**Winning the War for Democracy** David Lucander, 2014-09-15 Scholars regard the March on Washington Movement MOWM as a forerunner of the postwar Civil Rights movement Led by the charismatic A Philip Randolph MOWM scored an early victory when it forced the Roosevelt administration to issue a landmark executive order that prohibited defense contractors from practicing racial discrimination Winning the War for Democracy The March on Washington Movement 1941 1946 recalls that triumph but also looks beyond Randolph and the MOWM's national leadership to focus on the organization's evolution and actions at the local level Using the personal papers of previously unheralded MOWM members such as T D McNeal internal government documents from the Roosevelt administration and other primary sources David Lucander highlights how local affiliates fighting for a double victory against fascism and racism helped the national MOWM accrue the political capital it needed to effect change Lucander details the efforts of grassroots organizers to implement MOWM's program of empowering African Americans via meetings and marches at defense plants and government buildings and in particular focuses on the contributions of women activists like Layle Lane E Pauline Myers and Anna Arnold Hedgeman Throughout he shows how local activities often diverged from policies laid out at MOWM's national office and

how grassroots participants on both sides ignored the rivalry between Randolph and the leadership of the NAACP to align with one another on the ground

*Continually Working* Crystal Marie Moten, 2023-03-15 *Continually Working* tells the stories of Black working women who resisted employment inequality in Milwaukee Wisconsin from the 1940s to the 1970s. The book explores the job related activism of Black Midwestern working women and uncovers the political and intellectual strategies they used to critique and resist employment discrimination, dismantle unjust structures and transform their lives and the lives of those in their community. Moten emphasizes the ways in which Black women transformed the urban landscape by simultaneously occupying spaces from which they had been historically excluded and creating their own spaces. Black women refused to be marginalized within the historically white and middle class Milwaukee Young Women's Christian Association (YWCA), an association whose mission centered on supporting women in urban areas. Black women forged interracial relationships within this organization and made it not without much conflict and struggle one of the most socially progressive organizations in the city. When Black women could not integrate historically white institutions, they created their own. They established financial and educational institutions such as Pressley School of Beauty Culture, which beautician Mattie Pressley DeWese opened in 1946 as a result of segregation in the beauty training industry. This school served economic, educational and community development purposes as well as created economic opportunities for Black women. Historically and contemporarily Milwaukee has been and is still known as one of the most segregated cities in the nation. Black women have always contested urban inequality by making space for themselves and others on the margins. In so doing, they have transformed both the urban landscape and urban history.

*Labor's Home Front* Andrew E. Kersten, 2009-03 One of the oldest, strongest and largest labor organizations in the U.S., the American Federation of Labor (AFL) had 4 million members in over 20,000 union locals during World War II. The AFL played a key role in wartime production and was a major actor in the contentious relationship between the state, organized labor and the working class in the 1940s. The war years are pivotal in the history of American labor, but books on the AFL's experiences are scant, with far more on the radical Congress of Industrial Unions (CIO). Andrew E. Kersten closes this gap with *Labor's Home Front*, challenging us to reconsider the AFL and its influence on twentieth century history. Kersten details the union's contributions to wartime labor relations, its opposition to the open shop movement, divided support for fair employment and equity for women and African American workers, its constant battles with the CIO and its significant efforts to reshape American society, economics and politics after the war. Throughout, Kersten frames his narrative with an original central theme: that despite its conservative nature, the AFL was dramatically transformed during World War II, becoming a more powerful progressive force that pushed for liberal change.

*Making Republicans Liberal* Kristoffer Smemo, 2024-08-20 Mass movements and social protest forced mid century Republicans to articulate their own form of liberalism As poor and working people organized themselves on the job in the streets and at the polls during the mid twentieth century they forced Republicans to reckon with new demands for political and social citizenship in big cities across the Northeast Midwest and Pacific Coast While rightwing Republicans mobilized to crush those movements *Making Republicans Liberal* explores how another wing of the party responded to intensifying mass movement pressure Beginning in the 1930s Republican governors such as Earl Warren of California George Romney of Michigan and Nelson Rockefeller of New York spent the next four decades articulating their own vision of liberalism These Republican liberals believed that strategically they could not win elections and govern in places where unions civil rights groups and other social movements organized voters What may have begun as an opportunistic strategy soon mutated into an ideological commitment to use state power to realize working people's demands for a greater say and stake in the decisions governing their lives Republican liberals accepted labor's right to organize legislated antidiscrimination laws and legalized abortion Yet at the same time each of those policies proved weaker than the alternatives supported by organized labor or mainline civil rights groups and paled in comparison to what people on strike and on the march really wanted Kristoffer Smemo shows how this was the contradiction of Republican liberalism as a policy program and as an ideology The reforms it ushered in at once asked too much from core conservative Republican constituencies and offered too little to the movements struggling for change As the movements making Republicans compromise fragmented and collapsed in the late twentieth century so too did the material foundation for

Republican liberalism      *Africana Social Stratification* James L. Conyers Jr., 2017-11-30 This study seeks to critically examine the field and function of social stratification with emphasis on Africana phenomena Phrased another way this edited volume attempts to study and focus on who gets what and why with regard to resources and structural application of support The John Henrik Clarke query is who made this arrangement of leadership in America Moreover serving as a reference this study will assist researchers in contextualizing and thematically examining the structural and resource allocation of disparity exhibited toward Africana people This manuscript of essays is the first its kind This study incorporates an interdisciplinary scope to examine the concept of Africana Social Stratification in the subject areas of history political science economics Africana Studies and social policy      **Victory at Home** Charles D. Chamberlain, 2010-07-01 Victory at Home is at once an institutional history of the federal War Manpower Commission and a social history of the southern labor force within the commission's province Charles D Chamberlain explores how southern working families used America's rapid wartime industrialization and an expanded federal presence to gain unprecedented economic social and geographic mobility in the chronically poor region Chamberlain looks at how war workers black leaders white southern elites liberal New Dealers nonsouthern industrialists and others used and shaped the federal war mobilization effort to fill their own needs He shows for instance how African American Latino and white laborers worked variously through churches labor unions federal agencies the NAACP and the Urban League using a wide variety of strategies from union organizing and direct action protest to job shopping and migration Throughout Chamberlain is careful not to portray the southern wartime labor scene in monolithic terms He discusses for instance conflicts between racial groups within labor unions and shortfalls between the War Manpower Commission's national directives and their local implementation An important new work in southern economic and industrial history Victory at Home also has implications for the prehistory of both the civil rights revolution and the massive resistance movement of the 1960s As Chamberlain makes clear African American workers used the coalition of unions churches and civil rights organizations built up during the war to challenge segregation and disenfranchisement in the postwar South      **From Coveralls to Zoot Suits** Elizabeth R. Escobedo, 2013-03-21 During World War II unprecedented employment avenues opened up for women and minorities in U S defense industries at the same time that massive population shifts and the war challenged Americans to rethink notions of race At this extraordinary historical moment Mexican American women found new means to exercise control over their lives in the home workplace and nation In *From Coveralls to Zoot Suits* Elizabeth R Escobedo explores how as war workers and volunteers dance hostesses and zoot suiters respectable young ladies and rebellious daughters these young women used wartime conditions to serve the United States in its time of need and to pursue their own desires But even after the war as Escobedo shows Mexican American women had to continue challenging workplace inequities and confronting family and communal resistance to their broadening public presence Highlighting seldom heard voices of the Greatest Generation Escobedo examines these

contradictions within Mexican families and their communities exploring the impact of youth culture outside employment and family relations on the lives of women whose home front experiences and everyday life choices would fundamentally alter the history of a generation

**Robert Clifton Weaver and the American City** Wendell E. Pritchett, 2010-02-15 From his role as Franklin Roosevelt's negro advisor to his appointment under Lyndon Johnson as the first secretary of Housing and Urban Development Robert Clifton Weaver was one of the most influential domestic policy makers and civil rights advocates of the twentieth century This volume the first biography of the first African American to hold a cabinet position in the federal government rescues from obscurity the story of a man whose legacy continues to affect American race relations and the cities in which they largely play out Tracing Weaver's career through the creation expansion and contraction of New Deal liberalism Wendell E Pritchett illuminates his instrumental role in the birth of almost every urban initiative of the period from public housing and urban renewal to affirmative action and rent control Beyond these policy achievements Weaver also founded racial liberalism a new approach to race relations that propelled him through a series of high level positions in public and private agencies working to promote racial cooperation in American cities But Pritchett shows that despite Weaver's efforts to make race irrelevant white and black Americans continued to call on him to mediate between the races a position that grew increasingly untenable as Weaver remained caught between the white power structure to which he pledged his allegiance and the African Americans whose lives he devoted his career to improving

**Jim Crow's Counterculture** R. A. Lawson, 2010-11 In the late nineteenth century black musicians in the lower Mississippi Valley chafing under the social legal and economic restrictions of Jim Crow responded with a new musical form the blues In Jim Crow's Counterculture R A Lawson offers a cultural history of blues musicians in the segregation era explaining how by both accommodating and resisting Jim Crow life blues musicians created a counterculture to incubate and nurture ideas of black individuality and citizenship These individuals Lawson shows collectively demonstrate the African American struggle during the early twentieth century Derived from the music of the black working class and popularized by commercially successful songwriter W C Handy early blues provided a counterpoint to white supremacy by focusing on an anti work ethic that promoted a culture of individual escapism even hedonism and by celebrating the very culture of sex drugs and violence that whites feared According to Lawson blues musicians such as Charley Patton and Muddy Waters drew on traditions of southern black music including call and response forms but they didn't merely sing of a folk past Instead musicians saw blues as a way out of economic subservience Lawson chronicles the major historical developments that changed the Jim Crow South and thus the attitudes of the working class blacks who labored in that society The Great Migration the Great Depression and New Deal and two World Wars he explains shaped a new consciousness among southern

blacks as they moved north fought overseas and gained better paid employment The me centered mentality of the early blues musicians increasingly became we centered as these musicians sought to enter mainstream American life by promoting hard work and patriotism Originally drawing the attention of only a few folklorists and music promoters popular black musicians in the 1940s such as Huddie Ledbetter and Big Bill Broonzy played music that increasingly reached across racial lines and in the process gained what segregationists had attempted to deny them the identity of American citizenship By uncovering the stories of artists who expressed much in their music but left little record in traditional historical sources Jim Crow s Counterculture offers a fresh perspective on the historical experiences of black Americans and provides a new understanding of the blues a shared music that offered a message of personal freedom to repressed citizens *The Senator and the Sharecropper* Chris Myers Asch,2011-02-01 In this fascinating study of race politics and economics in Mississippi Chris Myers Asch tells the story of two extraordinary personalities Fannie Lou Hamer and James O Eastland who represented deeply opposed sides of the civil rights movement Both **Race and Ethnicity in America** Russell M. 1960s and Marian McEvilly and Howard Fuller contested in different ways the politics of implementing desegregation in the 1970s paving the way for the 1990s private school voucher movement Dougherty concludes by contrasting three interpretations of the progress made in the fifty years since Brown showing how historical perspective can shed light on contemporary debates over race and education reform
