential issues in a dispute that was not so much a controversy between theologians as a vital competition for the ideological allegiance of the American people This is not a standard history of any one area of ideas Mr Heimert s sources include nearly everything published in America from 1735 His study in its range and conception is an original contribution to an understanding of the relationship between colonial religious thought and the evolution of American history
