and artists to build the vast and signally intellectual empire of the Abbasid Caliphate and embed the Koran in popular culture how paper was carried along the Silk Road by merchants and missionaries finally reaching Europe in the late thirteenth century and how once established in Europe along with the printing press paper played an essential role in the three great foundations of Western modernity the Renaissance the Reformation and the Scientific Revolution Here is a dramatic comprehensively researched vividly written story populated by holy men and scholars warriors and poets rulers and ordinary men and women an essential story brilliantly told in this luminous work of history **A New Introduction to Islam** Daniel W. Library Catalog of the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.). Library, 1980 Iran and the Deccan Keelan Overton, 2020-06-02 In the early 1400s Iranian elites began migrating to the Deccan plateau of southern India Lured to the region for many reasons these poets traders statesmen and artists of all kinds left an indelible mark on the Islamic sultanates that ruled the Deccan until the late seventeenth century The result was the creation of a robust transregional Persianate network linking such distant cities as Bidar and Shiraz Bijapur and Isfahan and Golconda and Mashhad Iran and the Deccan explores the circulation of art culture and talent between Iran and the Deccan over a three hundred year period Its interdisciplinary contributions consider the factors that prompted migration the physical and intellectual poles of connectivity between the two regions and processes of adaptation and response Placing the Deccan at the center of Indo Persian and early modern global history Iran and the Deccan reveals how mobility liminality and cultural translation nuance the traditional methods and boundaries of the humanities **Qur'anic Matters** Natalia K. Suit, 2020-05-14 In *Qur'anic Matters* Natalia Suit explores the materiality of books focusing on the mushaf With its paper binding ink and script the mushaf is not simply a carrier of the Qur'anic text but by the virtue of its material body it also has the ability to engender reformulations of religious knowledge and practice Reading the Qur'an on a screen of a phone for example does not require the same forms of ritual ablutions as reading a printed text The rules of purity limiting the access to the Qur'anic text for menstruating woman change when the Qur'anic text is mediated by digital bytes instead of paper *Qur'anic Matters* spans the time between two important technological shifts the introduction of printed Qur'anic books in Egypt in the early nineteenth century and the digitization of the Qur'an almost two centuries later Throughout Natalia Suit weaves together the theological legal economic and social presences of the Qur'anic books into a single account She argues that the

message and the materiality of the object are not separate from each other nor are they separate from the human bodies with which they come in contact
