Sandoval, John C. Knapp, 2017-02-03 *Psychology as the Discipline of Interiority* is the first collection of essays dedicated to the study and application of Psychology as the Discipline of Interiority a new wave within Analytical Psychology which pushes off from the work of C G Jung and James Hillman The book reflects upon the notion of psychology developed by German psychoanalyst Wolfgang Giegerich whose Hegelian turn sheds light on the notion of soul or psyche and its inner logic and thought forming a radical new basis from which to ground a modern psychology with soul The book's theme the psychological difference is applied to topics including analytical theory clinical practice and contemporary issues ranging

from C G Jung's *Mysterium* to case studies to the nuclear bomb and the Shoah Psychology as the Discipline of Interiority expounds upon the complexity, depth and innovativeness of Giegerich's thought reflecting the various ways in which international scholars have creatively explored a speculative psychology founded upon the notion of soul. The contributors here include clinical psychologists, Jungian analysts and international scholars. With a new chapter by Wolfgang Giegerich and a foreword by David Miller, *Psychology as the Discipline of Interiority* will be essential reading for depth and clinical psychologists, Jungian psychoanalysts in practice and in training, and academics and students of post-Jungian studies. It is also relevant reading for all those interested in the history of philosophical thought and what it means to think in the highly sophisticated and technological world of the twenty-first century. **The Wisdom of Imperfection** Rob Preece, 2010-09-16

If you have been practicing Buddhism for a while, why do you still have so many problems? And how do you balance the sometimes different needs of spiritual and psychological perspectives? Rob Preece draws on his personal experience over two decades as a psychotherapist and many years as a meditation teacher to explore and map the psychological influences on our struggle to awaken. For psychological and spiritual health, acceptance of imperfection is key. Wisdom does not always come as a flash of inspiration but from the slow, often painful workings of experience. As we detach from our ideals of perfection and develop our acceptance of imperfection, our love and compassion can grow in ways that are both psychologically and spiritually healthy. *The Wisdom of Imperfection* delves into this journey of individuation in Buddhist life, articulating the psychological processes beneath the traditional path of the Bodhisattva. Perpetual Adolescence Sally Porterfield, Keith Polette, Tita French Baumlín, 2015-05-11. Arguing that American culture appeals to and is populated by children and adolescents who merely appear to be adult men and women, the essays in *Perpetual Adolescence* examine the Jungian archetype of the eternal youth, the puer aeternus, as it is manifested in the arrested development of American culture. From the infantilization of the American psyche and the lionization of teenaged celebrities and bodies to fanatical conformity and puerile entertainment, the contributors probe the various ways that American television, music, film, print, Internet, education and social movements work to nourish and sustain this child archetype. Offering analytic psychology as an instrument of social analysis and critique, they point to the need for dialogue over the causes and effects of our puer fixations, which have become in large part both a creation and a creator of the American zeitgeist. Jungian Literary Criticism Richard P.

Sugg, 1992. *The Intersection of Poetry and Jungian Analysis Through Metaphor* Regina Colonia-Willner, 2024-08-06. *The Intersection of Poetry and Jungian Analysis Through Metaphor: In Creation You Are Created* explores the relationship between Jungian psychoanalytical intervention and poetry, focusing on the emergence of metaphor, which occurs in both processes as it happens in neuroscience and fairy tales. Metaphor is a mode of communication that forms a bridge between different experience domains through associative linkages; it refers to a subject by mentioning another for rhetorical effect. Indeed, the prominence of metaphor in Jungian therapy is a characteristic that differentiates it from other forms of treatment.

That's because metaphor as we will see in this book is deeply rooted in the body in two ways. It is used to organize bodily sensations cognitively and is located on the border between mind and brain. C. G. Jung uses a metaphor when he observes in *Memories, Dreams, Reflections*. As far as we can discern, the sole purpose of existence is to kindle a light in the darkness of mere being. *Healing Fictions* Alison Armstrong, 2019-01-24. The virtual realities that works of literary and visual art provide us are loosely the concern of these essays. Working methods are touched upon in some as in my interviews with William Anastasi and Robert Kipniss. The intentionality of the artist however is never my concern nor should it be of interest to the reader; the intentions cannot necessarily be derived from the work as the New Critics reminded us long ago. Rather to see and feel how the text or work of visual functions is our pleasant task. So we do not ask why a dead end question. How is the question that can lead to infinitely more rewarding discoveries. *Voicing Trauma and Truth: Narratives of Disruption and Transformation* Oliver Bray, Peter Bray, 2020-10-12.

Blake's Job Jason Wright, 2023-07-03. In this unique book Jason Wright analyses William Blake's Illustrations of the Book of Job and shows their relevance in clinical psychoanalysis and psychotherapy with groups and individuals especially while working with patients who have experienced trauma and addiction. Drawing on decades of work in the field, this book sees Wright offer sensitive guidance to practitioners dealing with client experiences of change through the lens of addiction and offers useful insight to the lay reader. Throughout the chapters Wright studies each illustration in depth and shows how they chart the breakdown of Job's life into a state of despair. Twinning a clinical vignette with each plate Wright shows how these depictions can be directly applied to issues faced in contemporary analysis, therapy and addiction recovery. From Job's dissolution to his eventual salvation, Wright insightfully maps the process of change from a place of destitution to one of redemption and hope set in the context of the group. He expertly brings Blakean theory into the 21st century by looking at contemporary experience such as the impact of the 2005 London bombings as well as looking at the importance of community, collective experience and self identity when seeking recovery. Throughout Wright draws inspiration from eminent analysts such as Bion, Winnicott and Hillman while also looking to Jung, Bohm and Whitehead to support his theories on the new way of being; he proposes a collective dynamic shift from a consciousness of exploitation to a consciousness of resonance. This book will be of great interest to psychoanalysts, psychotherapists and mental health professionals working in addiction recovery as well as those interested in the work of Blake and its continued importance in the present day.

Jung, Jungians and Homosexuality Robert H. Hopcke, 2002-01-09. In an effort to provide the first coherent theory of sexual orientation in the tradition of analytical psychology, Robert Hopcke examines the way in which Jung and Jungians have regarded homosexuality both clinically and theoretically, demonstrating that within a great diversity of opinion there exist many ways to deepen an understanding of the lives and loves of gay men and lesbians. Hopcke proposes a view of homosexuality that is archetypally based, empirically supportable, psychologically profound and spiritually evocative.

The Cycle of Life Erel Shalit, 2011-09-25 The art of life is the most distinguished and rarest of all the arts C G Jung CW 8 par 789 *The Cycle of Life* explores the patterns that unfold over the course of our lives as we set out to find our place in the world in our efforts to live authentically and in our search for home that place within ourselves that can so easily be neglected or disregarded in this fast paced modern world In the first half of life the task of the young traveler is to depart

from home to adventure out into the world to find his or her own individual path However in the second half we find ourselves on what often amounts to a very long journey in search of home In many a tale the hero for instance Gilgamesh sets off on his road to find life's elixir while other stories such as the Odyssey revolve around the hero's long and arduous journey home Many are also familiar with the journey of Dante who at the very beginning of his Divine Comedy finds himself Midway along the journey of our life The archetypal journey of life is constantly reenacted in the never ending process of individuation We find ourselves returning to this venture repeatedly every night as we set out on our voyage into the landscape of our unconscious Many dreams begin by being on the way for instance I am on my way to I am driving on a road that leads into the desert I am walking through one room after the other in a long corridor like building I am walking towards my office but it looks different than in reality I walk on the pavement and on the opposite side of the street someone seems to be following me I go down into an underground parking I am in my car but someone I don't know is driving I have to go to the place from where I came

The Wounded Body Dennis Patrick Slattery, 2000-01-01 Explores the wounded body in literature from Homer to Toni Morrison examining how it functions archetypally as both a cultural metaphor and a poetic image

Meeting the Shadow of Spirituality Connie Zweig Ph.D., 2017-01-18 I do not seek to follow in the footsteps of the men of old I seek the things they sought Basho In every tradition saints and poets speak of the soul's search for the beloved the seeker's yearning

for the divine This holy longing is a secret feeling with many disguises leading us to pursue a higher union in spiritual practice religious discipleship even romantic embrace It guides us to timeless wisdom and transcendent experiences But it also can go awry when we misplace it onto food alcohol drugs or sex Or when we project it onto an authoritarian teacher priest guru or roshi who abuses power Whether the abuse is sexual financial or emotional coercion we feel the shock of betrayal our innocence lost our faith shaken This book tells the stories of renowned teachers Sufi poet Rumi Hindu master Ramakrishna Christian saint Catherine of Siena whose lives unfolded as they followed their longing And it tells the tales of contemporary teachers of Buddhism Hinduism and Catholicism who acted out their shadows in destructive ways leaving their followers traumatized and lost Both faithful seekers who feel hopeful and inspired and disillusioned seekers who feel hopeless and disoriented will find wise counsel here and will retrace the narrow path through the darkness toward the light
