Of Such is the Kingdom Clara Vawter,1899 Poems and stories about children and their families and animals An old oak tree has guarded a secret hoard of coins for many many years Two poor children come to love the tree as they play safely in his shade and the tree dying yields up the treasure to them Two children promise to let a pet rabbit go back to his family if only he will lay them some Easter eggs Annetta brings home a chick from the country and though she and Jamie treat Biddy very well Biddy refuses to lay eggs but one afternoon after she attends a pin show with the children Biddy made up her mind to be a useful hen

Russian Cyber Operations Scott Jasper,2022-09-01 Russia has deployed cyber operations to interfere in foreign elections launch disinformation campaigns and cripple neighboring states all while maintaining a thin veneer of deniability and avoiding strikes that cross the line into acts of war How should a targeted nation respond In *Russian Cyber Operations* Scott Jasper dives into the legal and technical maneuvers of Russian cyber strategies proposing that nations develop solutions for resilience to withstand future attacks Jasper examines the place of cyber operations within Russia s asymmetric arsenal and its use of hybrid and information warfare considering examples from French and US presidential elections and the 2017 NotPetya mock ransomware attack among others A new preface to the paperback edition puts events since 2020 into context Jasper shows that the international effort to counter these operations through sanctions and indictments has done little to alter Moscow s behavior Jasper instead proposes that nations use data correlation technologies in an integrated security platform to establish a more resilient defense *Russian Cyber Operations* provides a critical framework for determining whether Russian cyber campaigns and incidents rise to the level of armed conflict or operate at a lower level as a component of competition Jasper s work offers the national security community a robust plan of action critical to effectively mounting a durable defense against Russian cyber campaigns
