Pullman Porters and the Rise of Protest Politics in Black America, 1925-1945 Beth Tompkins Bates, 2003-01-14 Between World War I and World War II African Americans quest for civil rights took on a more aggressive character as a new group of black activists challenged the politics of civility traditionally embraced by old guard leaders in favor of a more forceful protest strategy Beth Tompkins Bates traces the rise of this new protest politics which was grounded in making demands and backing them up with collective action by focusing on the struggle of the Brotherhood of Sleeping Car Porters BSCP to form a union in Chicago headquarters of the Pullman Company Bates shows how the BSCP overcame initial opposition from most of Chicago's black leaders by linking its union message with the broader social movement for racial equality As members of BSCP protest networks mobilized the black community around the quest for manhood rights and economic freedom they broke down resistance to organized labor even as they expanded the boundaries of citizenship to include equal economic opportunity By the mid 1930s BSCP protest networks gained platforms at the national level fusing Brotherhood activities first with those of the National Negro Congress and later with the March on Washington Movement Lessons learned during this era guided the next generation of activists who carried the black freedom struggle forward after World War II

The Economic Civil Rights Movement Michael Ezra, 2013-04-17 Economic inequalities have been perhaps the most enduring problem facing African Americans since the civil rights movement despite the attention they have received from activists Although the civil rights movement dealt successfully with injustices like disenfranchisement and segregated public accommodations economic disparities between blacks and whites remain sharp and the wealth gap between the two groups has widened in the twenty first century The Economic Civil Rights Movement is a collection of thirteen original essays that analyze the significance of economic power to the black freedom struggle by exploring how African Americans fought for increased economic autonomy in an attempt to improve the quality of their lives It covers a wide range of campaigns ranging from the World War II era through the civil rights and black power movements and beyond The unfinished business of the civil rights movement primarily is economic This book turns backward toward history to examine the ways African Americans have engaged this continuing challenge

Radicals on the Road Judy Tzu-Chun Wu, 2013-05-15 Traveling to Hanoi during the U S war in Vietnam was a long and dangerous undertaking Even though a neutral commission operated the flights the

possibility of being shot down by bombers in the air and antiaircraft guns on the ground was very real American travelers recalled landing in blackout conditions without lights even for the runway and upon their arrival seeking refuge immediately in bomb shelters Despite these dangers they felt compelled to journey to a land at war with their own country believing that these efforts could change the political imaginaries of other members of the American citizenry and even alter U S policies in Southeast Asia In *Radicals on the Road* Judy Tzu Chun Wu tells the story of international journeys made by significant yet underrecognized historical figures such as African American leaders Robert Browne Eldridge Cleaver and Elaine Brown Asian American radicals Alex Hing and Pat Sumi Chicana activist Betita Martinez as well as women s peace and liberation advocates Cora Weiss and Charlotte Bunch These men and women of varying ages races sexual identities class backgrounds and religious faiths held diverse political views Nevertheless they all believed that the U S war in Vietnam was immoral and unjustified In times of military conflict heightened nationalism is the norm Powerful institutions like the government and the media work together to promote a culture of hyperpatriotism Some Americans though questioned their expected obligations and instead imagined themselves as internationalists as members of communities that transcended national boundaries Their Asian political collaborators who included Buddhist monk Thich Nhat Hanh Foreign Minister of the Provisional Revolutionary Government Nguyen Thi Binh and the Vietnam Women s Union cultivated relationships with U S travelers These partners from the East and the West worked together to foster what Wu describes as a politically radical orientalist sensibility By focusing on the travels of individuals who saw themselves as part of an international community of antiwar activists Wu analyzes how actual interactions among people from several nations inspired transnational identities and multiracial coalitions and challenged the political commitments and personal relationships of individual activists

Paul Robeson Jordan Goodman, 2013-10-08 Paul Robeson was one of the most famous people in the world to his enemies he was also one of the most dangerous From the 1930s to the 1960s the African American singer was the voice of the people

both on stage and as a political activist who refused to be silenced as he fought for the rights of the oppressed His message of peace equality and justice was understood as much on the streets of Manchester Moscow Johannesburg and Bombay as it was in Harlem and Washington DC Jordan Goodman tells the story of Robeson during the tumultuous Cold War when the United States government became so worried by his impact abroad that it tried to silence him Drawing on extensive new archival material from Robeson s FBI State Department MI6 and KGB files he shows the major international scope of this effort

Race War! Gerald Horne,2005-11-01 Japan s lightning march across Asia during World War II was swift and brutal Nation after nation fell to Japanese soldiers How were the Japanese able to justify their occupation of so many Asian nations And how did they find supporters in countries they subdued and exploited *Race War* delves into submerged and forgotten history to reveal how European racism and colonialism were deftly exploited by the Japanese to create allies among formerly colonized people of color Through interviews and original archival research on five continents Gerald Horne shows how race played a key and hitherto ignored role in each phase of the war During the conflict the Japanese turned white racism on its head portraying the war as a defense against white domination in the Pacific We learn about the reverse racial hierarchy practiced by the Japanese internment camps in which whites were placed at the bottom of the totem pole under the supervision of Chinese Korean and Indian guards an embarrassing example of racial payback that was downplayed by the defeated Japanese and the humiliated Europeans and Euro Americans Focusing on the microcosmic example of Hong Kong but ranging from colonial India to New Zealand and the shores of the U S Gerald Horne radically retells the story of the war From racist U S propaganda to Black Nationalist open support of Imperial Japan information about the effect of race on U S and British policy is revealed for the first time This revisionist account of the war draws connections between General Tojo Malaysian freedom fighters and Elijah Muhammed of the Nation of Islam and shows how white racism encouraged and enabled Japanese imperialism In sum Horne demonstrates that the retreat of white supremacy was not only driven by the impact of the Cold War and the energized militancy of Africans and African Americans but by the impact of the Pacific War as well as a chastened U S and U K moved vigorously after this conflict to remove the conditions that made Japan s success possible

Civil Rights Unionism Robert R. Korstad, 2003-11-20 Drawing on scores of interviews with black and white tobacco workers in Winston Salem North Carolina Robert Korstad brings to life the forgotten heroes of Local 22 of the Food Tobacco Agricultural and Allied Workers of America CIO These workers confronted a system of racial capitalism that consigned African Americans to the basest jobs in the industry perpetuated low wages for all southerners and shored up white supremacy Galvanized by the emergence of the CIO African Americans took the lead in a campaign that saw a strong labor movement and the reenfranchisement of the southern poor as keys to reforming the South and a reformed South as central to the survival and expansion of the New Deal In the window of opportunity opened by World War II they blurred the boundaries between home and work as they linked civil rights and labor rights in a bid for justice at work and in the public sphere But civil rights unionism foundered in the maelstrom of the Cold War Its defeat undermined later efforts by civil rights activists to raise issues of economic equality to the moral high ground occupied by the fight against legalized segregation and Korstad contends constrains the prospects for justice and democracy today
