South African Urban Change Three Decades After Apartheid Anthony Lemon, Ronnie Donaldson, Gustav Visser, 2021-06-10 This book provides an analysis of South African urban change over the past three decades It draws on a seminal text *Homes Apart* and revisits conclusions drawn in that collection that marked the final phases of urban apartheid It highlights changes in demography social as well as economic structure and their differential spatial expression across a range of urban sites in South Africa The evidence presented in this book points to a very complex set of narratives in urban South Africa and one that cannot be reduced to a singular statement so the conclusions of the various investigations are in many ways open As urban apartheid represented one clear outcome its post apartheid urban legacies varies greatly from city to city As such this book is a great resource to students and academics focused on urban change in South African cities since the demise of apartheid and scholars of urban policy making in South Africa and Southern urbanists generally

Class, Race, and Inequality in South Africa Jeremy Seekings, Nicoli Nattrass, 2008-10-01 The distribution of incomes in South Africa in 2004 ten years after the transition to democracy was probably more unequal than it had been under apartheid In this book Jeremy Seekings and Nicoli Nattrass explain why this is so offering a detailed and comprehensive analysis of inequality in South Africa from the midtwentieth century to the early twenty first century They show that the basis of inequality shifted in the last decades of the twentieth century from race to class Formal deracialization of public policy did not reduce the actual disadvantages experienced by the poor nor the advantages of the rich The fundamental continuity in patterns of advantage and disadvantage resulted from underlying continuities in public policy or what Seekings and Nattrass call the distributional regime The post apartheid distributional regime continues to divide South Africans into insiders and outsiders The insiders now increasingly multiracial enjoy good access to well paid skilled jobs the outsiders lack skills and employment

Apartheid, 1948-1994 Saul Dubow, 2014-05 This fresh interpretation of apartheid South Africa integrates histories of resistance with the analysis of power asking not only why apartheid was defeated but how it came to survive for so long

A World of Their Own Meghan Healy-Clancy, 2014-06-19 The politics of black education has long been a key issue in southern African studies but despite rich debates on the racial and class dimensions of schooling historians have neglected their distinctive gendered dynamics *A World of Their Own* is the first book to explore the meanings of black women s education in the making of modern South Africa Its lens is a social history of the first high school for black South African women Inanda Seminary from its 1869

founding outside of Durban through the recent past Employing diverse archival and oral historical sources Meghan Healy Clancy reveals how educated black South African women developed a tradition of social leadership by both working within and pushing at the boundaries of state power She demonstrates that although colonial and apartheid governance marginalized women politically it also valorized the social contributions of small cohorts of educated black women This made space for growing numbers of black women to pursue careers as teachers and health workers over the course of the twentieth century After the student uprisings of 1976 as young black men increasingly rejected formal education for exile and street politics young black women increasingly stayed in school and cultivated an alternative form of student politics Inanda Seminary students experiences vividly show how their academic achievements challenged the narrow conceptions of black women s social roles harbored by both officials and black male activists By the transition to democracy in the early 1990s black women outnumbered black men at every level of education introducing both new opportunities for women and gendered conflicts that remain acute today

Emerging Johannesburg Richard Tomlinson, Robert Beauregard, Lindsay Bremmer, Xolela Mangcu, 2014-02-04 Johannesburg is most often compared with Sao Paulo and Los Angeles and sometimes even with Budapest Calcutta and Jerusalem Johannesburg reflects and informs conditions in cities around the world As might be expected from such comparisons South Africa s political transformation has not led to redistribution and inclusive social change in Johannesburg In Emerging Johannesburg the contributors describe the city s transition from a post apartheid city to one with all too familiar issues such as urban suburban divide in the city and its relationship to poverty and socio political power local politics and governance crime and violence and especially for a city located in Southern Africa the devastating impact of AIDS

The Freedom Movement's Lost Legacy Keith P. Griffler, 2023-06-06 In the century after emancipation the long shadow of slavery left African Americans well short of the freedom promised to them While sharecropping and debt peonage entrapped Black people in the South European colonialism had bred a new slavery that menaced the liberty of even more Africans A core group of Black freedom movement leaders including Ida B Wells and W E B Du Bois followed their nineteenth century predecessors in insisting that the continuation of racial slavery anywhere put Black freedom on the line everywhere They even predicted the consequences that ignited the recent nationwide Black Lives Matter movement the rise of a prison industrial complex and the consequent erosion of African Americans faith in the criminal justice system The Freedom Movement s Lost Legacy Black Abolitionism since Emancipation is the first historical account of the Black freedom movement s response to modern slavery in the twentieth century Keith P Griffler details how the mainstream international antislavery movement became complicit in the enslavement of Black and brown people across the world through its sponsorship of racist international antislavery law that gave the new slavery explicit legal sanction Black freedom movement activists thinkers and organizers did more than call out this breathtaking betrayal of abolitionist principles they dedicated themselves to the eradication of slavery in whatever forms it assumed on the global stage and developed an expansive vision

of human freedom This timely and important work reminds us that the resurgence of today's Black freedom movements is a manifestation and continuation of the traditions and efforts of these early Black leaders and abolitionists an important chapter in the history of antislavery and the ongoing Black freedom struggle

This detailed comparison sets forth the difference in the approaches of both countries, with South Africa employing the individualised, standardised intervention and Brazil a more responsive one.
