Generations of Social Movements Hélène Le Dantec Lowry, Ambre Ivol, 2015-11-17 French political culture has long been seen as a model of leftist militancy while the left in the United States is often perceived in terms of organizational discontinuity Yet the crisis of social democracy today suggests that at a time when the archetypal European welfare state is in danger critics and citizens interested in understanding or reviving progressive politics are invited to consider the United States where modes of creative activism recurrently demonstrate potentialities for a renewed leftist culture Using a transatlantic perspective this volume identifies activist influence through the designation or rejection of specific intellectual and militant figures across generations and it examines various narrative modes used by militants to write their own history

Bond, Angela Gilliam, 2020-04-23 First published in 1994 Anthropological and archaeological enquiry are shaped by the historical times in which they are formulated This collection of essays examines how mainstream scholarship constructs the past in the case of anthropologists usually the past of other peoples By creating another people s cultural history scholars appropriate it and turn it into a form of domination by one group over another Mainstream scholarship has often failed to recognize the intellectual and scholarly contribution of subjugated peoples This volume looks at the way postcolonial scholars are redefining the nature of scholarship and themselves in order to develop a more egalitarian discourse Social Constructions of the Past examines labour race and gender and its relationship to power and class It includes essays on a broad range of topics from the role of intellectuals in restructuring a non apartheid South Africa to Haitian working class women using sexuality to resist domination

**Marx and Haiti** Wulf D. Hund, 2025-01-31 Although modern racism was fully developed by their time Marx and Engels did not engage in a theoretical discussion of its essential features This analytical silence is investigated in the chapter Marx and Haiti Notes on a Blank Space At the same time the chapters of this volume demonstrate that and why the principles of a historical materialist analysis of society present links for a critical theory of racism In the chapter Dehumanization and Social Death Fundamentals of Racism this is shown concerning the various historical shapes of racisms caused by different forms of class relations The chapter Racism flq Birth of a Concept connects the conceptual history of racism with the socio historical conflicts of differently affected social

groups Finally the chapter A Historical Materialist Theory of Racism Introduction addresses basic elements of a Marxist analysis of racism It elucidates the necessity of a theoretical conjunction of classist and racist discrimination as well as the historical differentiation of racisms Racial Theories in Social Science Sean Elias, Joe R. Feagin, 2016-04-14 Racial Theories in Social Science A Systemic Racism Critique provides a critique of the white racial framing and lack of systemic racism analysis prevalent in past and present mainstream race theory As this book demonstrates mainstream racial analysis and social analysis more generally remain stunted and uncritical because of this unhealthy white framing of knowledge and evasion or downplaying of institutional structural and systemic racism In response to ineffective social science analyses of racial matters this book presents a counter approach systemic racism theory The foundation of this theoretical perspective lies in the critical insights and perspectives of African Americans and other people of color who have long challenged biased white framed perspectives and practices and the racially oppressive and exclusionary institutions and social systems created by whites over several centuries **The Marcus Garvey and Universal Negro Improvement Association Papers, Vol. I** Marcus Garvey, 2023-09-01 Marcus Mosiah Garvey 1887 1940 led an extraordinary mass movement of black social protest His Universal Negro Improvement Association and his back to African program of racial nationalism introduced many ideas that emerged again during the Black Power years of the 1960s pride in black roots pride in black physical features and African culture and rejection of assimilation into white America Yet the charismatic black Jamaican who roared his credo before huge audiences on the street corners of Harlem remains an enigma His image as an honest idealist urging blacks to build their own nation has been clouded by accusations that he was a con man who in the name of black pride perpetrated one of history's greatest swindles The Marcus Garvey And Universal Negro Improvement Association Papers clarifies the Garvey phenomenon This is the first volume in a monumental ten volume survey of thirty thousand archival documents and original manuscripts from widely separated sources brought together by editor Robert A Hill to provide a compelling picture of the evolution spread and influence of the UNIA Letters pamphlets vital records intelligence reports newspaper articles speeches legal records and diplomatic dispatches are enhanced by Hill's descriptive source notes explanatory footnotes and comprehensive introduction Of the over three hundred items included in Volume I only very few have ever been published or reprinted before Volume I begins with the earliest mentions in 1826 of the Garvey family in Jamaica's slave records and closes with Garvey's triumphant address at Carnegie Hall on August 25 1919 The information is fascinating and often startling tracing Garvey's early career in Jamaica Central America Europe and the United States and detailing the first stirrings of what was to become an international mass movement Hill presents complete documentation of the first official surveillance of the UNIA which prepared the way for the beginning of the criminal and civil litigation that engulfed Garvey and his movement as American and European governments reacted to the perceived threat with repressive policies The documents also record the internal structure and political splits during the early years of the UNIA and provide the financial

history of Garvey's controversial Black Star Line steamship venture one of the schemes that ultimately led to the financial collapse of his movement. The first volume and the following five focus on America, the seventh and eighth on Africa and the last two on the Caribbean. The information Hill has compiled goes far beyond preoccupation with a single intriguing historical figure to document the growth and demise of a mass social phenomenon: an Afro-American protest movement with strong links to African and Caribbean nationalism in the first decades of the twentieth century. Marcus Mosiah Garvey (1887-1940) led an extraordinary mass movement of black social protest. His Universal Negro Improvement Association and his back-to-Africa program of racial nationalism introduced many ideas that emerged again during the Black Power movement.

**Playing the Race Card** George Jerry Sefa Dei, Leeno Luke Karumanchery, Nisha Karumanchery-Luik, 2004. *Playing the Race Card* reflects and engages the dynamic nature of racialized experience in Western contexts. It examines today's anti-racism project to discern how it might benefit from integrating strategies that work toward the development of critical consciousness as its main goal. So that the privileged and the oppressed alike may reflexively examine their own subject positions, this book identifies and addresses the need to develop a working model for anti-racism strategies. Given the need to understand and move beyond static conceptions of race and racism, *Playing the Race Card* offers both a critique of mainstream privileged perceptions of racial oppression as well as a direction forward within a more organic approach to social reform.

**The World-System and Africa** Immanuel Wallerstein, 2017-05-31. In *The World System and Africa*, Immanuel Wallerstein examines three important interconnected themes that link Africa and the capitalist world system of the last 500 years. While drawing attention to the structural crisis of the modern world system, Wallerstein uses the first set of essays to explore the impact of this worldwide structural crisis on Africa. Next, he turns to identity politics, a political stance that came to prominence in the last thirty years and considers the world system context for the African dilemmas posed by this approach. Not unique to Africa, identity politics has become central to political struggles everywhere in the world system. Finally, Wallerstein reflects on African thinkers' analyses of current affairs both in the world system and in Africa. Coming from someone who has been involved in writing about Africa for over seventy years, Wallerstein argues that if Africa is going to play an appropriate and significant role in resolving the structural crisis of the modern world system, it is crucial that there continue to be a well-informed and intellectually relevant debate about the issues involved, the moral choices to be made, and the political strategies to follow.

**Neglected Social Theorists of Color** Corey Tillman, David R. Dickens, C.C. Herbison, 2022-10-12. *Neglected Social Theorists of Color: Deconstructing the Margins* provides a novel contribution to the ongoing debates concerning the canon in contemporary sociological theory. In particular, the editors argue that many scholars whose work may hold significant potential for contributions to contemporary debates in social theory go unrecognized. Still others, while not completely ignored, have fallen victim to a cultural and political climate not receptive to their work. Feminist scholars have been in the forefront of these debates, arguing that many insightful social theorists have been marginalized because of

their gender More recently studies of individual theorists of color have appeared but these have been limited to African American scholars such as W E B Du Bois In the present text the editors extend this approach to include a broad diversity of theorists of color including those of African American Afro Caribbean Latinx Asian Asian American and Native American backgrounds In addition the editors also include the work of authors who come from academic fields outside of sociology and others who are journalists activists or independent writers The work has a unique format where the authors of each chapter provide a theoretical analysis of their subject and a discussion of the contemporary significance of their work lending to a rich discussion of underappreciated sociological scholars      **The African American Experience** Arvarh E.

Strickland,Robert E. Weems Jr.,2000-11-30 Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery Reconstruction and African American migration the last thirty years have witnessed an explosion of works on the African American experience With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed      **Race and the Jury** Hiroshi Fukurai,Edgar W. Butler,Richard Krooth,2013-06-29 In this timely volume the authors provide a penetrating analysis of the institutional mechanisms perpetuating the related problems of minorities disenfranchisement and their underrepresentation on juries      Racists Beware George J. Sefa Dei,2008-01-01 With

admirable clarity and directness George Dei exposes the tendency towards the racial re feudalization of the contemporary public sphere in Canada and by association other post industrial societies He points to the enormous opportunity costs imposed on racial minorities in the new millennium as a consequence In RACISTS BEWARE UNCOVERING RACIAL POLITICS IN THE POSTMODERN SOCIETY Dei identifies and subjects to close scrutiny the new race bending logics of what he calls postmodern societies in which the dwellers of the suburbs and members of the itinerant white professional middle class the great beneficiaries of late capitalism and neoliberalization of the economy now have become the new social plaintiff turning the complaint of racial inequality and discrimination on the heads of those most oppressed If Gayatri Spivak asks Can the subaltern speak then Dei brilliantly poses the question When will Anglo dominant groups even critical ones ever listen This book is likely to provoke and influence discussion on racial antagonism for a long long time to come      Du Bois's

Dialectics Reiland Rabaka,2008-01-01 With chapters that undertake ideological critiques of education religion the politics of reparations and the problematics of black radical politics in contemporary culture and society Du Bois s Dialectics employs Du Bois as its critical theoretical point of departure and demonstrates his and Africana Studies contributions to as well as contemporary critical theory s connections to critical pedagogy sociology of religion and reparations theory Rabaka offers the first critical theoretical treatment of the W E B Du Bois Booker T Washington debate which lucidly highlights Du Bois s

transition from a bourgeois black liberal to a black radical and revolutionary democratic socialist
