Race Et Histoire:

Race et histoire; suivi de L'oeuvre de Claude Lévi-Strauss par Jean Pouillon Claude Lévi-Strauss, 1969 *Race et histoire* Claude Lévi-Strauss, 1961 **Philosophie** Nicole Grataloup, Michel Vignard, 2006 *Race et histoire* Claude Lévi-Strauss, 2002 *Race et histoire dans les sociétés occidentales (XV-XVIIIe siècle)* Jean-Frédéric Schaub, Silvia Sebastiani, 2021-10-06 Ce livre présente les processus de racialisation qui ont ponctué la transformation de l'Europe et de ses colonies de la fin du Moyen âge jusqu'à des révolutions. Cette histoire claire l'évolution des sociétés, des institutions, des cultures et des théories. Elle décrit la volonté de catégoriser les individus et les groupes de les enclore dans des identités présentes comme intangibles de discriminer les collectifs dominés voire d'organiser l'oppression grand échelle contre des populations définies par leur race. La racialisation procède par naturalisation des rapports sociaux et des caractéristiques physiques et morales qui se transmettent de génération en génération à travers la procréation. Elle repose sur une contradiction le racisme affirme que les gens sont prisonniers de leur race et s'emploie néanmoins à gérer la transformation des races. Quatre coups de projecteur permettent de rendre compte de cette histoire la noblesse de naissance face à l'anoblissement la nature juive ou musulmane qui persiste dans le sang des convertis l'origine ineffaçable des métis dans l'Amérique coloniale la déshumanisation des Africains par la traite esclavagiste. Ces phénomènes sont les expériences culturelles sur lesquelles les auteurs des Lumières se sont fondés pour classer l'humanité en races. Ils hiérarchisent les groupes humains mais proclament aussi l'universalité des droits de l'homme. Le siècle des philosophes peut alors se lire comme le fruit d'une histoire passée autant que comme le fondement d'une histoire inachevée la nuit.

Claude Lévi-Strauss Patrick Wilcken, 2011-11-21 Claude Lévi-Strauss the father of modern anthropology and author of the classic *Tristes tropiques* was one of the most influential intellectuals of the second half of the twentieth century. Dislodging Sartre, Camus and de Beauvoir from the pinnacle of French intellectual life in the 1950s he brought about a sea change in Western thought and inspired a generation of thinkers and writers including Michel Foucault, Roland Barthes and Jacques Lacan with his structuralist theories. Lévi-Strauss's bohemian childhood and later studies of the emerging discipline of anthropology in the field and the university led him to mix with intellectuals, artists and poets from all over Europe. Tracing the evolution of his ideas through interviews with the man himself, research into his archives and conversations with contemporary anthropologists, Wilcken explores and explains Lévi-Strauss's theories revealing an *artiste manqué* who infused his academic writing with an artistic and poetic sensibility.

Cowan, Marie-B n d i c t e Dembour, Richard A. Wilson, 2001-11-29 Do people everywhere have the same or even compatible ideas about multiculturalism indigenous rights or women s rights The authors of this book move beyond the traditional terms of the universalism versus cultural relativism debate Through detailed case studies from around the world Hawaii France Thailand Botswana Greece Nepal and Canada they explore the concrete effects of rights talk and rights institutions on people s lives **Blood and Kinship** Christopher H. Johnson, Bernhard Jussen, David Warren Sabean, Simon Teuscher, 2013-01-01 The word blood awakens ancient ideas but we know little about its historical representation in Western cultures Anthropologists have customarily studied how societies think about the bodily substances that unite them and the contributors to this volume develop those questions in new directions Taking a radically historical perspective that complements traditional cultural analyses they demonstrate how blood and kinship have constantly been reconfigured in European culture This volume challenges the idea that blood can be understood as a stable entity and shows how concepts of blood and kinship moved in both parallel and divergent directions over the course of European history Catalogue of Valuable Books, Forming the Stock of Bernard Quaritch Bernard Quaritch, 2025-08-20 Reprint of the original first published in 1859 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Anthropocentrism* Rob Boddice, 2011-07-14 Anthropocentrism is a charge of human chauvinism and an acknowledgement of human ontological boundaries Anthropocentrism has provided order and structure to humans understanding of the world while unavoidably expressing the limits of that understanding This collection explores the assumptions behind the label anthropocentrism critically enquiring into the meaning of human It addresses the epistemological and ontological problems of charges of anthropocentrism questioning whether all human views are inherently anthropocentric In addition it examines the potential scope for objective empathetic relational or other views that trump anthropocentrism With a principal focus on ethical questions concerning animals the environment and the social the essays ultimately cohere around the question of the non human be it animal ecosystem god or machine **Race and History** Claude Levi-Strauss, 2017-08-24 **Thinking without Desire** Panu Minkkinen, 1999-09-01 The book is an attempt to evaluate the reception of Continental philosophy phenomenology hermeneutics deconstruction etc within mainstream jurisprudence The book claims that the reduction of philosophy to social theory can only be accomplished by impoverishing the impetus of philosophical thinking and

consequently by transforming critique into criticism and the philosophy of law into legal theory The response developed in this book is the creation of a metaphysical understanding of law or in other words what Aristotle called a first philosophy In addition to philosophy proper the classics of Antiquity the great German philosophers contemporary French thinking the book covers a wide range of jurisprudential literature These include the neo Kantian philosophers of law whose thinking is allegedly at the root of legal positivism but special emphasis is also given to existential philosophers of law deeply inspired by the hermeneutical phenomenology of Martin Heidegger Lastly the book encourages specifically philosophical approaches in law to the thinking of French contemporaries whose work has inspired critical legal scholarship during the past ten years

Coming Clean Eric Heinze, 2025-04-08 What has gone wrong with the left and what leftists must do if they want to change politics ethics and minds Leftists have long taught that people in the West must take responsibility for centuries of classism racism colonialism patriarchy and other gross injustices Of course right wingers constantly ridicule this claim for its wokeness In *Coming Clean* Eric Heinze rejects the idea that we should be less woke In fact we need more wokeness but of a new kind Yes we must teach about these bleak pasts but we must also educate the public about the left's own support for regimes that damaged and destroyed millions of lives for over a century Stalin in the Soviet Union Mao Zedong in China Pol Pot in Cambodia or the Kim dynasty in North Korea Criticisms of Western wrongdoing are certainly important yet Heinze explains that leftists have rarely engaged in the kinds of open and public self scrutiny that they demand from others Citing examples as different as the Ukraine war LGBTQ people in Cuba the concept of hatred and the problem of leftwing antisemitism Heinze explains why and how the left must change its memory politics if it is to claim any ethical high ground

Visions of the Social Jean Terrier, 2011-06-22 An essentially contested notion society is viewed by some as the most

important level of human reality while others deny its existence outright Taking the example of France between the Enlightenment and the Second World War this book recounts the debates among thinkers and scholars on the nature of the social By way of an original analysis of the work of many key figures in the history of French thought the author convincingly demonstrates the strength of the connection between social theories and political projects He pays particular attention to conceptual and terminological developments thereby shedding a new light on the history of some core concepts of the human sciences such as society culture and civilisation

Rétrovolution Jean-Loup Amselle, 2010-09-08

L'idée que l'avenir de l'humanité se trouve dans le passé et que la solution aux problèmes du présent est de chercher du côté d'une sagesse venue du fond des siècles n'est pas neuve Chaque époque a connu la tentation du primitivisme L'incertitude idéologique actuelle lui donne toutefois une vigueur nouvelle Le regain d'un tourisme mystique cherchant au loin dans l'absorption ritualisée de substances hallucinogènes les clés d'un paradis perdu n'est qu'un aspect de cet attrait des origines Car le primitivisme aujourd'hui prend trois formes politique anthropologique artistique Jean-Loup Amselle soumet ici chacune d'elles au feu de la critique De la conception du musée du quai Branly la référence à la grandeur dans le discours de Nicolas Sarkozy Dakar en passant par la promotion en Afrique de l'Ouest comme en Amérique du Sud d'identités et de valeurs ethniques il montre comment tats et hommes d'État font de l'authenticité et de la tradition des arguments ou des instruments de pouvoir Il dénonce galement chez certains de ses collègues anthropologues une conception figée des cultures exotiques voire un fétichisme des savoirs indigènes comme s'il fallait renvoyer les sauvages hors de l'histoire pour mieux pouvoir juger la pensée occidentale Il analyse enfin le processus de purification culturelle de l'autre travers une production artistique dont l'exotisme format est apte à séduire un public international Cet ouvrage argument engagé parfois ironique prend ainsi résolument parti contre les usages contemporains du mythe primitiviste

Affirmative Exclusion Jean-Loup Amselle, 2003

Jean-Loup Amselle explores the issue of multiculturalism by delving into the history of France's confrontation with ethnic difference Amselle analyzes France's relationship to Egypt Algeria and Senegal to show how ideas about difference and assimilation played out in French colonial policies and how these same tensions continue to be problematic as France grapples with cultural pluralism Amselle's book has timely and wide ranging implications Arguing against the liberal communitarian state as it exists in the United States Amselle contends that an overemphasis on difference can lead to what he calls affirmative exclusion the flip side of affirmative action The recognition of a multiplicity of ethnic groups in France he asserts creates an environment that fosters racism Despite an outward appearance of generosity supporters of French style multiculturalism by promoting affirmative

action run the risk of creating as many difficulties as there are target groups which they have helped identify and hence produce. Calling on theories of racial difference devised by early anthropologists most notably Louis Faidherbe and on the work of political philosophers such as Thomas Hobbes, John Locke and Jean Jacques Rousseau, Amselle makes historical and sociological sense of the debates over multiculturalism and the violence they engender. Toward a French Multiculturalism proposes directions for the future.
