Corporate Risks and Leadership Eduardo E. Mariscotti, 2020-05-13 The context of business has been changing for companies in recent years and following numerous corporate and accounting scandals many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law Because of the existence of these new regulations the level of control the severity of sanctions by governments and the amount of the fines for noncompliance have increased dramatically In parallel with the technological revolution in communications business management has become more transparent and any negative event is uploaded to social networks and shared with an indeterminate number of people This change in the regulatory sanctioning and technological context has forced large companies to rethink risks investments and budgets to deal in this more complex environment To transition to this change some companies have included ethics and compliance programs in their corporate agenda along with marketing and sales plans strategies growth targets investment plans and or talent acquisition While each industry has its particular risks in this book the author describes the essential elements that any effective ethics and compliance program should contain This book is a source of information that connects yesterday with today The author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and compliance programs to protect their organizations and themselves The book covers theories of ethics but with an eye focused on practical application Risks ethics and compliance are analyzed with an overall vision connected to the reality of business life without getting bogged down in abstract thinking or in technical and regulatory details Ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations. Thus due to the importance of risk management in the business world and the necessary involvement of the CEO and the board of directors it seems appropriate that executives get access to a book about risks ethics compliance and human resources directed not only to compliance experts but also to any organizational leader This book is a wake up call that allows business leaders to understand the benefits of implementing an effective ethics and compliance program that will help members of organizations to make the right decisions and act within the law If they do they can better prevent and react to the difficult obstacle course of risks dangers and threats that organizations face and that may jeopardize the sustainability **Cape Earth** David Fletcher, 2013-08-01 Cape Earth is yet another day by day resilience and survival of companies account of an expedition made by Brian of Brahmaputra fame together with his wife Sandra this time to the ten island archipelago of Cape Verde It follows the same format as the preceding books in the series in that it weaves together an informative factual account of this mid Atlantic nation with Brian's irreverent provocative commentary on its culture its history and its place in the world However Cape Verde is like no other country on the planet and this book consequently is like no other in the series The book describes the couple's travels to the main island of the archipelago Santiago their visit to the desert island of Boa Vista and then their visit to the holiday island of Sal It therefore provides an insight into the pressures posed by the population and development in three very different situations to say nothing of further insights into such matters as the impact of an incessant wind the behaviour of husbands when their ambitious driving plans lead them and their wives into perilous situations and the difficulties endured by these husbands when they are unable to synchronise the arrival of hotel food with a bottle of wine It is the fouth book in David's seven part series that details Brian and Sandra's travels to Assam Syria Borneo Cape Verde Namibia Botswana and Morocco and in due course Zambia Carter G.
