My Flying Boat War Wing Commander 'Vic' Hodgkinson DFC, R, 2025-01-01 Wing Commander Vic Hodgkinson DFC served as a pilot in the Royal Australian Air Force throughout WWII Starting in 1939 he was a founding member of 10 Squadron RAAF operating Short Sunderland flying boats Loaned to the RAF in early 1940 the squadron played a crucial role in the Battle of the Atlantic conducting air sea rescues and attacks on German submarines During this time Vic participated in numerous air sea rescues including saving twenty one survivors of a U boat attack He also conducted depth charge attacks on German submarines Vic s resilience was tested when his Sunderland crashed into the Irish Sea near Bardsey Island in fog resulting in the loss of six of his eleven crew members and a gruelling twelve hour wait for rescue Later he flew missions in the Mediterranean enduring heavy enemy fire to support Allied troops in Crete Returning to the Atlantic his crew successfully engaged a Focke Wulf Fw 200 Condor In 1942 Vic

returned to Australia serving with 20 and 40 Squadrons RAAF flying various aircraft including the Catalina and Dornier Do 24 His missions ranged from supply drops and minelaying to bombing and reconnaissance This is Vic s remarkable story told in his own words for the first time *Aircraft of The Royal Australian Air Force* Air Force History Branch,2021-06-01

Aircraft of The Royal Australian Air Force tells the story of the RAAF s first one hundred years by describing the acquisition operation and service record of the multitude of aircraft types flown by the RAAF The 176 aircraft types include the flimsy wood and canvas aircraft typical of World War I through the technological advances during and after World War II to modern fifth generation complex aircraft like the F 35 Lightning II Even before its formation Sir Richard Williams the Father of the RAAF had decided to employ an alpha numeric numbering system to identify and account for each aircraft in service This system started with A1 A2 A3 etc as each type of aircraft came into service Each individual aircraft within each series was identified as A1 1 A1 2 and so on and the aircraft serial became known colloquially as the A number With some exceptions over the century since the A number system started aircraft entered RAAF service in broadly the sequence of the A numbers and so this book is intended to assist in charting the 100 year history of the RAAF by listing aircraft operated in A number sequence rather than by listing them by role such as Fighter Bomber Maritime Trainer Transport etc or alphabetically by name or by manufacturer The inclusion of a comprehensive Index and the Quick Reference Guide to aircraft by role is intended to facilitate the location of the entry for any specific type of aircraft for those who may not already know its A number *Aircraft of The Royal Australian Air Force* is a must have for all those who have served in the RAAF those with a passion for military aviation and aircraft in general and the broader members of the public wishing to gain an appreciation of the Royal Australian Air Force in its centenary year **My Flying Boat War** 'Vic' Hodgkinson,2024-06-30

to make contact with Allied troops fighting for their lives in Crete After this they were once again back in the Atlantic flying patrols across the Bay of Biscay During one such sortie Vic s crew became embroiled in a battle of the giants with a Focke Wulf Fw 200 Condor It was an engagement that ended badly for the faster and heavily armed enemy aircraft In 1942 Hodgkinson was sent back to Australia going on to serve with both 20 Squadron RAAF and 40 Squadron RAAF It was in this period that he also flew the Consolidated Catalina Martin Mariner and other flying boats including Dornier Do 24s that had been impressed into RAAF service after the fall of the Dutch East Indies His missions included dropping supplies to remote areas minelaying reporting on Japanese ship movements and engaging in the bombing of enemy positions This is Vic s remarkable story told here in his own words for the first time [Naval Aviation News](#) ,1979 **The World Air Power Guide** David Wragg,2011-02-23 Compiled by the author of Janes Air Forces of the World this book is a must for aviation experts In one volume the reader will find the composition and details of all air elements of a staggering 169 nations air forces and where they exist army air naval air and such paramilitary organizations as the US Coast Guard Service By definition such a book must be regularly updated and David Wragg has researched his subject right up to the minute This latest book supersedes the authors early book in the Jane series [Cold War Warriors](#) Ian Pearson,2021-09-01 Cold War Warriors tells the little known story of the operations by the Royal Australian Air Force s P 3 Orions during the latter years of the Cold War The aircraft s largely low profile missions usually flown far from their base were often shrouded by confidentiality Now access to declassified documents has allowed this story to be told From the lead up to their delivery in 1968 to the end of the Cold War in 1991 from the intrigues associated with the procurement of the aircraft and subsequent upgrades to perilous moments experienced by the aircraft and their crews while conducting operations and from triumphs to tragedies Cold War Warriors documents the P 3 s service in the RAAF in the context of the unfolding domestic and international events that shaped the aircraft s evolving missions As well as being a story of the RAAF Orions and their growing capabilities Cold War Warriors is also the story of the crews who flew the aircraft Using their words Cold War Warriors faithfully describes a number of incidents both on the ground and in the air to provide a sense of the enormous breadth of service the P 3 Orion has provided to the Royal Australian Air Force to Australia and to our allies *Walks, Tracks and Trails of Queensland's Tropics* Derrick Stone,2016-03-01 Queensland s tropics provide numerous environments for enjoyable walking lush rainforests cloud shrouded mountains extinct volcanoes savanna woodlands and magnificent beaches on the coast and Great Barrier Reef islands This book brings together more than 150 of the best walks tracks or trails in Queensland s tropics located within the coastal strip between Rockhampton and Cooktown Walks vary from short boardwalk strolls in the lowland rainforests of Daintree National Park to 4 6 day hiking and camping trips on Hinchinbrook Island Other routes follow old gold miners and forestry tracks or coaching routes or feature historical sites rivers lagoons geological and geographical formations or much earlier Aboriginal communication tracks where Dreamtime stories add a
