**Pulp Fictions of Medieval England** Nicola McDonald, 2004-10 Pulp fictions of medieval England comprises ten essays on individual popular romances with a focus on romances that while enormously popular in the Middle Ages have been neglected by modern scholarship Each essay provides valuable introductory material and there is a sustained argument across the contributions that the romances invite innovative exacting and theoretically charged analysis However the essays do not support a single homogenous reading of popular romance the authors work with assumptions and come to conclusions about issues as fundamental as the genre's aesthetic codes its political and cultural ideologies and its historical consciousness that are different and sometimes opposed Nicola McDonald's collection and the romances it investigates are crucial to our understanding of the aesthetics of medieval narrative and to the ideologies of gender and sexuality race religion political formations social class ethics morality and national identity with which those narratives engage **The**

**Dismemberment in the Medieval and Early Modern English Imaginary** Frederika Elizabeth Bain, 2020-11-23 The medieval and early modern English imaginary encompasses a broad range of negative and positive dismemberments from the castration anxieties of Turk plays to the elite practices of distributive burial This study argues that representations and instances of bodily fragmentation illustrated and performed acts of exclusion and inclusion detaching not only limbs from bodies but individuals from identity groups Within this context it examines questions of legitimate and illegitimate violence showing that such distinctions largely rested upon particular acts assumed symbolic meanings Specific chapters address ways dismemberments manifested gender human versus animal nature religious and ethnic identity and social rank The book concludes by examining the afterlives of body parts including relics and specimens exhibited for entertainment and education contextualized by discussion of the resurrection body and its promise of bodily reintegration Grounded in dramatic works the study also incorporates a variety of genres from midwifery manuals to broadside ballads **The Language of Heresy in Late Medieval English Literature** Erin K. Wagner, 2024-04-22 Vernacular writers of late medieval England were engaged in global conversations about orthodoxy and heresy Entering these conversations with a developing vernacular required lexical innovation The Language of Heresy in Late Medieval English Literature examines the way in which these writers complemented seemingly straightforward terms like heretic with a range of synonyms that complicated the definitions of both those words and orthodoxy itself This text proposes four specific terms that become collated with heretic in the parlance of medieval English writers of the 14th and 15th centuries jangler Jew Saracen and witch These four labels are especially

important insofar as they represent the way in which medieval Christianity appropriated and subverted marginalized or vulnerable identities to promote a false image of unassailable authority

*The Staying Power of Thetis* Maciej Paprocki, Gary Patrick Vos, David John Wright, 2023-04-27 In 1991 Laura Slatkin published *The Power of Thetis* Allusion and Interpretation in the Iliad in which she argued that Homer knowingly situated the storyworld of the Iliad against the backdrop of an older world of mythos by which the events in the Iliad are explained and given traction Slatkin's focus was on Achilles mother Thetis an ostensibly marginal and powerless goddess Thetis nevertheless drives the plot of the Iliad being allusively credited with the power to uphold or challenge the rule of Zeus Now almost thirty years after Slatkin's publication this timely volume re-examines depictions and receptions of this ambiguous goddess in works ranging from archaic Greek poetry to twenty first century cinema Twenty authors build upon Slatkin's readings to explore Thetis and multiple roles she played in Western literature art material culture religion and myth Ever the shapeshifter Thetis has been and continues to be reconceptualised supporter or opponent of Zeus regime model bride or unwilling victim of Peleus rape good mother or child murderess figure of comedy or monstrous witch Hers is an enduring power of transformation resonating within art and literature

*A Companion to Medieval Popular Romance* Raluca L. Radulescu, Cory James Rushton, 2009 Popular romance was one of the most wide spread forms of literature in the Middle Ages yet despite its cultural centrality and its fundamental importance for later literary developments the genre has defied precise definition its subject matter ranging from tales of chivalric adventure to saintly women and monsters that become human The essays in this collection provide contexts definitions and explanations for the genre particularly in an English context Topics covered include genre and literary classification race and ethnicity gender orality and performance the romance and young readers metre and form printing culture and reception

Popular reading in English c. 1400-1600 Elisabeth Salter, 2017-10-03 This book is about reading practice and experience in late medieval and early modern England It focuses on the kinds of literatures that were more readily available to the widest spectrum of the population Four case studies from many possibilities have been selected each examining a particular type of popular literature under the headings religious moral practical and fictional A key concern of the book is how we might use particular types of evidence in order to understand more about reading practice and experience so issues of method and approach are discussed fully in the opening chapter One distinctive element of this book is that it attempts to uncover evidence for the reading practices and experiences of real rather than ideal readers using evidence that is found within the material of a book or manuscript itself or within the structure of a specific genre of literature Salter attempts to negotiate a path through a set of methodological and interpretive issues in order to arrive at a

better understanding of how people may have read and what they may have read This in turn leads on to how we may interpret the evidence that manuscripts and early printed books provide for the ways that medieval and early modern people engaged with reading This book will be of interest to academics and research students who study the history of reading popular culture literacy manuscript and print culture as well as to those interested more generally in medieval and early modern society and culture

**White before whiteness in the late Middle Ages** Wan-Chuan Kao,2024-01-09 This groundbreaking book analyses premodern whiteness as operations of fragility precarity and racialicity across bodily and nonsomatic figurations It argues that while whiteness participates in the history of racialisation in the late medieval West it does not denote skin tone alone The before of whiteness presupposing essence and teleology is less a retro futuristic temporisation one that simultaneously looks backward and faces forward than a discursive figuration of how white becomes whiteness Fragility delineates the limits of ruling ideologies in performances of mourning as self defence against perceived threats to subjectivity and desire precarity registers the ruptures within normative values by foregrounding the unmarked vulnerability of the body politic and the violence of cultural aestheticisation and racialicity attends to the politics of recognition and the technologies of enfleshment at the systemic edge of life and nonlife

**Saracens and Franks in 12th - 15th Century European and Near Eastern Literature** Aman Y. Nadhiri,2016-06-10 Saracens and Franks in 12th 15th Century European and Near Eastern Literature examines the tension between two competing discourses in the medieval Muslim Mediterranean and medieval Christian Europe one rooted in the desire to understand the world and one s place in it and another promoting an ethnocentric narrative To this end it examines the construction of an image of the Other for Muslims in the Eastern Mediterranean and for Christians in Western Europe in works of literature particularly in the works produced in the centuries preceding the Crusades and it explores the ways in which both Muslim and Christian writers depicted the Enemy in historical accounts of the Crusades The author focuses on medieval works of ethnography and geography travel literature Muslim and Christian accounts of the Crusades and the romances of Western Europe to trace the evolution of the image of the Eastern Mediterranean Muslim in medieval Western Europe and the Western European Christian in the medieval Muslim world first to understand the construct in the respective scholarly communities and then to analyze the ways in which this conception informs subsequent works of non fiction and fiction in the Western European context in which this Muslim or Christian Other plays a prominent role In its analysis of the medieval Mediterranean Muslim and European Christian approaches to difference this book interrogates the premises underlying the concept of the Other challenging formulations of binary opposition such as the West versus Islam Muslims

**Fatherhood and Its Representations in Middle English Texts** Rachel E. Moss,2013 The figure and role of the late medieval father is reappraised through a close reading of a range of documents from the period including both letters and romances Late medieval English society placed great weight on the practices of primogeniture patrilineal descent and patriarchal government and the significance of the

father had cultural resonance beyond the rule of law Yet despite aburgeoning interest in both the family and gender the father has to date received little attention from medievalists This book takes an interdisciplinary approach to the analysis of the fictions of fatherhood the ideological constructs that underpinned late medieval conceptions of fathers and patriarchy Its focus on gentry and mercantile readers and writers also offers new insights into the literary culture of late medieval England by considering how texts were produced and received within gentry and bourgeois communities and demonstrates the ability of texts to not only reflect but also shape hegemonic norms and cultural anxieties Through close examination of late medieval letters and romances it shows how the father was the dominant figure not only of medieval domestic life but also of the medieval imagination Dr RACHEL E MOSS is a Lecturer in History at the University of Northampton

**Shakespeare And Elizabethan Popular Culture** Neil Rhodes, Stuart Gillespie, 2014-05-13 While much has been written on Shakespeare's debt to the classical tradition less has been said about his roots in the popular culture of his own time This is the first book to explore the full range of his debts to Elizabethan popular culture Topics covered include the mystery plays festive custom clowns romance and popular fiction folklore and superstition everyday sayings and popular songs These essays show how Shakespeare throughout his dramatic work used popular culture A final chapter which considers ballads with Shakespearean connections in the seventeenth century shows how popular culture immediately after his time used Shakespeare

*Convention and the Individual in Medieval English Romance* Lucy Brookes, 2025-04 Offers a nuanced reading of character and subjectivity in medieval romance via an exploration of its conventions Medieval romances can be characterised by their formulaic motifs predictable plots and stock figures and character types This book offers a fresh perspective on these conventions arguing that authors used them and the expectations they generate as a form of shorthand to interiority Understanding romance conventions in this way reveals that romance characters complex and often contradictory inner lives are made available precisely through the genre's narrative structures shapes and norms Drawing upon recent work in the History of Emotions and Affect Theory the author explores character and subjectivity in a variety of English romance texts from 1100 to 1500 such as *Amis and Amiloun* *Le Bone Florence of Rome* *The Squire of Low Degree* *Sir Orfeo* *Sir Gawain and the Green Knight* and *Malory's Le Morte Darthur* Through new readings of these texts the book demonstrates the contribution made by romance to the growing significance of the individual in fiction after the twelfth century by paying particular attention to the ways in which convention expectation and genre intersect with character formation and the representation of identity

paying particular attention to the ways in which convention expectation and genre intersect with character formation and the representation of identity      **A Companion to Arthurian Literature** Helen Fulton, 2012-01-30 This Companion offers a chronological sweep of the canon of Arthurian literature from its earliest beginnings to the contemporary manifestations of Arthur found in film and electronic media Part of the popular series Blackwell Companions to Literature and Culture this expansive volume enables a fundamental understanding of Arthurian literature and explores why it is still integral to contemporary culture Offers a comprehensive survey from the earliest to the most recent works Features an impressive range of well known international contributors Examines contemporary additions to the Arthurian canon including film and computer games Underscores an understanding of Arthurian literature as fundamental to western literary tradition

**Lydgate's Fabula duorum mercatorum and Guy of Warwyk** Pamela Farvolden, 2016-09-28 The Fabula Duorum Mercatorum a romance that in its Boethian sensibility and treatment of love and friendship bears comparison to Chaucer's great works Troilus and Criseyde and The Knight's Tale is one of Lydgate's most accomplished works In Guy of Warwick Lydgate breaks with romance tradition presenting the heroic English knight pilgrim and his last great battle against the dread giant Colbrond from an historical point of view      **Performance and the Middle English Romance** Linda Marie Zaerr, 2012 An examination of if and how medieval romance was performed uniquely uniting the perspective of a scholar and practitioner Although English medieval minstrels performed gestes a genre closely related to romance often playing the harp or the fiddle the question of if and how Middle English romance was performed has been hotly debated Here the performance tradition is explored by combining textual historical and musicological scholarship with practical experience from a noted musician Using previously unrecognised evidence the author reconstructs a realistic model of minstrel performance showing how a simple melody can interact with the text and vice versa She argues that elements in Middle English romance which may seem simplistic or repetitive may in fact be incomplete as missing an integral musical dimension metrical irregularities for example may be relics of sophisticated rhythmic variation that make sense only with music Overall the study offers both a more accurate comprehension of minstrel performance and a deeper appreciation of the romances themselves Linda Marie Zaerr is Professor of Medieval Studies at Boise State University      **Romancing Treason** Megan G. Leitch, 2015 Romancing Treason examines English literature written during the Wars of the Roses Focusing on the theme of treason Megan Leitch suggests that the idea of a literature of the Wars of the Roses offers a way of understanding an understudied period      **Christian-Muslim Relations. **Becoming Christian** Dennis Austin Britton, 2014-04-03 *Becoming Christian* argues that romance narratives of Jews and Muslims converting to Christianity register theological formations of race in post Reformation England The medieval motif of infidel conversion came under scrutiny as Protestant theology radically reconfigured how individuals acquire religious identities Whereas Catholicism had asserted that Christian identity begins with baptism numerous theologians in the Church of England denied the necessity of baptism and instead treated Christian identity as a racial characteristic passed from parents to their children The church thereby developed a theology that both transformed a nation into a Christian race and created skepticism about the possibility of conversion Race became a matter of salvation and damnation Britton intervenes in critical debates about the intersections of race and religion as well as in discussions of the social implications of romance Examining English translations of Calvin treatises on the sacraments catechisms and sermons alongside works by Edmund Spenser John Harrington William Shakespeare John Fletcher and Phillip Massinger *Becoming Christian* demonstrates how a theology of race altered a nation's imagination and literary landscape
