The Crisis of America's Cities Randall Bartlett,2015-05-20 An original work on American cities and the ongoing urban crisis Using the metaphor of the socially constructed organization of space Bartlett takes a broad view of the evolution of urban America from its historical roots to the present he then examines the way in which current policies have responded to and affected the organization of space covering housing transportation government and other urban problems He concludes

with a look to the future of American cities how they will impact and be impacted on by changing commercial and labor markets by the problems of poverty and cultural change In an epilogue he explores possible ways to overcome the social dilemmas while recognizing the difficulty of this undertaking A thoroughly unique perspective to the study of cities this book is about how space is used in America and how it changes as the logic of location evolves historically Starting with the assumption that cities are fundamentally unnatural phenomena it unravels the interactions of technological advances that have made them possible and policies that have given them shape

Cities In Space Prof David Herbert,Dr Colin Thomas,2013-11-26 This is the third major revision of a text first published in 1982 with the title *Urban Geography A First Approach* and in 1990 as *Cities in Space City as Place* The study of urban geography remains an important part of the geographical curriculum both in schools and in higher education This book analyses life in an urban society and in a world which is being transformed by the processes of urbanization to study urban geography is to study environments and phenomena significant to our everyday lives This is an introductory text which aims to present both more traditional and newer approaches to urban geography in an accessible and educational way **The Unseen Politics of Public Housing** Tiffany Gayle Chenault,2015-08-15 The Department of Housing and Urban Development HUD emphasizes the word community for building economic development citizen participations and revitalization of facilities and services in urban and rural areas Resident Councils are one way to develop and build community among residents of public housing Despite HUD stressing community building in public housing and investing money and policies around it there are some resident councils that are not fulfilling the expectations of HUD This book is my attempt to describe and explain HUD s expectations for the resident council as an active agent for community building and the actual practices of the resident council I argue that policies and regulations of resident councils which exist to support the effectiveness of the resident council in creating and implementing community building self sufficiency and empowerment activities and goals in a public housing community may do more harm than good The Department of Housing and Urban Development invests and spends billions on Public Housing Programs 6 6 billion in 2013 The majority of the 1 2 million people who live in public housing do not live in large urban areas with thousands of people confined to a certain space The majority of public housing units 90% have fewer than 500 units These smaller units and the people that live in them tend to

go unnoticed This ethnographic case study focuses on explaining and understanding the factors and constraints that exist between HUD s expectations for the resident council as an active agent for community building and the actual practices of the resident council To explain the disjunction in fact to determine if such disjunctions identified by Rivertown council members are real Using the tenets of Critical Race Theory allows us to understand what forces either real or imagined structural or cultural prevent the resident council from being an effective agent for change in the public housing community
