Undoing Ethics Natasha Whiteman,2012-01-07 Over the past decade researchers from different academic disciplines have paid increasing attention to the productivity of online environments The ethical underpinnings of research in such settings however remain contested and often controversial As traditional debates have been reignited by the need to respond to the particular characteristics of technologically mediated environments researchers have entered anew key debates regarding the moral legal and regulative aspects of research ethics A growing trend in this work has been towards the promotion of localized and contextualized research ethics the suggestion that the decisions we make should be informed by the nature of the environments we study and the habits expectations of participants within them Despite such moves the relationship between the empirical theoretical and methodological aspects of Internet research ethics remains underexplored Drawing from ongoing sociological research into the practices of media cultures online this book provides a

timely and distinctive response to this need This book explores the relationship between the production of ethical stances in two different contexts the ethical manoeuvring of participants within online media fan communities and the ethical decision making of the author as Internet researcher manoeuvring as it were in the academic community In doing so the book outlines a reflexive framework for exploring research ethics at different levels of analysis the empirical settings of research the theoretical perspectives which inform the researcher's objectification of the research settings and the methodological issues and practical decisions that constitute the activity as research The analysis of these different levels develops a way of thinking about ethical practice in terms of stabilizing and destabilizing moves within and between research and researched communities The analysis emphasizes the continuities and discontinuities between both research practice and online media fan activity and social activity in on and offline environments

### **The Public in Law**

Gregor Clunie, Haris Psarras, 2016-02-24 Bringing together established academics and new researchers the chapters

in this collection interrogate the operation of the public in a range of different legal illegal and alegal spaces The key question which frames the contributions is whether and in what manner the public operates as an interface between law and society allowing the interests and opinions of the population at large to be represented and reflected in legal discourse such that collectively generated imperatives may be imposed upon political and economic actors Multi disciplinary in its approach the volume reflects an understanding that there is more to the role of the public in relation to law than the conventional demarcation of the field of public law and that this relationship is open to comment from a wide range of actors The Politics of Secularism in International Relations Elizabeth Shakman Hurd,2009-01-10 Conflicts involving religion have returned to the forefront of international relations And yet political scientists and policymakers have continued to assume that religion has long been privatized in the West This secularist assumption ignores the contestation surrounding the category of the secular in international politics The Politics of Secularism in International Relations shows why this thinking is flawed and provides a powerful alternative Elizabeth Shakman Hurd argues that secularist divisions between religion and politics are not fixed as commonly assumed but socially and historically constructed Examining the philosophical and historical legacy of the secularist traditions that shape European and American approaches to global politics she shows why this matters for contemporary international relations and in particular for two critical relationships the United States and Iran and the European Union and Turkey The Politics of Secularism in International Relations develops a new approach to religion and international relations that challenges realist liberal and constructivist assumptions that religion has been excluded from politics in the West The first book to consider secularism as a form of political authority in its own right it describes two forms of secularism and their far reaching global consequences **International Satellite Issues** United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Telecommunications, Consumer Protection, and Finance,1985 **The Routledge Handbook of Law and Society** Mariana Valverde,Kamari M. Clarke,Eve Darian Smith,Prabha Kotiswaran,2021-03-03 This innovative handbook provides a comprehensive and truly global overview of the main approaches and themes within law and society scholarship or social legal studies A one volume introduction to academic resources and ideas that are relevant for today s debates on issues from reproductive justice to climate justice food security water conflicts artificial intelligence and global financial transactions this handbook is divided into two sections The first Perspectives and Approaches accessibly explains a variety of frameworks through which the relationship between law and society is addressed and understood with emphasis on contemporary perspectives that are relatively new to many socio legal scholars Following the book s overall interest in social justice the entries in this section of the book show how conceptual tools originate in and help to illuminate real world issues The second and largest section of the book 42 short well written pieces presents reflections on topics or areas concerning law justice and society that are inherently interdisciplinary and that are relevance to current but also classical struggles around justice Informing readers about the lineage of ideas that

are used or could be used today for research and activism the book attends to the full range of local national and transnational issues in law and society The authors were carefully chosen to achieve a diverse and non Eurocentric view of socio legal studies This volume will be invaluable for law students those in inter disciplinary programs such as law and society justice studies and legal studies and those with interests in law but based in other social sciences It will also appeal to general readers interested in questions of justice and rights including activists and advocates around the world

**Bodyspace** Nancy Duncan,1996 A collection of some of the best known geographers currently writing on gender and sexuality Issues such as citizenship work domestic and homophobic violence and marginalized sexual identities are examined within a geographical context **Philosophy and Climate Change** Mark Budolfson,Tristram McPherson,David Plunkett,2021 Climate change is poised to threaten disrupt and transform human life and the social economic and political institutions that structure it The sixteen original articles collected in this volume both illustrate the diverse ways that philosophy can contribute to this conversation and ways in which thinking about climate change can help to illuminate a range of topics of independent interest to philosophers Back cover *Trade in Services Negotiations* Sebastian Seitz,2010-06-25 This book aims at contributing to address some of the challenge that developing countries especially the least developing countries face in the design of trade in service policies and to provide governments with tools to better incorporate services in their export strategies including negotiations and cooperation with trading partners and unilateral reforms This book helps to identify key policy challenges faced by developing country trade negotiators regulatory policy officials and or service suppliers Management of both policy reforms and trade agreements requires investments in sounder regulatory regimes and the establishment of enforcement mechanisms to help countries gradually opening and mitigate any potential downside risks A successful strategy requires a proper sequencing that through an orderly and transparent process allows to prepare for greater competition Developing countries face serious resource and administrative constraints to adequately negotiate multiple services agreements that serve their trade interest For many developing countries the administrative burden of handling and negotiating multiple trade agreements has become a serious concern and this can hamper their opportunities to obtain adequate market access for their services exports The book develops in detail the methodological framework for the construction of a database and the core elements that will comprise it to help countries to organize and manage their services commitments Little attention has been devoted to the organization preparation and the development assessment and conclusion of the negotiation process The book presents a simulation exercise designed for policymakers trade negotiators and trade practitioners working in the area of services This exercise will help them to better understand the preparatory and negotiating stages of the process leading to liberalization of trade in services *The Oxford Handbook of Citizenship* Ayelet Shachar,Rainer Bauböck,Irene Bloemraad,Maarten Peter Vink,2017 This Handbook sets a new agenda for theoretical and practical explorations of citizenship analysing the main challenges and prospects informing

today's world of increased migration and globalization It will also explore new forms of membership and democratic participation beyond borders and the rise of European and multilevel citizenship *International Communication and Information Policy* United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on Arms Control, Oceans, International Operations, and Environment, 1983 *Paul and the Politics of Difference* Jae Won Lee, 2015-02-26 Paul lies at the core of the constant debate about the opposition between Christianity and Judaism both in biblical interpretation and public discourse The so called new perspective on Paul has not offered a significant break from the formidable paradigm of Christian universalism versus Jewish particularism in Pauline scholarship This book liberates Paul from the Western logic of identity and its dominant understanding of difference Drawing attention to the currency of discourses on difference in contemporary theories as well as in biblical studies the author critically examines the hermeneutical relevance of a contextual and relational understanding of difference He applies it to interpret the dynamics of Jew Gentile difference reflected particularly in meal practices Gal 2 1 21 and Rom 14 1 15 13 of early Christian communities Paul and the Politics of Difference argues that by deconstructing the hierarchy of social relations underlying the Jew Gentile difference in different community situations Paul promotes a politics of difference This affirms a preferential option for the socially weak solidarity with the weak Paul's politics of difference is invoked as the potential for liberation in a vision of egalitarian justice in the face of contemporary globalism's proliferation of difference **The Joint Study Committee in Collective Negotiations** Michael D. Wiziard, 1978
