After Taste. Critique of insufficient reason Slavko Kacunko, 2021-06-02 After Taste is an inquiry into a field of study dedicated to the reconsideration reconstruction and rehabilitation of the concept of Taste Taste is the category whose systematic historical and actual dimensions have traditionally been located in a variety of disciplines The actuality and potential of the study is based on a variety of collected facts from readings and experiences which materialize in the following features One concept figurative Taste two thinking traditions analytic and synthetic continental and three interrelated dimensions systematic historic and actual are presented in three volumes As such the study presents a salient comprehensive companion for wider readership of humanities approaching conceptions of Taste for the first time Moreover After Taste is intended for anyone who hopes to make a further contribution to the subject Since its appearance and apparently short triumph some 250 years ago the concept of non literary Taste remained the linchpin of aesthetic theory and practice but also a category outreaching aesthetics Taste as the personal unity of the production theory and criticism of art and literature which was still largely taken as a given in the eighteenth century has meanwhile given way to a highly differentiated art world in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making The critical role of Taste judges ratings and rankings in the feuilleton politics and social media on the one hand and the responding search for new canons on the other have had a huge impact on the academic and popular discourse today However Taste s impact on society is in fact all encompassing and yet without getting even close to the magnetic North of the academic compass After Taste fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines discourses and disciplinary dimensions of Taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day The guiding goal is a post disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts Three intertwined research hypotheses form the guiding goal of an overall study of the agencies of Taste its institutionalizations and expert cultures The 1 first part provides a missing systematic perspective on the concept of Taste as a key factor for understanding the human faculties value theories and practices of valuating The 2 second part traces the events at the peak of Taste s systematic and historical trajectories up until the late eighteenth century and verifies the historiographical hypothesis about the instrumentality of Taste for the production reception and distribution of culture The 3 third part reconstructs the major moments in which the contested concept of Taste experiences its post disciplinary rehabilitation in preparation for its future productive usage in the academic and popular discourses and practices It shows how the category of Taste became the foundation legitimation and the catalyst for the emerging division of labour faculties and disciplines confirming the hypothesis of the immense impact and actuality of Taste in the contemporary world Early Modern Visions of Space Dorothea Heitsch, Jeremie C. Korta, 2021-12-15 How writers respond to a cosmology in evolution in

the sixteenth century and how literature and space implicate each other are the guiding issues of this volume in which sixteen authors explore the topic of space in its multiform incarnations and representations The volume's first section features the early modern exploration and codification of urban and rural spaces as well as maritime and industrial expanses Space and Territory Geographies in Texts thus contributes to a history of spatial consciousness The construction of local national political public and private places is highlighted in Space and Politics Literary Geographies the contributors in this segment show how built forms as architectural or literary constructions and spatial orientation are intertwined Space and Gender Geopoetical Approaches traces the experience of gender as political territorial and communicative exploration the essays in this division deal with social organization and its symbolic analysis resulting in literary texts featuring what could be called psychological production theories The development of ethical approaches adapted to or critical of colonial expansion is analyzed in Space and Ethics Geocritical Ventures here we encounter early modern globalization where locals explorers immigrants adventurers and intellectuals remake themselves in new places engage in or meet with resistance or attempt to rework local sociopolitical systems while reassessing those they are familiar with The Space of the Book the Book as Space Printing Reading Publishing analyzes the tactile object of the book as an arena for commerce politics and authorial experimentation

Rhetoric and Contingency DS Mayfield, 2020-10-26 Human life is susceptible of changing suddenly of shifting inadvertently of appearing differently of varying unpredictably of being altered deliberately of advancing fortuitously of commencing or ending accidentally of a certain malleability In theory any human being is potentially capacitated to conceive of and convey the chance view or fact that matters may be otherwise or not at all with respect to other lifeforms this might be said animal's distinctive characteristic This state of play is both an everyday phenomenon and an indispensable prerequisite for exceptional innovations in culture and science contingency is the condition of possibility for any of the arts be they dominantly concerned with thinking crafting or enacting While their scope and method may differ the fact of reckoning with and taking advantage of contingency renders rhetoricians and philosophers associates after all In this regard Aristotle and Blumenberg will be exemplary hence provide the framework Between these diachronic bridgeheads close readings applying the nexus of rhetoric and contingency to a selection of Early Modern texts and authors are intercalated among them La Celestina Machiavelli Shakespeare Wilde Fontane

Civic Storytelling Florian Fuchs, 2023-05-23 A deep history of storytelling as a civic agency recalibrating literature's political role for the twenty-first century Why did short narrative forms like the novella fable and fairy tale suddenly emerge around 1800 as genres symptomatic of literature's role in life and society In order to explain their rapid ascent to such importance Florian Fuchs identifies an essential role of literature a role traditionally performed within classical civic discourse of storytelling by looking at new or updated forms of this civic practice in modernity Fuchs's focus in this groundbreaking book is on the fate of topical speech on what is exchanged between participants in argument or conversation as opposed to rhetorical speech which emanates from and

ensures political authority He shows how after the decline of the Ars topica in the eighteenth century various forms of literary speech took up the role of topical speech that Aristotle had originally identified Thus his book outlines a genealogy of various literary short forms from fable fairy tale and novella to twenty first century video storytelling that attempted on both high and low levels of culture to exercise again the social function of topical speech Some of the specific texts analyzed include the novellas of Theodor Storm and the novella like lettre de cachet proverbial fictions of Gustave Flaubert and Gottfried Keller the fairy tale as rediscovered by Vladimir Propp and Walter Benjamin the epiphanies of James Joyce and the video narratives of Hito Steyerl

The Cantigas de Santa Maria Henry T. Drummond, 2024-04-23 Alfonso X 1221 84 ruled over the Crown of Castile from 1252 until his death Known as the Wise he oversaw the production of a wealth of literature in his scriptorium One of the most impressive of these literary outputs is the collection of songs known as the Cantigas de Santa Maria which by most counts comprises 429 songs preserved in four manuscripts The miracle songs or cantigas de miragre form the focus of this book While the Cantigas have been the subject of much scholarly attention only a handful of studies have looked at the repertory through an interdisciplinary lens Fewer still have probed how the Cantigas use the power of song as a communicative medium one that functions as a social tool within the erudite environment of the Alfonsine court This book offers a new perspective to the song collection probing how the Cantigas use their music and text together with rhetorical devices to communicate with their desired audience Author Henry T Drummond builds upon previous methodologies adopting a novel and holistic assessment of the songs melodies poetic features and narrative logic to assess a wide selection of songs He presents a nuanced understanding of a song form that effectively conveys its narratives to its listeners via a diverse combination of tools embracing medieval rhetoric rhyme based play and song s inherent ludic potential Such devices Drummond argues allow for the Cantigas to loom large as propaganda pieces designed to dignify Alfonso X through an elaborately devised courtly ritual

A History of Art History Christopher S. Wood, 2021-03-02 In this authoritative book the first of its kind in English Christopher Wood tracks the evolution of the historical study of art from the late middle ages through the rise of the modern scholarly discipline of art history Synthesizing and assessing a vast array of writings episodes and personalities this original and accessible account of the development of art historical thinking will appeal to readers both inside and outside the discipline The book shows that the pioneering chroniclers of the Italian Renaissance Lorenzo Ghiberti and Giorgio Vasari measured every epoch against fixed standards of quality Only in the Romantic era did art historians discover the virtues of medieval art anticipating the relativism of the later nineteenth century when art history learned to admire the art of all societies and to value every work as an index of its times The major art historians of the modern era however Jacob Burckhardt Aby Warburg Heinrich Wölfflin Erwin Panofsky Meyer Schapiro and Ernst Gombrich struggled to adapt their work to the rupture of artistic modernism leading to the current predicaments of the discipline Combining erudition with clarity this book makes a landmark contribution to the understanding of art history from book jacket
