Donaldson,2020-01-31 In a bold departure from previous scholarship Le Trice D Donaldson locates the often overlooked era between the Civil War and the end of World War I as the beginning of black soldiers involvement in the long struggle for civil rights Donaldson traces the evolution of these soldiers as they used their military service to challenge white notions of an African American second class citizenry and forged a new identity as freedom fighters willing to demand the rights of full citizenship and manhood Through extensive research Donaldson not only illuminates this evolution but also interrogates the association between masculinity and citizenship and the ways in which performing manhood through military service influenced how these men struggled for racial uplift Following the Buffalo soldier units and two regular army infantry units from the frontier and the Mexican border to Mexico Cuba and the Philippines Donaldson investigates how these locations and the wars therein provide windows into how the soldiers struggles influenced black life and status within the United States Continuing to probe the idea of what it meant to be a military race man a man concerned with the uplift of the black race who followed the philosophy of progress Donaldson contrasts the histories of officers Henry Flipper and Charles Young two soldiers who saw their roles and responsibilities as black military officers very differently Duty beyond the Battlefield demonstrates that from the 1870s to 1920s military race men laid the foundation for the New Negro movement and the rise of Black Nationalism that influenced the future leaders of the twentieth century Civil Rights movement *Comparative Sociological Research in the 1960s and 1970s* Armer,Marsh,2022-03-28 Chambers's Encyclopaedia ,1883 West Mojave, a Habitat Conservation Plan and California Desert Conservation Area Plan Amendment ,2005 The Color of America Has Changed Mark Brilliant,2010-11-04 From the moment that the attack on the problem of the color line as W E B DuBois famously characterized the problem of the twentieth century began to

gather momentum nationally during World War II California demonstrated that the problem was one of color lines In *The Color of America Has Changed* Mark Brilliant examines California's history to illustrate how the civil rights era was a truly nationwide and multiracial phenomenon one that was shaped and complicated by the presence of not only blacks and whites but also Mexican Americans Japanese Americans and Chinese Americans among others Focusing on a wide range of legal and legislative initiatives pursued by a diverse group of reformers Brilliant analyzes the cases that dismantled the state's multiracial system of legalized segregation in the 1940s and subsequent battles over fair employment practices old age pensions for long term resident non citizens fair housing agricultural labor school desegregation and bilingual education He concludes with the conundrum created by the multiracial affirmative action program at issue in the United States Supreme Court's 1978 *Regents of the University of California v Bakke* decision The Golden State's status as a civil rights vanguard for the nation owes in part to the numerous civil rights precedents set there and to the disparate challenges of civil rights reform in multiracial places While civil rights historians have long set their sights on the South and recently have turned their attention to the North advancing a long civil rights movement interpretation Mark Brilliant calls for a new understanding of civil rights history that more fully reflects the racial diversity of America

**Mythic Frontiers** Daniel R. Maher, 2019-03-04 Maher explores the development of the Frontier Complex as he deconstructs the frontier myth in the context of manifest destiny American exceptionalism and white male privilege A very significant contribution to our understanding of how and why heritage sites reinforce privilege Frederick H Smith author of *The Archaeology of Alcohol and Drinking* Peels back the layer of dime westerns and True Grit films to show how their mythologies are made material You'll never experience a heritage site the same way again Christine Bold author of *The Frontier Club Popular Westerns and Cultural Power 1880-1924* The history of the Wild West has long been fictionalized in novels films and television shows Catering to these popular representations towns across America have created tourist sites connecting such tales with historical monuments Yet these attractions stray from known histories in favor of the embellished past visitors expect to see and serve to craft a cultural memory that reinforces contemporary ideologies In *Mythic Frontiers* Daniel Maher illustrates how aggrandized versions of the past especially those of the American frontier have been used to turn a profit These imagined historical sites have effectively silenced the violent oppressive colonizing forces of manifest destiny and elevated principal architects of it to mythic heights Examining the frontier complex in Fort Smith Arkansas where visitors are greeted at a restored brothel and the reconstructed courtroom and gallows of Hanging Judge Isaac Parker feature prominently Maher warns that creating a popular tourist narrative and disconnecting cultural heritage tourism from history minimizes the devastating consequences of imperialism racism and sexism and relegitimizes the privilege bestowed upon white men

*The Manufacture of Consent* Stephen M. Underhill, 2020-02-01 The second Red Scare was a charade orchestrated by a tyrant with the express goal of undermining the New Deal so argues Stephen M Underhill in this hard hitting analysis of J Edgar Hoover's rhetorical agency

Drawing on Classification 94 a vast trove of recently declassified records that documents the longtime FBI director's domestic propaganda campaigns in the mid twentieth century Underhill shows that Hoover used the growing power of his office to subvert the presidencies of Franklin D Roosevelt and Harry S Truman and redirect the trajectory of U S culture away from social democracy toward a toxic brand of neoliberalism He did so with help from Republicans who opposed organized labor and Southern Democrats who supported Jim Crow in what is arguably the most culturally significant documented political conspiracy in U S history a wholesale domestic propaganda program that brainwashed Americans and remade their politics Hoover also forged ties with the powerful fascist leaders of the period to promote his own political ambitions All the while as a love letter to Clyde Tolson still preserved in Hoover's papers attests he strove to pass for straight while promoting a culture that demonized same sex love The erosion of democratic traditions Hoover fostered continues to haunt Americans today
