Race Against Time Human Relations And Politics In Kenya Before Independence:

Race Against Time Richard Frost, 1978 **Colonial Kenya Observed** S. H. Fazan, 2014-11-14 The coast of East Africa was considered a strategically invaluable region for the establishment of trading ports both for Arab and Persian merchants long prior to invasion and conquest by Europeans In the initial stages of the scramble for Africa in the 18th century control of the area was an aspiration for every colonial nation in Europe but it was not until 1895 that it was finally dominated by a sole power and proclaimed The Protectorate of British East Africa In the early 20th century the coast was brimming with vitality as immigrants colonisers and missionaries from Arabia India and Europe poured in to take advantage of growing commercial opportunities including the prospect of enslaving millions of native Africans The development of Kenya is an exceptional tale within the history of British rule in perhaps no other colony did nationalistic feeling evolve in conditions of such extensive social and political change In 1911 S H Fazan sailed to what later became the Republic of Kenya to work for the colonial government Immersing himself in knowledge of traditional language and law he recorded the vast changes to local culture that he encountered after decades of working with both the British administration and the Kenyan people This work charts the sweeping tide of social change that occurred through his career with the clarity and insight that comes with a total intimacy of a country His memoirs examine the fascinating complexity of interaction between the colonial and native courts commercial land reform and the revolutionised dynamic of labour relations By further unearthing the political tensions that climaxed with the Mau Mau Revolt of 1952 1960 this invaluable work on the European colonial period paints a comprehensive and revealing firsthand account for anyone with an interest in British and African history Fazan s story provides a quite unparalleled view of colonial Africa and the conduct of Empire across half a century **Race Against Time**

Richard Frost, 1978 **Historical Reflections on Kenya** Munene, Macharia, 2015-03-16 This book thematically tackles issues that relate to the perpetual struggle between the forces of control and the forces of mental and intellectual liberation in Africa and Kenya in particular The book addresses the colonial legacy of poverty creation as well as the socio political conditioning of Africans to dislike each other and to be irresponsible and disunited in the face of external threats Poverty hatred of other Africans and excessive dependency on European powers can be traced to the policies adopted by colonial officials Related to these issues is post colonial Kenya s attempts to address the political developments the involvement of different types of media in those developments Kenya s foreign policy and the problem of political party transition Ultimately there are topical issues that continue to affect Kenya which include the question of coalition politics the lessons of the 2002 elections the media and corruption parliament and foreign policy and Africa s relations with the United States of America

Transafrican Journal of History, 1976 **Kenya** Charles Hornsby, 2013-03-01 Since independence from Great Britain in 1963 Kenya has survived five decades as a functioning nation state holding regular elections its borders and political system intact and avoiding open war with its neighbours and military rule internally It has been a favoured site for Western

aid trade investment and tourism and has remained a close security partner for Western governments However Kenya's successive governments have failed to achieve adequate living conditions for most of its citizens violence corruption and tribalism have been ever present and its politics have failed to transcend its history The decisions of the early years of independence and the acts of its leaders in the decades since have changed the country's path in unpredictable ways but key themes of conflicts remain over land money power economic policy national autonomy and the distribution of resources between classes and communities While the country's political institutions have remained stable the nation has changed its population increasing nearly five fold in five decades But the economic and political elite's struggle for state resources and the exploitation of ethnicity for political purposes still threaten the country's existence Today Kenyans are arguing over many of the issues that divided them 50 years ago The new constitution promulgated in 2010 provides an opportunity for national renewal but it must confront a heavy legacy of history This book reveals that history

Human Rights in the Shadow of Colonial Violence Fabian Klose, 2013-04-22 Human Rights in the Shadow of Colonial Violence explores the relationship between the human rights movement emerging after 1945 and the increasing violence of decolonization Based on material previously inaccessible in the archives of the International Committee of the Red Cross and the United Nations Human Rights Commission this comparative study uses the Mau Mau War 1952-1956 and the Algerian War 1954-1962 to examine the policies of two major imperial powers Britain and France Historian Fabian Klose considers the significance of declared states of emergency counterinsurgency strategy and the significance of humanitarian international law in both conflicts Klose's findings from these previously confidential archives reveal the escalating violence and oppressive tactics used by the British and French military during these anticolonial conflicts in North and East Africa where Western powers that promoted human rights in other areas of the world were opposed to the growing global acceptance of freedom equality self-determination and other postwar ideals Practices such as collective punishment torture and extrajudicial killings did lasting damage to international human rights efforts until the end of decolonization Clearly argued and meticulously researched Human Rights in the Shadow of Colonial Violence demonstrates the mutually impacting histories of international human rights and decolonization expanding our understanding of political violence in human rights discourse

Thus Until Emilia Ilieva, Reuben Matheka, 2025-08-04 Thus Until A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and

curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style

Imperial Reckoning Caroline Elkins, 2010-04-01 A major work of history that for the first time reveals the violence and terror at the heart of Britain's civilizing mission in Kenya As part of the Allied forces thousands of Kenyans fought alongside the British in World War II But just a few years after the defeat of Hitler the British colonial government detained nearly the entire population of Kenya's largest ethnic minority the Kikuyu some one and a half million people The compelling story of the system of prisons and work camps where thousands met their deaths has remained largely untold the victim of a determined effort by the British to destroy all official records of their attempts to stop the Mau Mau uprising the Kikuyu people's ultimately successful bid for Kenyan independence Caroline Elkins an assistant professor of history at Harvard University spent a decade in London Nairobi and the Kenyan countryside interviewing hundreds of Kikuyu men and women who survived the British camps as well as the British and African loyalists who detained them The result is an unforgettable account of the unraveling of the British colonial empire in Kenya a pivotal moment in twentieth century history with chilling parallels to America's own imperial project *Imperial Reckoning* is the winner of the 2006 Pulitzer Prize for Nonfiction

The Missionary Movement in Colonial Kenya James Karanja, 2009 *Pressing Interests* Phoebe Musandu, 2018-10-01 During the first six decades of the twentieth century when the majority of present day Kenya was under the control of the British Empire many secular newspapers emerged as the products of tensions between Asian and European immigrants the British administration and the African petite bourgeoisie In *Pressing Interests* Phoebe Musandu shows that far from expressions of public opinion or vehicles of a free market these periodicals served as powerful tools for the colonial government and the elite to shape political and economic conditions in their favour Following the development of the most important newspapers established in colonial Kenya as they evolved to reflect the priorities and ambitions of their owners investors publishers journalists and editors *Pressing Interests* explores the roles and contributions of the press in the country's political and economic history Shedding light on newspapers as business ventures Musandu focuses on the management financial and production aspects of media Drawing on previously unearthed archival documents official and unofficial correspondence police and legal records and the newspapers themselves she further examines the

press as a medium for inter and intra racial competition for power and influence as a base for the production of knowledge and as an instrument for social control In an era when we are often reminded of the power inherent in the ability to generate and disseminate information Pressing Interests tells the story of colonial Kenya s press through a timely mix of riveting accounts and the clarifying lens of careful analysis
