Race Relations in Colonial Trinidad 1870-1900 Bridget Brereton, 2002-06-06 An important contribution to the still largely unresearched history of Trinidad

The Steelband Movement Stephen Stuempfle, 1995 The Steelband Movement examines the dramatic transformation of pan from a Carnival street music into a national art and symbol in Trinidad and Tobago By focusing on pan as a cultural process Stephen Stuempfle demonstrates how the struggles and achievements of the steelband movement parallel the problems and successes of building a nation Stuempfle explores the history of the steelband from its emergence around 1940 as an assemblage of diverse metal containers to today's immense orchestra of high precision instruments with bell like tones Drawing on interviews with different generations of pan musicians including the earliest a wide array of archival material and field observations the author traces the growth of the movement in the context of the grass roots uprisings of the 1930s and 1940s the American presence in Trinidad in World War II the nationalist movement of the postwar period the aftermath of independence from Britain in 1962 the Black Power protests and the oil boom of the 1970s and the recession of recent years The Steelband Movement suggests that the history of pan has involved a series of negotiations between different ethnic groups socioeconomic classes and social organizations all of which have attempted to define and use the music according to their own values and interests This drama provides a window into the ways in which Trinidadians have constructed various visions of a national identity

Historical Dictionary of Trinidad and Tobago Rita Pemberton, Debbie McCollin, Gelien Matthews, Michael Toussaint, 2018-03-19 As separate entities and later a unified state the Caribbean islands of Trinidad and Tobago boast very unique histories Initially claimed by the Spanish in 1498 these territories were affected by the imperialist thrusts of various European nations including the French British and Dutch The mercantilist infiltrations of these groups particularly in the 18th century led to the islands belated development as sugar producers and particularly Trinidad as a cradle of migration World War II and the development of the oil and tourism industries in the 20th century transformed the economies culture and society of these islands The country has been one of the most important in the region in relation to economic and political leadership and as a centre of cultural development Historical Dictionary of Trinidad and Tobago contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Trinidad and Tobago

Black Marxism Cedric J. Robinson, 2005-10-12 In this ambitious work first published in 1983 Cedric Robinson demonstrates that efforts to understand black people's history of resistance solely through the prism of Marxist theory are incomplete and inaccurate Marxist analyses tend to presuppose European models of history and experience that downplay the significance of black people and black communities as agents of change and resistance Black radicalism must be linked to the traditions of Africa and the unique experiences of blacks on western continents Robinson argues and any

analyses of African American history need to acknowledge this To illustrate his argument Robinson traces the emergence of Marxist ideology in Europe the resistance by blacks in historically oppressive environments and the influence of both of these traditions on such important twentieth century black radical thinkers as W E B Du Bois C L R James and Richard Wright

Mobilizing India Tejaswini Niranjana, 2006-10-12 An innovative analysis of how ideas of Indian identity negotiated within the Indian diaspora in Trinidad affect cultural identities back home in India **African American Religious**

Glaude, 2003-01-01 Believing that African American religious studies has reached a crossroads Cornel West and Eddie Glaude seek in this landmark anthology to steer the discipline into the future Arguing that the complexity of beliefs choices and actions of African Americans need not be reduced to expressions of black religion West and Glaude call for more careful reflection on the complex relationships of African American religious studies to conceptions of class gender sexual orientation race empire and other values that continue to challenge our democratic ideals Trinidad

Grube, 2015-06-29 This edited volume a collection of both theoretical essays and empirical studies presents an Austrian economics perspective on the role of culture in economic action The authors illustrate that culture cannot be separated from economic action but that Education as and for Legitimacy M.K. Caliban and the Yankees Harvey R. Neptune, 2009-09 In a compelling story of the installation and operation of U S bases in the Caribbean colony of Trinidad during World War II Harvey Neptune examines how the people of this British island contended with the colossal force of American empire building at a critical time in the island s history The U S military occupation between 1941 and 1947 came at the same time that Trinidadian nationalist politics sought to project an image of a distinct independent and particularly un British cultural landscape The American intervention Neptune shows contributed to a tempestuous scene as Trinidadians deliberately engaged Yankee personnel paychecks and practices flooding the island He explores the military based economy relationships

between U S servicemen and Trinidadian women and the influence of American culture on local music especially calypso fashion labor practices and everyday racial politics Tracing the debates about change among ordinary and privileged Trinidadians he argues that it was the poor the women and the youth who found the most utility in and moved most avidly to make something new out of the American presence Neptune also places this history of Trinidad s modern times into a wider Caribbean and Latin American perspective highlighting how Caribbean peoples sometimes wield America and American ways as part of their localized struggles

Caribbean Ethnicity Revisited 4# Stephen D. Glazier, 2021-10-14 This collection of papers by a number of eminent anthropologists explores the patterns of ethnicity in the Caribbean A valuable contribution to current literature in the field these papers greatly increase our understanding of Caribbean societies The variety of theoretical approaches to the processes that shaped Caribbean ethnic relations make this work a fascinating and vital study of the region as a whole

The Petro-state Masquerade Ryan Cecil Jobson, 2024-12-04 A historical and ethnographic study of the fraught relationship between fossil fuels and political power in Trinidad and Tobago Examining the past present and future of Trinidad and Tobago s oil and gas industries anthropologist Ryan Cecil Jobson traces how a model of governance fashioned during prior oil booms is imperiled by declining fossil fuel production and a loss of state control Despite the twin island nation s increasingly volatile and vulnerable financial condition however government officials continue to promote it as a land of inexhaustible resources and potentially limitless profits The result is what Jobson calls a masquerade of permanence whereby Trinbagonian state actors represent the nation as an interminable reserve of hydrocarbons primed for multinational investment In *The Petro state Masquerade* Jobson examines the gulf between this narrative crafted by the postcolonial state and the vexed realities of its dwindling petroleum fueled aspirations After more than a century of commercial oil production Trinidad and Tobago instructs us to regard the petro state as less a permanent form than a fragile relation between fossil fuels and sovereign authority Foregrounding the concurrent masquerades of oil workers activists and Carnival revelers Jobson argues that the promise of decolonization lies in the disarticulation of natural resources capital and political power by ordinary people in the Caribbean

Indigenous Resurgence in the Contemporary Caribbean Maximilian Christian Forte, 2006 Views of the modern Caribbean have been constructed by a fiction of the absent aboriginal Yet all across the Caribbean Basin individuals and communities are reasserting their identities as indigenous peoples from Carib communities in the Lesser Antilles the Garifuna of Central America and the Ta no of the Greater Antilles to members of the Caribbean diaspora Far from extinction or permanent marginality the region is witnessing a resurgence of native identification and organization This is the only volume to date that focuses concerted attention on a phenomenon that can no longer be ignored Territories covered include Belize Cuba Dominica the Dominican Republic French Guiana Guyana St Vincent Suriname Trinidad and Tobago and the Puerto Rican diaspora Writing from a range of contemporary perspectives on indigenous presence identities the struggle for rights relations with the nation state and globalization fourteen scholars including four

indigenous representatives contribute to this unique testament to cultural survival This book will be indispensable to students of Caribbean history and anthropology indigenous studies ethnicity and globalization "New Negroes from Africa" Rosanne Marion Adderley,2006 In 1838 the British government outlawed the slave trade emancipated all of the slaves in its possessions and began to interdict slave ships en route to the Americas Almost at once colonies that had depended on slave labour were faced with a liberated and unwilling labour force At the same time newly freed slaves in Sierra Leone and later from America and elsewhere were persuaded to emigrate to other British colonies to provide a new workforce to replace or augment remnants of the old Some became paid labourers others indentured servants These two groups one English speaking colonists the other new African immigrants are the focus of this study of receptive communities in the West Indies Adderley describes the formation of these settlements and working from scant records tries to tease out information about the families of liberated Africans the labour they performed their religions and the culture they brought with them She addresses issues of gender ethnicity and identity and concludes with a discussion of repatriation

Fueling Empire Karl Ittmann,2025-05-26 Beginning in the late nineteenth century British companies used the resources of empire to create an imperial oil industry that controlled 20% of global oil reserves by 1939 and allowed for the movement of capital and labor between regions and companies The imperial oil complex encompassed colonies Burma and Trinidad and dependent states Iraq and Iraq In both the imperial state used its political and military power to support British oil interests The oil complex drew on the resources of empire but also bolstered it with profits and tax revenues while a global set of oil sites supplied the British military and civilian consumers British companies built an infrastructure of oil production that gave them quasi state power in oil regions while connecting these areas to global and imperial networks of communication and transportation Fueling Empire highlights the significance of Britain to the development of the global oil industry It demonstrates the ways in which the global histories of oil and empire are inextricably interlinked The imperial oil complex relied on a racially stratified hierarchy of labour where white supervisors managed indigenous and migrant workers The harsh conditions of work and low pay fuelled labour conflicts that resonated with emerging colonial nationalist movements that sought to limit the power of oil companies Despite robust private and state security operations the imperial oil complex faced greater insecurity before World War II While the imperial oil complex survived the war in the postwar era decolonization and Britain's financial weakness led to its decline
