Canadiana ,1984 *Slow Travel: North Devon & Exmoor* Hilary Bradt, 2019 This new thoroughly updated edition of Bradt's award winning *North Devon Exmoor* remains the only dedicated general guide to this compelling area North Devon's relative inaccessibility has been a deterrent to ugly development and Exmoor National Park is one of the smallest least well known and utterly delightful of all national parks The rugged western cliffs around Hartland Point are the most dramatic in Devon and the cliff top walking some of the best New to this edition are several nature reserves which didn't make it into the first edition and more in depth descriptions of the far western part of Devon abutting the Cornish border Also included are the Gnome Reserve and the Bakelite Museum just two of several quirky places in the region and expanded information on the island of Lundy in the Bristol Channel as well as unique coverage of the whole of Exmoor National Park straddling Devon and Somerset Particularly intriguing are the many descriptions of country churches the storerooms of history The North Devon and Exmoor region is arguably the most scenic in the southwest No other has this blend of wild rugged coastline deep river valleys heather covered moorland family friendly sandy beaches great surfing and enchanting villages Some of the prettiest

villages in the southwest are found here with cream teas aplenty Much information is unique to this guidebook blending descriptions of little known places and country pursuits with portraits of local characters past and present The guide also places special emphasis on car free travel walking local food pubs and unusual or special accommodation Whether you like to spend time exploring National Trust properties discovering gardens wildlife watching Exmoor is home to Britain s largest mammal the red deer or indulging in more active pursuits such as coasteering kayaking or just a gentle pony trek Bradt s North Devon Exmoor is the ideal companion for a successful visit **The Great Siberian Sushi Run** Ken

Ireland s First Settlers tells the story of the archaeology and history of the first continuous phase of Ireland s human settlement It combines centuries of search and speculation about human antiquity in Ireland with a review of what is known today about the Irish Mesolithic This is in part provided in the context of the author s 50 years of personal experience searching to make sense of what initially appeared to be little more than a collection of beach rolled and battered flint tools The story is embedded in how the island of Ireland its position distinct landscape and ecology impacted on when and how Ireland was colonized It also explores how these first settlers evolved their technologies and lifeways to suit the narrow range of abundant resources that were available The volume concludes with discussions on how the landscape should be searched for the often ephemeral traces of these early settlers and how sites should be excavated It asks what we really know about the thoughts and life of the people themselves and what happened to them as farming began to be introduced
