Hidden Heretics Ayala Fader, 2022-04-05 This book concerns a cohort of ultra orthodox Jews based in the greater New York area who while retaining membership and close familial and other ties with their strictly observant communities seek out secular knowledge about the world on the down low so to speak both online and via in person encounters Ayala Fader conducted her ethnographic research in these rarified social circles for years developing relationships of trust with the mostly young married men and women who have taken to clandestine methods to find alternative social spaces in which to question what it means to be ethical and what a life of self fulfillment looks like Fader's book reveals the stresses and strains that such double lifers experience including the difficulty these life choices inject into relationships with wives husbands and one's children Not all of these double lifers become atheists Fader's interlocutors can be placed on a broad spectrum ranging from religiously observant but open minded at one end to atheism on the other The rabbinical leadership of these ultra orthodox communities are well aware of this phenomenon and of how unfiltered internet access makes such alternative forms of seeking an ever present temptation Some ultra orthodox rabbis have been sounding the alarm for years claiming that the internet represents more of a threat to community survival today than the Holocaust did in the last century Fader's book examines the institutional responses of ultra orthodox communities to the double lifers These include what is typically referred to as a Torah based type of religious therapy conducted by trained members of these communities who as therapists and life coaches blend elements of modern psychiatry with ultra orthodoxy and treat troubling potentially life altering doubt and skepticism as symptoms of underlying emotional pathology

Art and Tradition in a Time of Uprisings Gabriel Levine, 2020-03-24 Examining radical reinventions of traditional practices ranging from a queer reclamation of the Jewish festival of Purim to an Indigenous remixing of musical traditions Supposedly outmoded modes of doing and making from music and religious rituals to crafting and cooking are flourishing both artistically and politically in the digital age In this book Gabriel Levine examines collective projects that reclaim and reinvent tradition in contemporary North America both within and beyond the frames of art Levine argues that in a time of political reaction and mass uprisings the subversion of the traditional is galvanizing artists activists musicians and people in everyday life He shows that this takes place in strikingly different ways for Indigenous and non-Indigenous people in settler colonies Paradoxically experimenting with practices that have been abandoned or suppressed can offer powerful resources for creation and struggle in the present Levine shows that in projects that span the discontinuum of tradition strange encounters take place across the lines of class Indigeneity race and generations These encounters spark alliance and appropriation desire and misunderstanding creative mis translation and radical revisionism He describes the yearly Purim Extravaganza which gathers queer leftist and Yiddishist New Yorkers in a profane reappropriation of the springtime Jewish festival the Ottawa based Indigenous DJ collective A Tribe Called Red who combine traditional powwow drumming and singing with electronic dance music and the revival of home fermentation practices considering it from microbiological philosophical aesthetic and political angles Projects that take back the vernacular in this way Levine argues not only develop innovative forms of practice for a time of uprisings they can also work toward collectively reclaiming remaking and repairing a damaged world

The Book of Hiding Timothy K. Beal, 2002-01-04 The Book of Hiding offers a fluent and erudite analysis of the parallels between the Bible and contemporary discussions of gender ethnicity and social ambiguity Beal focuses particularly on the traditionally marginalised book of Esther in order to examine closely the categories of self and other in relation to

religion sexism nationalism and the ever looming legacies and future possibilities of annihilation Beal applies the critical tools of contemporary theorists such as Cixous Irigaray and Levinas challenging widely held assumptions about the moral and life affirming message of Scripture and even about the presence of God in the book of Esther The Book of Hiding draws together a variety of different perspectives and disciplines creating a unique space for dialogue raising new questions and reconsidering old assumptions which is profoundly interesting and well articulated **The Book of Elsie** Joanne
