Islamic Public Law - Islamic Law in Theory and Practice Ahmed Akgunduz, 2011-11-01

Islamic law contains explications and divisions that imply a classification in terms of public and private law In this book we will explain the outlines of Islamic public law e g First Chapter Islamic constitutional law al siy sah al shar iyyah and administrative law al siy sah al shar iyyah Second Chapter penal law al uq b t Third Chapter financial law zak t ushr ar j and other taxes Fourth Chapter trial law qa and Fifth Chapter international public law al siyar The fields of especially Islamic constitutional law administrative law financial law ta z r penalties and arrangements concerning military law based on the restricted legislative authority vested by Shar ah rules and those jurisprudential decrees based on secondary sources like customs and traditions and the public good maslahah all fell under what was variously called public law al siy sah al shar iyyah Shar ah policy q n n legal code q n nn mah orf uq q etc Since these laws could not go beyond Shar ah principles either at least in theory they should not be regarded as a legal system outside of Islamic law But Islamic penal law financial law trial law and international law depend mostly on rules that are based directly on the Qur an and the Sunnah and codified in books of fiqh Islamic law called Shar ah rules Shar i shar f or Shar ah law Such rules formed 85% of the legal system In this book we will focus on some controversial problems in the Muslim world today such as the form of government in Islamic law and the relation between Islam and democracy Islamic law does not stipulate a certain method of state government nonetheless we may say that the principles it decrees and its concept of sovereignty suggest a religious republic As a matter of fact ulaf al R shid n the Rightly Guided Caliphs were both caliphs and religious republican presidents We could say that this book has three main characteristics i We have tried to base our explanations directly on the primary Islamic law sources For example after reading some articles on the caliphate or t m r system in articles or books by some Western scholars and even by some Muslim scholars one might conclude that there are different views on these subjects among Muslim scholars This is not true Muslims have agreed on the basic rules on legal subjects but there are some conflicts regarding nuances and interpretations If one reads works by Im m Gazzali Ibn Taymiyyah al M wardi and al Farr one will not find any disagreement on the main rules but there are some different interpretations of some concepts We have tried to discover where they agreed and we have sometimes pointed to where they differed ii We have researched practices of Islamic law especially legal documents in the

Ottoman archives For example we explain add i sariqa but also mention some legal articles from the Ottoman legal codes q nunn mes and some Shar ah court decisions like legal decrees i l m t i shar iyyah It is well known that nobody can understand any legal system without implementing and practicing it That also holds for Islamic law because theory alone does not yield a complete understanding of Shar ah rules iii We have worked hard to correct some misconceptions and misunderstandings about Islamic law That is why we appeal to the primary sources For example some scholars claim that the anaf jurist Im m Sara s did not accept the idea of punishment for apostasy We have studied his work al Mabs t and found this claim to be unfounded The comparison between t m r and fief is another example because the t m r system is different from the fief system Some scholars confuse the concept of sovereignty and governance The Islamic state is not a theocratic state in the sense in which Europeans understand the term

Justice Church Frederick Herzog, 2005-09-13 Frederick Herzog s focus on the praxis context of the church is right on target He makes a much needed contribution to the critical development of liberation theologies in the North American situation Letty M Russell Yale University Divinity School I am particularly grateful for the clear articulation in the book of a number of concerns emerging in Third World theology such as the recognition of poverty as a political and not a natural phenomenon the shift from elite universals to peoples universals the emphasis on Christopraxis as the key to orthodoxy the interpretation of theology as praxis seeking understanding and the emphasis on the sacraments of Baptism and the Lord s Supper as affirming that the bifurcation of history into a bodily history and spiritual history has been overcome I hope that the book will be widely read in all continents and stimulate dialogue for promoting praxis rooted theology J Russell Chandran United Theological College Bangalore India Herzog refuses to do an easy or obvious theology but insists on raising difficult questions which require theology to be done with some anguish He has seen more clearly than most that we are in a crisis of categories which must be reshaped in shattering ways not only to do a new theology but to re understand the nature of theology Members of the United Church of Christ his own church body will especially benefit from Herzog s proposals as this militantly liberal church is urged in critical and self critical directions Walter Brueggemann Professor Emeritus Columbia Theological Seminary No one has been more passionately involved than Frederick Herzog in responding to the challenges to mainstream North American Christianity from Latin American and black liberation theologians Addressing liberal Protestant theology and denominational structures in Justice Church Herzog unfolds a new theological method and a new understanding of the church This is an important book for all who believe that Christian faith involves response to injustice Lee Cormie University of St Michael s College University of Toronto Frederick Herzog was Professor at the Duke University Divinity School He served on numerous commissions of the World Council of Churches and the United Church of Christ In the spring of 1970 he wrote the first North American article on liberation theology and in 1972 his Liberation Theology was published a study of the Fourth Gospel described by Robert McAfee Brown as a pioneer

North American work In Justice Church Herzog continues his pioneering work with a North American methodology of liberation theology

Errors of Justice Brian Forst, 2004 In this book Brian Forst takes a fresh new perspective on the assessment of criminal justice policy examining the prospect of assessing policies based on their impact on errors of justice the error of failing to bring offenders to justice on the one hand and the error of imposing costs on innocent people and excessive costs on offenders on the other Noting that we have sophisticated systems for managing errors in statistical inference and quality control processes and no parallel system for managing errors of a more socially costly variety on matters of guilt and innocence the author lays the foundation for a common sense approach to the management of errors in the criminal justice system from policing and prosecution to sentencing and corrections He examines the sources of error in each sector the harms they impose on society and frameworks for analyzing and reducing them

The Concept of Justice and Equality Eliane Saadé, 2015-09-25 Unless considered on a practical level where a precise distribution of social goods is chosen John Rawls's and Gerald Cohen's approaches to social justice cannot be complementary Their disagreement about justice and its principles calls for a choice which opts either for the Rawlsian theory or for the Cohenian one What is the more plausible approach to social justice This work compares both approaches and aims to defend Cohen's position in the light of two considerations It answers the philosophical question about the analysis of the idea of justice which puts the virtue of justice in its philosophical context It however presents a method everyone can apply in order to arrive at the fundamental principles of justice by employing the power of reason An analysis of the concept of justice based on the power of reason should seek to uncover the ultimate nature of justice which is independent of facts and of other virtues Once exposed the understanding of justice arrived at should inform social institutions and determine people's daily decisions A just society is therefore a society where just persons and just institutions exhibit the virtue of justice

Goicoechea,2015-02-19 Goicoechea presents his third volume in a series on agape In this book he shows in four ways how the agape of Jesus fulfills the ahava and hesed of the Hebrew Bible First he shows existentially how he learned and lived this for six years in a Benedictine Minor Seminary and then for three years in a Sulpician Major Seminary Second he demonstrates how ahava or our love for God and neighbor and hesed or God s love for us develop through the Hebrew Bible Goicoechea argues that St Matthew s Gospel explains the fulfilment of ahava and hesed with Jesus agape He concludes by drawing attention to how Levinas and Derrida two Jewish postmodern philosophers treat Jewish and Christian love An Introduction to Said Nursi Ian S. system of justice **Nietzsche and the Becoming of Life** Vanessa Lemm, 2014-10-15 This exciting collection of essays challenges existing interpretations of several key moments of Nietzsche's philosophy Paul Patton Scientia Professor of Philosophy University of New South Wales Australia Throughout his writing career Nietzsche advocated the affirmation of earthly life as a way to counteract nihilism and asceticism This volume takes stock of the complexities and wide ranging perspectives that Nietzsche brings to bear on the problem of life's becoming on Earth by engaging various interpretative paradigms reaching from existentialist to Darwinist readings of Nietzsche In an age in which the biological sciences claim to have unlocked the deepest secrets and codes of life the essays in this volume propose a more skeptical view Life is both what is closest and what is furthest from us because life experiments through us as much as we experiment with it because life keeps our thinking and our habits always moving in a state of recurring nomadism Nietzsche's philosophy is perhaps the clearest expression of the antinomy contained in the idea of studying life and in the Socratic ideal of an examined life and remains a deep source of wisdom about living **Rival Enlightenments** Ian Hunter, 2001-01-11 Rival Enlightenments first published in 2001 is a major reinterpretation of early modern German intellectual history Ian Hunter approaches philosophical doctrines as ways of fashioning personae for envisaged historical circumstances here of confessional conflict and political desacralization He treats the civil philosophy of Pufendorf and Thomasius and the metaphysical philosophy of Leibniz and Kant as rival intellectual cultures or *paideiai* thereby challenging all histories premised on Kant's supposed reconciliation and transcendence of the field This study reveals the extraordinary historical self consciousness of the civil philosophers who repudiated university metaphysics as inimical to the intellectual formation of those administering desacralized territorial states The book argues that the marginalization of civil philosophy in post Kantian philosophical history may itself be seen as a continuation of the struggle between the rival enlightenments Combining careful and well documented scholarship with vivid polemic Hunter presents penetrating insights for philosophers and historians alike
