Race Nation And Market Economic Culture In Podfirian Mexico:

Race, Nation, and Market Richard Weiner, 2004-03 Race Nation and Market traces the intellectual strands of economic thought during the late Porfiriato Even in the face of Diaz s political reign the market became the dominant theme in national discourse as contemporaries of all political persuasions underscored its social and cultural effects. The work documents the ways in which liberals radicals and conservatives employed market rhetoric to establish their political identities and map out their courses of action and it shows how the market became an emblem linked to the identity of each group BOOK JACKET

Some worshiped it as a deity that created social peace political harmony and material abundance while others demonized it as a source of social destruction Weiner delineates their approaches and reveals how distinct notions of race gender community and nationality informed economic culture and contradicted a laissez faire conception of society and economy By focusing on these rhetorical contests Race Nation and Market offers a new perspective on social mobilization in late nineteenth century Mexico as it also explores the related field of Porfirian economic culture and thought about which little thus far has been written In the face of today s controversy over globalization it offers a unique historical perspective on the market's long standing significance to political Creating Mexican Consumer Culture in the Age of Porfirio Díaz Steven B. Agrarian Crossings Tore C. Olsson, 2017-08-02 In the 1930s and 1940s rural reformers in the United States and Mexico waged unprecedented campaigns to remake their countrysides in the name of agrarian justice and agricultural productivity Agrarian Crossings tells the story of how these campaigns were conducted in dialogue with one another as reformers in each nation came to exchange models plans and strategies with their equivalents across the border Dismantling the artificial boundaries that can divide American and Latin American history Tore Olsson shows how the agrarian histories of both regions share far more than we realize He traces the connections between the US South and the plantation zones of Mexico places that suffered parallel problems of environmental decline rural poverty and gross inequities in land tenure Bringing this tumultuous era vividly to life he describes how Roosevelt's New Deal drew on Mexican revolutionary agrarianism to shape its program for the rural South Olsson also looks at how the US South served as the domestic laboratory for the Rockefeller Foundation's green revolution in Mexico which would become the most important Third World development campaign of the twentieth century and how the Mexican government attempted to replicate the hydraulic development of the Tennessee Valley Authority after World War II Rather than a comparative history Agrarian Crossings is an innovative history of comparisons and the ways they affected policy moved people and reshaped the landscape Religion and State Formation in Postrevolutionary Mexico Ben Fallaw, 2013-01-21 The religion question the place of the Church in a Catholic country after an anticlerical revolution profoundly shaped the process of state formation in Mexico From the end of the Cristero War in 1929 until Manuel vila Camacho assumed the presidency in late 1940 and declared his faith Mexico s unresolved religious conflict roiled regional politics impeded federal schooling undermined agrarian reform and flared into sporadic violence ultimately frustrating the secular vision shared by Plutarco El as Calles and L zaro C rdenas Ben Fallaw argues that previous scholarship has not appreciated the pervasive influence of Catholics and Catholicism on postrevolutionary state formation By delving into the history of four understudied Mexican states he is able to show that religion swayed regional politics not just in states such as Guanajuato in Mexico's central west Rosary Belt but even in those considered much less observant including Campeche Guerrero and Hidalgo Religion and State Formation in Postrevolutionary Mexico reshapes our understanding of agrarian reform federal schooling revolutionary anticlericalism elections the Segunda a second Cristero War in the 1930s and indigenism the Revolution s valorization of the Mesoamerican Bakers and Basques Robert Weis, 2012-09-15 Mexico City's colorful panaderi as past as the font of national identity bakeries have long been vital neighborhood institutions They were also crucial sites where labor subsistence and politics collided From the 1880s well into the twentieth century Basque immigrants dominated the bread trade to the detriment of small Mexican bakers By taking us inside the panaderi a into the heart of bread strikes and through government halls Robert Weis reveals why authorities and organized workers supported the so called Spanish monopoly in ways that countered the promises of law and ideology He tells the gritty story of how class struggle and the politics of food shaped the state and the

market More than a book about bread Bakers and Basques places food and labor at the center of the upheavals in Mexican history from independence to the aftermath of the Mexican Revolution
