The Soul's Upward Yearning Robert Spitzer, 2015-08-10 Since the early twentieth century scientific materialism has so undermined our belief in the human capacity for transcendence that many people find it difficult to believe in God and the human soul The materialist perspective has not only cast its spell on the natural sciences psychology philosophy and literature it has also enthralled popular culture which offers very little to encourage the soul's upward yearning There are many signs of the widespread loss of confidence in our ability to soar upward and these have been noted by thinkers as diverse as Carl Jung psychiatrist Mircea Eliade historian of religion Gabriel Marcel philosopher and authors C S Lewis and J R R Tolkien Their observations were validated by a 2004 study published in the American Journal of Psychiatry that linked the absence of religion with a marked increase in suicide meaninglessness substance abuse separation from family members and other psychological problems Thus the loss of transcendence is negatively affecting an entire society It is stealing from countless individuals their sense of happiness dignity ideals virtues and destiny Ironically the evidence for transcendence is greater today than in any other period in history The problem is this evidence has not been compiled and made widely available a challenge Father Spitzer aspires to meet with this book Father Spitzer's work provides a bright light in the midst of the darkness by presenting traditional and contemporary evidence for God and a transphysical soul from several major sources It shows that we are transcendent beings with souls capable of surviving bodily death that we are self-reflective beings aware of and able to strive toward perfect truth love goodness and beauty that we have the dignity of being created in the very image of God If we underestimate these truths we undervalue one another underlive our lives and underachieve our destiny

The Ladies' Repository, 1845 The idea of this women's magazine originated with Samuel Williams a Cincinnati Methodist who thought that Christian women needed a magazine less worldly than Godey's Lady's Book and Snowden's Lady's Companion Written largely by ministers this exceptionally well-printed little magazine contained well-written essays of a moral character plenty of poetry articles on historical and scientific matters and book reviews Among western writers were Alice Cary who contributed over a hundred sketches and poems her sister Phoebe Cary Otway Curry Moncure D Conway and Joshua R Giddings and New England contributors included Mrs Lydia Sigourney

Hannah F Gould and Julia C R Dorr By 1851 each issue published a peice of music and two steel plates usually landscapes or portraits When Davis E Clark took over the editorship in 1853 the magazine became brighter and attained a circulation of 40 000 Unlike his predecessors Clark included fictional pieces and made the Repository a magazine for the whole family After the war it began to decline and in 1876 was replaced by the National Repository The Ladies Repository was an excellent representative of the Methodist mind and heart Its essays sketches and poems its good steel engravings and its moral tone gave it a charm all its own Cf American periodicals 1741 1900 *The Soul Knows* Matthew Smith,2004 *Troubling Images* Federico Freschi,Brenda Schmahmann,Lize van Robbroeck,2020-02-01 *Troubling Images* explores how art and visual culture helped to secure hegemonic claims to the nation state via the construction of a unified Afrikaner imaginary Emerging in the late nineteenth century and gaining currency in the 1930s and 1940s Afrikaner nationalist fervour underpinned the establishment of white Afrikaner political and cultural domination during South Africa s apartheid years Focusing on manifestations of Afrikaner nationalism in paintings sculptures monuments buildings cartoons photographs illustrations and exhibitions *Troubling Images* offers a critical account of the role of art and visual culture in the construction of a unified Afrikaner imaginary which helped secure hegemonic claims to the nation state This insightful volume examines the implications of metaphors and styles deployed in visual culture and considers how the design production collecting and commissioning of objects images and architecture were informed by Afrikaner nationalist imperatives and ideals While some chapters focus only on instances of adherence to Afrikaner nationalism others consider articulations of dissent and criticism By troubling these images looking at them teasing out their meanings and connecting them to a political and social project that still has a major impact on the present moment the authors engage with the ways in which an Afrikaner nationalist inheritance is understood and negotiated in contemporary South Africa They examine the management of its material effects in contemporary art in archives the commemorative landscape and the built environment *Troubling Images* adds to current debates about the histories and ideological underpinnings of nationalism and is particularly relevant in the current context of globalism and diaspora resurgent nationalisms and calls for decolonisation **Standard Novels** ,1840
