Race And Culture In Psychiatry:

Race and Culture in Psychiatry (Psychology Revivals) Suman Fernando, 2014-10-14 As psychiatry has developed it has proved to be susceptible to the influence of contemporary social and political mores With its origins in nineteenth century Europe psychiatry evolved as an ethnocentric body of knowledge the vehicle of implicit and overt racism Originally published in 1988 this author however saw no reason why the contemporary psychiatrist should not challenge this ethnocentrism He provides a critical account of the development of psychiatry in relation to its cultural context and then examined contemporary practice of the time in the light of this development Throughout the book is informed by an awareness of issues of race and culture and of their difficult interactions the author emphasising both the frequency of racist attitudes and the very real cultural distinctions in our society distinctions that can be used to mask what are actually racist sentiments What emerges is not just a plea for an anti racist culture sensitive psychiatry but a blueprint for how this can be brought about He argued that the shift towards community work and social psychiatry could reorientate the profession by confronting it with its social setting and responsibilities This book represented a significant contribution to this literature for all mental health professionals and social scientists with an interest in this field at the time the author has gone on to write many more

Mental Health, Race and Culture Suman Fernando, 1991 Argues that current psychiatric thinking in the West is based on a notion of the psyche that is culturally exclusive and which on both the theoretical and individual level may be construed as racist A study of mental disorders across the world leads to proposals for a more open approach **Mental Health**, 2001 These reports summarize the current state of what is known about various health and healthcare issues that affect the United States An introductory chapter gives an overview of the report as a whole along with a look at the science and preparation of the report Along with the findings reports may present directories of related resources *The Routledge International Handbook of Race, Culture and Mental Health* Roy Moodley, Eunjung Lee, 2020-10-27 This handbook presents a thorough examination of the intricate interplay of race ethnicity and culture in mental health historical origins subsequent transformations and the discourses generated from past and present mental health and wellness practices The text demonstrates how socio cultural identities including race gender class sexual orientation disability religion and age intersect with clinical work in a range of settings Case vignettes and recommendations for best practice help ground each in a clinical focus guiding practitioners and educators to actively increase their understanding of non Western and indigenous healing techniques as well as their awareness of contemporary mental health theories as a product of Western culture with a particular historical and cultural perspective The international contributors also discuss ways in which global mental health practices transcend racial cultural ethnic linguistic and political boundaries The Routledge International Handbook of Race Culture and Mental Health is an essential resource for students researchers and professionals alike as it addresses the complexity of mental health issues from a critical global perspective *Working with Ethnicity, Race and Culture in Mental*
