Public Sculpture Of Liverpool:

Public Sculpture of Liverpool Terry Cavanagh, 1997 It is the purpose of the present catalogue to document as fully as possible the complete range of the public monuments and sculpture of Liverpool from the earliest surviving item to the most recently erected Just one clearly defined category has been excluded from the survey sculpture in an ecclesiastical context or executed for a sepulchral purpose What remains is a rich and multifarious concentration within the city of not only independent pieces such as grand monuments portrait statues abstract sculptures and commemorative fountains but also sculpture executed to embellish the city's civic and commercial architecture The volume is arranged with works in order by location and details are given of materials dimensions ownership condition and literature with photographic illustration provided for almost all of the works included

Sculpture and the Decorative in Britain and Europe Imogen Hart, Claire Jones, 2020-10-29 By foregrounding the overlaps between sculpture and the decorative this volume of essays offers a model for a more integrated form of art history writing Through distinct case studies from a seventeenth century Danish altarpiece to contemporary British ceramics it brings to centre stage makers objects concepts and spaces that have been marginalized by the enforcement of boundaries within art and design discourse These essays challenge the classed raced and gendered categories that have structured the histories and languages of art and its making *Sculpture and the Decorative in Britain and Europe* is essential reading for anyone interested in the history and practice of sculpture and the decorative arts and the methodologies of art history

Sculpture and the Garden Patrick Eyres, 2017-07-05 Although the integration of sculpture in gardens is part of a long tradition dating back at least to antiquity the sculptures themselves are often overlooked both in the history of art and in the history of the garden This collection of essays considers the changing relationship between sculpture and gardens over the last three centuries focusing on four British archetypes the Georgian landscape garden the Victorian urban park the outdoor spaces of twentieth century modernism and the late twentieth century sculpture park Through a series of case studies exploring the contemporaneous audiences of gardens the book uncovers the social political and gendered messages revealed by sculpture's placement and suggests that the garden can itself be read as a sculptural landscape

"Art in the North of England, 1979-2008" Gabriel N. Gee, 2017-07-05 Based on rare archival material and numerous interviews with practitioners *Art in the North of England 1979-2008* analyses the relation between political and economic changes stemming from the 1980s and artistic developments in the principal cities of the North of England in the late 20th century Looking in particular at the art scenes of Liverpool Manchester Leeds Sheffield and Newcastle Gabriel Gee unveils a set of powerful aesthetic reactions to industrial change and urban reconstruction during this period on the part of

artists including John Davies Pete Clarke the Amber collective Richard Wilson Karen Watson Nick Crowe Ian Rawlinson John Kippin and the contribution of organisations such as Projects UK Locus East Street Arts the Henry Moore Sculpture Trust and the Bluecoat Gallery in Liverpool While the geographical focus of this study is highly specific a key concern throughout is the relationship between regional national and international artistic practices and identities Of interest to all scholars and students concerned with the developments of British art in the second half of the 20th century the study is also of direct pertinence to observers of global narratives which are here described and analysed through the concept of trans industriality

"William Reid Dick, Sculptor " Dennis Wardleworth,2017-07-05 William Reid Dick 1878 1961 was one of a generation of British sculptors air brushed out of art history by the Modernist critics of the late twentieth century This long overdue monograph adds to the recent revival of interest in this group of forgotten sculptors by describing the life and work of arguably the leading figure of the group in unprecedented depth The facts of Reid Dick s life and his most important works are presented against a backdrop of the historical social and aesthetic changes taking place during his lifetime Dennis Wardleworth elucidates why Reid Dick s reputation plummeted so quickly and why his position in the history of British art deserves to be restored This study draws upon a wealth of previously unpublished material including over 2000 letters and press cuttings and photographs in the Tate Archive as well as letters and photographs held by Reid Dick s family It traces the sculptor s story from his birth in the Gorbals in Glasgow to his election to the Royal Academy and knighting by George V to the decline of his career and his late life connection with American millionaire and art collector Huntington Hartford The first monograph on Reid Dick since 1945 the book also includes images of over 40 of his works and a listing of over 200 works identified by the author Art, Space and the City Malcolm Miles,1997 This book sees public art outside the normal confines of art criticism and place it within broader contexts of public space and gender Using different perspectives it explores both the aesthetic and political aspects of the medium **Reading the Royal Monument in Eighteenth-Century**

Europe Charlotte Chastel-Rousseau,2017-07-05 Reading the Royal Monument in Eighteenth Century Europe is the first in depth study of the major role played by royal monuments in the public space of expanding cities across eighteenth century Europe Using the royal public statues as the basis for its examination of modern European cities the book considers the development of urban landscapes from the creation of capital cities to the last embers of the Ancien R me and at how the royal politics of the arts affected the cityscapes of the time The focus of the book thereby intersects across a spectrum of disciplines including the social and architectural history of cities the politics of urban planning the history of monumental sculpture and the material culture of the eighteenth century **Adventurous Vents** Lucy Lavers,Judy Ovens,Suzanna

Prizeman,2025-10-02 A beautiful tribute to some of the UK s strangest most charismatic structures and an invitation to see the world around us a little differently I ve been wondering whether this book is for existing lovers of ventilation shafts or is more like proshaft propaganda for the indifferent ignorant But these huge polished steel vents in brooding oranges and blues

would surely appeal to both Seb Emina Fantastic Man Magazine At the heart of the modern world lie ventilation shafts We may not notice them but wherever there are tunnels sewers mines car parks and energy stations under our feet vents will be doing vital work keeping them cool and fume free Vents come in a wonderful and inventive variety of forms This book celebrates them both in their own right as intriguing individual structures and as an innovative way to tell the story of Britain s subterranean industrial development from the eighteenth century to the present day Here are one hundred of the most interesting ventilation shafts dotted around Britain sometimes in the most surprising places You ll find them masquerading as sculptures and small buildings adorned with fine details or displaying their purpose with confidence Whether you re inspired to take off in search of them or just to admire them from your armchair vents are fabulous objects By putting them perhaps for the very first time centre stage Adventurous Vents celebrates a highly unusual but exciting architectural form

London's Statues and Monuments Peter Matthews,2018-02-22 The streets and public spaces of London are rich with statues and monuments commemorating the city s great figures and events from Nelson s Column in Trafalgar Square and Sir Christopher Wren s Great Fire Monument to the charming Peter Pan statue in Kensington Gardens Executed in stone bronze and a range of other materials London s statues and monuments include work by some of the world s greatest sculptors This newly revised book takes account of the many statues erected between 2012 and 2017 including those of Mary Seacole at St Thomas Hospital and Amy Winehouse in Camden London s Statues and Monuments is a fully illustrated guide to these artworks and their stories sometimes surprising and occasionally controversial but always fascinating Public Pantheons in Revolutionary Europe E. Bouwers,2011-11-21 The story of how the concept of a pantheon a building honouring great individuals spread across Revolutionary Europe and interacted with socio political and cultural changes Analysing the canon and iconography of each pantheon Bouwers shows how the commemoration of war and celebration of nationhood gave way to the protection of elite interests

Everyday Heroism: Victorian Constructions of the Heroic Civilian John Price,2014-01-16 Heroism in the 19th and early 20th centuries is synonymous with military endeavours imperial adventures and the great men of history There was however another prominent and influential strand of the idea which has until now been largely overlooked This book seeks to address this oversight and establish new avenues of study by revealing and examining everyday heroism acts of life risking bravery undertaken by otherwise ordinary individuals largely in the course of their daily lives and within quotidian surroundings Adopting an interdisciplinary approach John Price charts and investigates the growth and development of this important discourse presenting in depth case studies of The Albert Medal and the Carnegie Hero Fund alongside a nationwide analysis of heroism monuments and an exploration of radical approaches to the concept Unlike its military and imperial counterparts everyday heroism embraced the heroine and this study reflects that with an examination of female heroism Discovering why certain individuals or acts were accorded the status of being heroic also provides insights into those that recognized them Heroism is a flexible and malleable constellation of ideas shaped or

constructed along different lines by different people so if you want to identify the characteristics of a group or society much can be learnt by studying those it holds up as heroic Consequently Everyday Heroism Victorian Constructions of the Heroic Civilian provides valuable and revealing evidence for a wide range of social and cultural topics including class gender identity memory celebrity and literary and visual culture Liverpool Joseph Sharples,Richard Pollard,2004-01-01
