Race Ethnicity And Power A Comparative Study:

Race, Ethnicity and Power Donald G. Baker, 2024-01-01 First published in 1983 *Race Ethnicity and Power* focuses on contemporary race and ethnic relations in six countries and looks at the historical context by tracing how various forces and factors such as group power capabilities shaped present day ethnic and race relations It describes how English settlers and their descendants used their power historically to control major political economic and social structures and to shape the cultural policies of these countries It explains how ethnic and race relations are best understood by assessing the changing power capabilities of Anglo and non Anglo groups and shows how changes in group relations are the consequence of two major factors modification in group power resources and capabilities and changes in situational factors This book will be of interest to students of sociology political science ethnic studies and international relations

Sport: Sport and power relations Eric Dunning, Dominic Malcolm, 2003 A collection of texts providing a useful resource for students in the field of sports studies Subject headings include approaches to the study of sport the development and structure of modern sport sport and power relations and major issues in contemporary sport

Ssali: Power Back to the People, 2023-06-02 The infamous Scramble for Africa resulted in random and unlikely borders that remain today The West partitioned territory for the sake of its short term goal of influence or mastery They gave little thought to the long running consequences for the Africans themselves This arbitrary carving up of Africa the colonial policy of divide and rule and the resultant segmental cleavages in most post colonial African states may be blamed for the horizontal inequalities conflicts and insecurity rampant since independence In Uganda as in many other African countries the most evident of such cleavages have been tribal and ethnic Recently there have been calls for constitutional reform that would devolve power to the tribal regions and revive the idea of federalism which was the organizing principle in the immediate aftermath of independence This book highlights the dynamics of ethnic politics in the post independence sub Saharan setting in general and the background meaning and relevance of the debate on ethnic federalism in Uganda in particular Part of the book covers Vick Lukwago Ssali's own experiences growing up in an independent but troubled Uganda However its central thesis is based on the voices of selected samples of ordinary people in ten different tribal areas of Uganda and what they comparatively think about the issue of federalism Is their loyalty growing towards the centre or fading outwards from the troubled state to their integral traditional and cultural units

Communicating Prejudice Michael L. Hecht, 1998-04-13 Prejudice pervades our society in many guises from pejorative remarks to acts of violence Communicating Prejudice explores the many dimensions of prejudice It presents a new and integrative conceptual model of prejudice the layered perspective of cultural intolerance and uses this model to analyze the communication of prejudice in a variety of spheres such as racism sexism homophobia ageism and classism Drawing on multidisciplinary perspectives the first two chapters present the model and theoretical foundation for the book and subsequent chapters deal with specific foci of prejudice including personal prejudice and prejudice in relationships organizations and the media Included is a series of personal narratives to illustrate specific types and instances of prejudice This book will be useful as a supplementary text in upper level undergraduate and graduate level courses examining issues of

race gender and ethnicity *Antiracism* John Solomos,2024-11-18 While there has been a wealth of research and conversation about the role of racism in shaping our social political and economic structures antiracism its highly publicized counterpart has been very little studied discussed or debated Veteran race scholar John Solomos argues in this slim intervention that we urgently need to re focus research and activist agendas to address this gap in knowledge The core questions addressed in the book include what does antiracism mean in the contemporary environment How do states political institutions and civil society define and practise antiracism What is the role of alliances across race class and gender in shaping possible futures beyond racism Moving beyond the valuable work which has already uncovered the ways in which race and racism are made and re made these questions cut to how to develop meaningful political and policy initiatives framed by antiracist ideas and values If we hope to make sense of the evolution of contemporary racisms in the world around us in order to tackle them head on antiracism needs to be better understood *Race, Ethnicity, and Socioeconomic Status* Charles Vert Willie,1983 Providing an adequate conceptual apparatus for the explanation and interpretation of behavior associated with race ethnicity and socioeconomic status is the goal of this book Empirical research findings and their theoretical analysis are linked E Franklin Frazier recognized minorities as mirrors of their society He hypothesized that study of their adaptations would provide a clearer understanding of the relation of human motivation to culture Race Ethnicity and Socioeconomic Status confirms the Frazier hypothesis and extracts from studies of blacks and other racial and ethnic minority populations propositions applicable to majority as well as minority groups Theses studies of intergroup relations were conducted during the past 25 years and provide a perspective on changing patterns of contact between cultural groups in the United States Adaptations associated with race ethnicity and socioeconomic status are analyzed from the perspective of sociology as a science of humanity Historical trends as well as contemporary situations are considered social psychological and geographical factors are researched as contextual variables in intergroup relations By analyzing demographic data pertaining to mortality disease delinquency and poverty the varying contributions to the human condition of individual attributes group customs and institutional regulations are ascertained Institutional and community studies illuminate the prides fears and prejudices of dominant and subdominant groups particularly with reference to racial and ethnic relations in education Also identified in these studies are the rights and responsibilities of such groups toward each other in social interaction **Landscapes of Defence** John R. Gold,George Revill,2014-09-15 This is a key text on the very topical themes of power defence and space Landscapes of Defence is an exciting collection of theoretical and empirical material from very well known contributors designed to help students understand how landscapes of defence fit in with some of the broader concepts of space power and place to which they are introduced in the 1st year The book is split into four sections and each section contains an introduction placing the subsequent chapters in context There is also a comprehensive introduction and afterword to tie the book s broad themes together 2nd and 3rd year undergraduates in urban and cultural geography will be

Error Perspective Kristen Olson, Jolene D. Smyth, Jennifer Dykema, Allyson L. Holbrook, Frauke Kreuter, Brady T. West, 2020-05-10 Interviewer Effects from a Total Survey Error Perspective presents a comprehensive collection of state of the art research on interviewer administered survey data collection Interviewers play an essential role in the collection of the high quality survey data used to learn about our society and improve the human condition Although many surveys are conducted using self administered modes interviewer administered modes continue to be optimal for surveys that require high levels of participation include difficult to survey populations and collect biophysical data Survey interviewing is complex multifaceted and challenging Interviewers are responsible for locating sampled units contacting sampled individuals and convincing them to cooperate asking questions on a variety of topics collecting other kinds of data and providing data about respondents and the interview environment Careful attention to the methodology that underlies survey interviewing is essential for interviewer administered data collections to succeed In 2019 survey methodologists survey practitioners and survey operations specialists participated in an international workshop at the University of Nebraska Lincoln to identify best practices for surveys employing interviewers and outline an agenda for future methodological research This book features 23 chapters on survey interviewing by these worldwide leaders in the theory and practice of survey interviewing Chapters include The legacy of Dr Charles F Cannell s groundbreaking research on training survey interviewers and the theory of survey interviewing Best practices for training survey interviewers Interviewer management and monitoring during data collection The complex effects of interviewers on survey nonresponse Collecting survey measures and survey paradata in different modes Designing studies to estimate and evaluate interviewer effects Best practices for analyzing interviewer effects Key gaps in the research literature including an agenda for future methodological research Written for managers of survey interviewers survey methodologists and students interested in the survey data collection process this unique reference uses the Total Survey Error framework to examine optimal approaches to survey interviewing presenting state of the art methodological research on all stages of the survey process involving interviewers Acknowledging the important history of survey interviewing while looking to the future this one of a kind reference provides researchers and practitioners with a roadmap for maximizing data quality in interviewer administered surveys The Power of Oral History Narratives Toni Fuss Kirkwood-Tucker, Frans H. Doppen, 2023-06-01 The significance of this book is its uniqueness First the book contains a collection of fourteen chapters that capture the personal professional and historical experiences of international global scholars and artists to which they were subjected in their native country and after they immigrated to the United States What makes this book project highly unusual in comparison to other publications is that these international global scholars and artists experienced historical events of trauma and joy in their native country and in their newly adopted country of the United States that lie deeply buried in their sub consciousness that these memories are unforgettable and still painful for them that these memories are a constant companion in their daily lives and that the experienced historical events

of trauma and joy have shaped their professional and personal lives to this very day There exists a paucity in the global education literature of this far reaching topic and thus it has the potential to enhance and diversify the global education literature Second the significance of this book lies in the pedagogical power of the oral history narrative tradition and its impact on students at the secondary and tertiary levels in education When one's lived experiences of trauma or joy occur during a critical time in history they rarely yield unforgotten memories and deeply held private knowledge that do not come to light without a storyteller When first hand accounts are shared publicly they can bring powerful insights into past historic events to the very present Thus the pedagogical strength of this book contributes to knowledge creation in the classroom as oral histories move students from abstract textbook descriptions to concrete and compelling lived stories associated with historical happenings This pedagogy leads students to become more critical of historical events of the past and develops in them a deeper understanding of the past Consequently oral history narratives enable teachers and teacher educators to enrich the abstract text of textbooks with the authentic voice of the individual A third significance of this book lies embedded in the rich historical perspective displayed by storytellers of non native international global scholars and artists from around the world who portray their lived through first hand experiences such as child labor communism hate hunger fascism fear intolerance discrimination prejudice poverty war protest and death Finally a major purpose of this book is to expose young learners from around the world to empowering non native international role models in global education and the arts from nations in Africa Asia the Caribbean Eurasia Europe the Middle East and South America who build bridges not walls between peoples and nations

Handbook of the Sociology of Education Maureen T. Hallinan, 2006-11-24 The aim of the Handbook of Sociology of Education is to present the most theoretically grounded and empirically rigorous sociological analyses of

schools to date The authors are distinguished researchers in the field Their contributions to the Handbook offer major theoretical perspectives on the schooling process and describe significant empirical studies of schools and their effects on individuals and society The research presented in the Handbook is built on three fundamental tenets of sociology First the authors adopt the perspective that schools are a central institution in society An understanding of the function of schooling in social life is enhanced by viewing schools as interrelated with other societal institutions The study of how the context of schooling influences education processes is critical to an understanding of school outcomes Rather than being determined solely by ascribed and achieved characteristics an individual's cognitive and social development are influenced heavily by the structures and networks in which the individual is embedded Communities families schools and social groups are critical elements in the educative process By viewing the school as a societal institution and highlighting the interaction between context and individual behavior the Handbook chapters provide a broader and deeper understanding of the determinants of learning in contemporary society The second sociological insight that guides the research in the Handbook is that the school is a social system

Achieving Equal Educational Opportunity for Students of Color Richard R. Valencia, Valencia presents the most comprehensive theory based analysis to date on how society and schools are structurally organized and maintained to impede the optimal academic achievement of low SES marginalized K 12 Black and Latino/Latina students compared to their privileged White counterparts The book interrogates how society contributes to educational inequality as seen in racialized patterns in income wealth housing and health and how public schools create significant obstacles for students of color as observed in reduced access to opportunities e g little access to high status curricula knowledge Valencia offers suggestions for achieving equal education e g implementing fairness of school funding improving teacher quality and providing students of color access to multicultural education by disrupting structural racism Considering the rapid aging of the White population and the sharp decline of White youth coupled with the explosive growth in people of color this book argues that the American Imperative must be to assiduously mount an effort to provide an excellent education for students of color who the nation will depend on for a sizable proportion of its work force Book Features Examines how society and schools are failing Black and Latino/Latina students principally Mexican Americans who are by far the largest Latino/Latina group Uses theoretical frameworks that draw from analysis of structural inequality critical race theory anti deficit thinking narratives class by race covariation and an asset based perspective of students of color Discusses the American Imperative and the personal and economic consequences of not investing in students of color

Ethnic Peace in the American City Edward Taehan Chang, Jeannette Diaz-Veizades, 1999-08 The Los Angeles riot of 1992 marked America's first high profile multiethnic civil unrest Latinos Asian Americans whites and African Americans were involved as both victims and assailants Nearly half of the businesses destroyed were Korean American owned and nearly half of the people arrested were Latino In the aftermath of the unrest Los Angeles with its extremely diverse population emerged as a particularly useful site in which

to examine race relations *Ethnic Peace in the American City* documents the nature of contemporary inter ethnic relations in the United States by describing the economic political and psychological dynamics of race relations in inner city Los Angeles Drawing from local as well as international examples the authors present strategies such as coalition building dispute resolution and community organizing Moving beyond the stereotyped focus on negative interactions between minority groups such as Korean owned businesses and the African American community and countering the white black or bi racial paradigms of American race relations the authors explore practical means by which ethnically fragmented neighborhoods nationwide can work together to begin to address their common concerns before tensions become explosive
