Race And Representation National Political Science Review Vol 6:

Race and Representation Georgia A. Persons, 2017-09-04 The National Political Science Review is the official publication of the National Conference of Black Political Scientists This series now entering its sixth volume includes significant scholarly research reflecting the diverse interests of scholars from various backgrounds who use different models approaches and methodologies The central focus is on politics and policies that advantage or disadvantage groups because of race ethnicity gender and other major variables Race and Representation is anchored by a symposium that focuses on efforts to enhance representation of African Americans in legislative bodies under the authority of the historic Voting Rights Act of 1965 and on recent court challenges to the constitutionality of redistricting plans drawn under that act The chapters constitute an extension of an ongoing and protracted highly charged public debate In her introduction Georgia A Persons discusses how recent Supreme Court rulings such as in Shaw v Reno Miller v Johnson and Bush v Vera have significantly redefined the meaning and permissible parameters of the Voting Rights Act She affirms that they have also strongly posited albeit somewhat indirectly a legal meaning of representation that is at variance with the more broadly philosophical meaning of representation grounded in the ideal of enhancing equality among different groups in a society The articles in Race and Representation are refreshingly informative They include case studies written by political scientists who became involved directly with events surrounding the theme of this volume A new section Reflections is introduced it will be reserved for commentary and analysis of an issue that captures the political spirit of the times In the inaugural contribution J Owens Smith reflects on the assault on liberal philosophy as a foundation for civil rights claims and offers an alternative philosophical prism for viewing and justifying such claims This volume is essen National Political Science Review ,1997

Handbook of Black Studies Molefi Kete Asante, Maulana Karenga, 2006 Publisher Description **Race and representation** Shamit Sagar, 2024-06-04 The central concern of Race and representation is the political integration of Britain s ethnic minorities The book provides a direct and extensive comparison between the voting behaviour of ethnic minorities and the electorate as a whole Newly available in paperback the book pioneers innovative use of the British Election Study and features the results of the 1997 ethnic minority election study It also contains an in depth look at party strategy with regard to ethnic minorities ethnic minority attitudes on key issues and policies and the lessons to be learned from the performance of black and Asian parliamentary candidates In particular the analysis aims to uncover whether electoral abstention orientation towards issues and party alignment are primarily circumstantial as existing research suggests is the case among the white population It is a major re examination of the role of ethnicity in shaping political outlook and voting choice The book will be essential reading for students teachers and scholars interested in the involvement of Britain s ethnic minorities in the democratic process It will also have extensive appeal among activists policy makers and opinion formers concerned with ethnic diversity race relations and political inclusion Contours of African American

Politics Georgia A. Persons, 2017-07-05 *Contours of African American Politics* chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment Hence the study of African American politics has sought to track codify and analyse the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society This two volume set presents a selection of scholarship on African American politics as it appeared in *The National Political Science Review* from its initial launch in 1989 to the spring of 2009 Represented are contributions from some of the leading scholars of African American politics who have helped to establish and sustain the field The volumes are organised around themes that derive from the unfolding real life drama of African American politics and its subsequent scholarly treatment The result is a window into the political efforts that meld the historically disparate strands of black political expressions into a reconstructed and strategically nimble electoral based mass mobilisation necessary for optimising the impact of the African American vote Sections in the volumes also chronicle the evolution of the National Conference of Black Political Scientists as a professional organisation The two volumes illuminate a pivotal epoch in black political empowerment and provide a context for the future of black politics

The Changing Racial Regime Matthew Holden, 2017-11-30 *The National Political Science Review* is the official publication of the National Conference of Black Political Scientists The Review's purpose as described by Matthew Holden in his introduction is to lead to new information insights and findings into the social and political status of African Americans The volume is not exclusionist or narrow It integrates essays that could stand alone as they initially were written according to the method and theory of the author in question As presented here however they also lend themselves to a broader treatment of race and the political order The present volume combines essays expressly focused on African Americans Africa and the African diaspora At the same time it contains essays about broad generic subjects such as budgeting and interest groups written with no explicit racial relevance Holden integrates these essays under the theme of the changing racial regime The integrating concept is the old word regime which political scientists have used in many situations before to define such more or less persistent though not necessarily permanent orders of precedence If no significant benefits and no significant burdens could be forecast by knowledge of the social identity called race then the regime could be seen as non racial In American experience the regime was at one time purposeful and sustained white advantage The white race and its preferential standing was central to virtually all institutional practice public and private The significant contemporary question is the degree of change in the racial regime Some proceed with the assumption that a large degree of change has occurred in the American political system The view of other contributors is that the system still sustains racial stratification In its very internal dialogue this volume presents a panorama of current work by political scientists African American and other on the character of the American political system Contributors include Cedric Robinson Charles Henry Edward J Muller Marjorie

Lewis Katherine A Hinckley and Bette S Hill Nancy Haggard Gilson and Vernon Johnson *The Changing Racial Regime* is an essential resource for political scientists black studies specialists and scholars and policy analysts of race relations in the United States

African American Perspectives on Political Science Wilbur Rich, 2007-01-15 Race matters in both national and international politics Starting from this perspective *African American Perspectives on Political Science* presents original essays from leading African American political scientists Collectively they evaluate the discipline its subfields the quality of race related research and omissions in the literature They argue that because Americans do not fully understand the many faceted issues of race in politics in their own country they find it difficult to comprehend ethnic and racial disputes in other countries as well In addition partly because there are so few African Americans in the field political science faces a danger of unconscious insularity in methodology and outlook Contributors argue that the discipline needs multiple perspectives to prevent it from developing blind spots Taken as a whole these essays argue with great urgency that African American political scientists have a unique opportunity and a special responsibility to rethink the canon the norms and the directions of the discipline

(Re-)Mobilizing Voters in Britain and the United States Gregory Benedetti, Veronique Molinari, 2021-02-22 This collective work offers a historical approach to the issue of voters mobilisation and through case studies aims to expand the field's research agenda by taking into account less familiar mobilising strategies from various groups or parties both in Britain and the United States Two different yet complementary approaches are used one from the top down with political parties the other from the bottom up with grassroots organisations to analyze how these groups either re connect citizens with politics or give birth to social movements which durably occupy and change the political landscape of the United States and Britain

Black Women in Politics Michael Mitchell, 2017-09-29 The research included in this volume examines the competing pressures felt by black women as political agents in the domains of elections public policy and social activism Their challenges and initiatives are explored in public spaces institutional behaviours and public policy The volume features cutting edge research exploring black women's political engagement The first group of contributors interrogates the treatment of black women within the discipline of political science The second group examines the relationship between cultural politics and policymaking The third and final group outlines the politics of race gendered identity and black feminist practice *Black Women in Politics* includes chapters on black leadership radical versus moderate politics in New Orleans and the Shelby vs Holder Supreme Court decision The editors introduce a new series highlighting trends in black politics Finally the work notes the passing of William Nick Nelson and Hanes Walton Jr prominent members of the National Conference of Black Political Scientists

Congress Reconsidered Lawrence C. Dodd, Bruce I. Oppenheimer, 2016-12-16 For almost four decades the editors of *Congress Reconsidered* Lawrence C Dodd and Bruce I Oppenheimer have delivered the best contemporary work from leading congressional scholars in a form that is both analytical and accessible The tradition continues in this Eleventh Edition as contributing authors focus on the many ways

Congress has changed over time and examine the conditions that foster these developments Some of the most noted names in congressional studies address topics from broad dynamics affecting the institution elections and constituencies parties and internal organization inter branch relations and policymaking This new edition also ends with a capstone chapter on the milestone 2016 elections Simply put this bestselling volume remains on the cutting edge of scholarship identifying patterns of change in Congress and placing those patterns in context **Laboratories Against Democracy** Jacob M.

Grumbach,2023-08-15 Paperback printing Copyright date 2022 Governing the Metropolitan Region: America's New Frontier: 2014 David Y Miller,Raymond Cox,2015-01-28 This text is aimed at the basic local government management course upper division or graduate that addresses the structural political and management issues associated with regional and metropolitan government It also can complement more specialized courses such as urban planning urban government state and local politics and intergovernmental relations *Policy Studies: Review Annual* Ray Rist,2018-04-20 The sixth edition of this annual collection of the year s best work in policy studies Contributions in this volume reflect the increased emphasis on budget conscious and carefully targeted social programmes Exemplifying a range of analytic and methodological strategies this edition features studies from Australia the United States West Germany and Great Britain *National Elections and the Autonomy of American State Party Systems* James Gimpel,2010-03-19 Traditional theories of party organization have emphasized two party electoral competition as the force behind party unity in state politics V O Key first advanced this theory in Southern Politics where he concluded that party factionalism in the South was mainly attributable to the one party character of the region But this traditional theory does not fit all states equally well In the states of the West especially parties are competitive but political activity is centered on candidates not parties The theory of candidate centered politics allows Gimpel to explain why party factionalism has persisted in many regions of the United States in spite of fierce two party competition Using interviews polling data elections returns and demographic information Gimpel contends that major upheavals in the two party balance of presidential voting may leave lower offices untouched Agrarian Structure and Political Power Evelyne Huber, Frank R. Safford,2010-11-23 The troubled history of democracy in Latin America has been the subject of much scholarly commentary This volume breaks new ground by systematically exploring the linkages among the historical legacies of large landholding patterns agrarian class relations and authoritarian versus democratic trajectories in Latin American countries The essays address questions about the importance of large landowners for the national economy the labor needs and labor relations of these landowners attempts of landowners to enlist the support of the state to control labor and the democratic forms of rule in the twentieth century **We Have No Leaders** Robert Charles Smith,1996-01-01 This comprehensive study of African American politics since the civil rights era concludes that the black movement has been co opted marginalized and almost wholly incorporated into mainstream institutions **The New American Political System** Anthony King,1990 Everything is new in this second version of AEI s all time bestseller which brings coverage of the

vital trends in American political life up to the present *Contours of African American Politics, Volume III* Georgia A. Persons, 2013-03-01 An anthology of articles drawn from prior issues of the National Political Science Review **Florida's Minority Trailblazers** Susan MacManus, 2016-11-21 Saves a piece of Florida political history by narrating the personal stories of the state's minority trailblazers from the Civil Rights Movement to the present day Richard E Foglesong author of *Immigrant Prince* Mel Martinez and the American Dream Captures Florida's ongoing political transition from a yellow dog lily white state to one where diversity is beginning to make an impact on politics Doug Lyons former senior editorial writer South Florida Sun Sentinel Florida experienced a population surge during the 1960s that diversified the state and transformed it into a microcosm of the nation but discrimination remained pervasive With the passage of the Civil Rights Act of 1964 and the Voting Rights Act of 1965 along with later rulings on redistricting and term limits the opportunity to participate in government became more and more possible for previously silenced voices Drawing primarily from personal interviews Susan MacManus recounts the stories of the first minority men and women both Democrat and Republican who were elected or appointed to state legislative executive and judicial offices and to the U S Congress since the 1960s She reveals what drove these leaders to enter office how they ran their campaigns what kinds of discrimination they encountered what rewards each found during their terms and what advice they would share with aspiring politicians In addition to the words of the officeholders themselves MacManus provides helpful timelines photos biographical sketches of each politician and election results from path breaking victories The book also includes comprehensive rosters of minority individuals who have held state offices and those who have gone on to represent Florida in the federal government Full of inspiring stories and informative statistics Florida's Minority Trailblazers is an in depth rendering of personal struggles guided by opportunity ambition and idealism that have made Florida the vibrant diverse state it is today Susan A MacManus is Distinguished University Professor in the Department of Government and International Affairs at the University of South Florida and the coauthor of *Politics in Florida* and *Politics in States and Communities* A volume in the series *Florida Government and Politics* edited by David R Colburn and Susan A MacManus **The Ethical Underpinnings of Climate Economics** Adrian Walsh, S  de Hormio, Duncan Purves, 2016-10-04 Despite their obvious importance the ethical implications of climate change are often neglected in economic evaluations of mitigation and adaptation policies Economic climate models provide estimates of the value of mitigation benefits provide understanding of the costs of reducing emissions and develop tools for making policy choices under uncertainty They have thus offered theoretical and empirical instruments for the design and implementation of a range of climate policies but the ethical assumptions included in the calculations are usually left unarticulated This book which brings together scholars from both economics and ethical theory explores the interrelation between climate ethics and economics Examining a wide range of topics including sustainability conceptions of value risk management and the monetization of harm the book will explore the ethical limitations of economic analysis but will not

assume that economic theory cannot accommodate the concerns raised. The aim in part is to identify ethical shortcomings of economic analysis and to propose solutions. Given the on going role of economics in government thinking on mitigation, a constructive approach is vital if we are to deal adequately with climate change. This volume will be of great interest to students and scholars of environmental ethics, economics, political science, political philosophy and the philosophy of economics.
