## **Quiet Evolution A Study Of The Educational System In Ontario:**

**Quiet Evolution** Robin Sutton Harris, 1967      Quiet Evolution Robin S. Harris, 1967-12-15 During the past few years there have been several changes in the educational system of Ontario a reorganization of the Department of Education the abolition of the school section the establishment of post secondary institutions of applied arts and technology and the reform of Grade 13 Others are in prospect the abolition of Grade 13 departmental examinations the requirement that all elementary school teachers must have a university degree and the establishment of an educational television network These changes are evolutionary rather than revolutionary Representing less a break with tradition than a logical expansion of it they are developments that are consistent with the rationale of the system as it has evolved in the course of one hundred and fifty years This study is concerned with the nature and significance of these changes in relation to the dimensions and organization of the system itself It describes the system as it exists today identifies those features of it which are either unique or distinctive and explains by reference to their historical development how these unusual features have come to occupy their present position The author also investigates the disadvantages as well as the advantages of the present approach to education in Ontario pointing out that the system has become such a vast complex that it is exposed to the dangers of fragmentation and compartmentalization The basic problem is one of co ordination which could be remedied by closer liaison between government departments and by the establishment of improved communications between educational institutions This account is a valuable contribution to the public debate on education in Ontario      **Canadian History:**

**The State**

**of the System** Paul W. Bennett, 2020-09-23 Over the last fifty years Canada's public schools have been absorbed into a modern education system that functions much like Max Weber's infamous iron cage. Crying out for democratic school level reform, the system is now a centralized bureaucratic fortress that every year becomes softer on standards for students less accessible to parents, further out of touch with communities and surprisingly unresponsive to classroom teachers. Exploring the nature of the Canadian education order in all its dimensions, *The State of the System* explains how public schools came to be so bureaucratic, confronts the critical issues facing kindergarten to grade 12 public schools in all ten provinces and addresses the need for systemic reform. Going beyond a diagnosis of the stresses, strains and ills present in the system, Paul Bennett proposes a bold plan to re-engineer schools on a more human scale as the first step in truly reforming public education. In place of school consolidation and managerialism, one size fits all uniformity, limited school choice and the success for all curriculum, Bennett advocates for a new set of priorities: decentralize school governance, deprogram education ministries and school districts, listen to parents and teachers and revitalize local education democracy. Tackling the thorny issues besetting contemporary school systems in Canada, *The State of the System* issues a clarion call for more responsive, engaged and accountable public schools.

**Schools, Pupils, and Teachers** W.G. Fleming, 1971-12-15 Volume III explores the basic units in the educational system: student, teacher and school. It examines the aims of education historically and philosophically and describes the development of various types of schools. The book provides an analysis of the use of educational media, a description of school buildings and equipment among many other topics. An important part of the volume is a description of the evolution of the curriculum from the nineteenth century with a detailed analysis of the changes made in such areas as science, the social sciences and French.

*Progressive Education* Theodore Michael Christou, 2012-09-17 Over the course of the twentieth century, North American public school curricula moved away from the classics and the humanities and towards progressive subjects such as health and social studies. This book delves into how progressivist thinking transformed the rhetoric and the structure of schooling during the first half of the twentieth century, with echoes that reverberate strongly today and investigates historical meanings of progressive education. Theodore Michael Christou closely examines the case of interwar Ontario where the entire landscape of public education, including curricula and avenues to post-secondary study, were radically transformed over just twenty years. Christou contextualizes this reformist thinking in light of a social, political and economic climate of change which seemed to demand schools that could actively relate learning to the real world. Through its examination of educational journals published throughout the interwar period and previously unexplored archival sources, this book illuminates how the present structure of curricula and schooling were achieved.

**The Administrative Structure** W.G. Fleming, 1971-12-15 The development and functions of the Department of Education and local school systems, the financing of education and the educational activities of provincial and federal governments are studied in this volume. The emphasis is on current issues and problems. Dr. Fleming delves into the activities

of the department since 1965 giving a thorough analysis of the consolidation of local administrative units in 1969 He describes in detail the financing of education the budgetary practices of the department and the system of federal and provincial grants The last section gives a description of every type of educational activity of the provincial and federal governments

Sir Oliver Mowat A. Margaret Evans,1992-12-15 Few political leaders in Ontario s history have had as lasting an impact on the province and perhaps on the nation as Oliver Mowat premier from 1872 to 1896 Under his leadership Ontario flourished economically socially and politically Among the many political skills that Mowat brought to office one of the most useful was pragmatism He was able to establish a rock solid style that appealed to a wide spectrum of the electorate rural and urban Catholic and Protestant He was also adept at redrawing constituency boundaries and extending the franchise at opportune times Margaret Evans s biography of Mowat is in some ways the story of a golden age in the province s history During this period Ontario modernized agriculture and industry opened the north developed natural resources addressed social problems and accepted trade unions Above all it established itself as the dominant province in Confederation This last was accomplished through a stubborn struggle with Ottawa John A Macdonald fought hard against Mowat s provincial rights moves and referred to the premier as the little tyrant But Mowat prevailed The Canada that emerged was a less centralized state than Macdonald had ever wanted the provinces had substantially more power A century later that legacy of diffused power has been at the centre of much of Canada s constitutional debate

Friedland,2002-12-15 Two histories of the University of Toronto have been published one in 1906 and one in 1927 Since the latter volume appeared no comprehensive history of the University has been published Given the size of the University and the complexity of the task this is not entirely surprising But after sixty six years this gap in the intellectual history of Canada has been filled and we are delighted to announce publication in March of 2002 of Martin Friedland s new history of one of Canada s most important educational and cultural institutions The author of several books on legal history Professor Friedland brings to this task an accomplished eye and ear and a status as a long time member of the University community Professor Friedland s text is accompanied by over 200 maps drawings and photographs Published to coincide with the University s 175th anniversary The University of Toronto A History tells the story of the university in the context of the

history of the nation of which it is a part weaving the stories of the people who have been a part of this institution people who make up a who s who in the history of Canada Anyone who attended the University or who is interested in the growth of Canada s intellectual heritage will enjoy this compelling and magisterial history **Progressive Rhetoric and Curriculum** Theodore Christou,2017-10-20 Progressive Rhetoric Contested Visions of Public Education in Interwar Ontario considers the ways that progressivist ideas and rhetoric shaped early curriculum and structural changes to Ontario s public schools Through a series of case studies conceptual analyses and personal reflections from the field this volume shows how post WWI era debates around progressive education were firmly situated within political economic social and intellectual evolutions in the province and beyond By framing contemporary educational rhetoric in light of historical concepts and arguments Progressive Rhetoric adds to the ongoing historical examination of the meaning of progressive education in the modern age

**Ontario's Educative Society: Schools, pupils, and teachers** W. G. Fleming,1971 **Constructing National Identity in Canadian and Australian Classrooms** Stephen Jackson,2018-06-06 This book explores the evolution of Canadian and Australian national identities in the era of decolonization by evaluating educational policies in Ontario Canada and Victoria Australia Drawing on sources such as textbooks and curricula the book argues that Britishness a sense of imperial citizenship connecting white Anglo Saxons across the British Empire continued to be a crucial marker of national identity in both Australia and Canada until the late 1960s and early 1970s when educators in Ontario and Victoria abandoned Britishness in favor of multiculturalism Chapters explore how textbooks portrayed imperialism the close relationship between religious education and Britishness and efforts to end assimilationist Anglocentrism and promote equality in education The book contributes to British World scholarship by demonstrating how decolonization precipitated a massive search for identity in Ontario and Victoria that continues to challenge educators and policy makers today Supporting Institutions and Services W.G. Fleming,1971-12-15 A variety of institutions and activities including the training of teachers research and development and educational television services are discussed in this volume It describes in detail the creation and growth of the Ontario Institute for Studies in Education and its research activities and gives an account of the educational activities of institutions such as the Royal Ontario Museum the CBC and the provincial libraries *An Illustrated History of Health and Fitness, from Pre-History to our Post-Modern World* Roy J.
